Baltimore Markets.

BALTIMORE, November 10.—Breadstuffs.—Flour.—The sales to-day on Change amounted to 700 bbls., partly for export, as follows: 250 bbls. Western Superior and Extra, on private terms, and 300 do. Family at $6.75@7. There is some little inquiry for Ohio brands City Mills Extra, but we learn of no transaction.

Wheat.—The sales embraced 5,000 bushels low grades, mostly from store, on private terms, for export; 600 do. Western red at $1.30; 1,000 do. Southern white at $1.30@1.40 for fair to prime; 1,200 do. on memo. at $1.41; 1,000 do. good to prime red at $1.40@1.45, and 2,000 do. inferior to fair do. at $1.30@1.40. Ohio Southern amber we quote at $1.45.

Corn.—The sales of Southern weak, 1,500 bushels white at [illegible] cents for new and 76@78 cents for old, and a parcel of new yellow at 60 cents. Western mixed offered in Elevator at 48 cents, and for delivery all this month at 46 cents, but the only sales reported are 1,300 bushels at 47 cents in Elevator, and 6,000 on the track.

Oats.—The sales to-day were 6,000 bushels Southern at 46 cents, 3,000 bushels mixed Western at 44@45½ cents, and 1,000 bushels prime do. at 46 cents.

Rye.—The market was firmer to-day, and sales of 800 bushels good to choice at 80@82 cents. We also note a sale of 100 bbls. Rye Flour at $5.25 per bbl.

Cotton.—The market for Cotton opened strong, with an advance at New York of ¼c cent on both spot and future, with considerable business, but futures were easier at noon. Our market was excited, and holders declined off from their samples generally. We earn of a sale to-day of 31 bales on private terms. The sales on Saturday reached also 31 bales at 13¾@14 cents for strict good ordinary to low middling. To-day we quote prices as follows: Middling 13¾@13¾c nts, low middling at 13¼@13½ cents, and good ordinary at 13¼@13½ cents for cash.

Provisions.—The market for Provisions is weak and unsettled, prices being very irregular for all the hog product. Bulk Meat is quoted in round lots, loose, at 6¾ cents for Shoulders, and at 8¾ cents for clear rib sides, but for jobbing lots, packed, considerably above these figures is asked. Bacon is jobbing at 7¾ cents for clear rib sides, and 10¼@10¾ cents for shoulders, and Hams selling at 13@13½ cents. Lard is dull and nominal at 7¾@8¼ cents for prime Western steam, and New York we quote at 8¼@8½ per bbl. for old and 8½ for new.

Sugars.—Quote price nominally as follows: Cuba and Porto Rico fair to good refining, 7@7¼ cents, English Island do. 6¾@7 cts.; Cuba Centrifugal, 7¼@8 cts.; do. boxes, No. 12, 7¾@7¾ cts., Porto Rico grocery, 7¾@8¼ cts., and Havana grocery, 7¾@8¼ cts. The stock here is 11,611 hhds., 1,115 boxes and 8,100 bags.

Whisky.—We learn of no sales of High Wines, and report the market dull and nearly nominal at 91@92 cents per gallon.

MARRIED.

PROPOSALS FOR MAIL LOCKS AND KEYS

POST OFFICE DEPARTMENT, WASHINGTON, D. C., Sept. 17, 1873.

SEPARATE SEALED PROPOSALS will be received at this Department until 12 o'clock noon, the FIFTEENTH DAY OF DECEMBER, 1873, for furnishing, under separate contracts, two different kinds of padlocks and keys, one for the sole and exclusive use of *registered* through mails, and the other for the sole and exclusive use of *street letter boxes*.

Every proposal must be accompanied with duplicate samples of the locks and keys thereby offered to be furnished; one of each kind of samples lock to be riveted up and finished, and another to be open or unriveted, so that its internal structure and arrangement may readily be examined. Each sample should be plainly marked with the bidder's name, and if the same, or any part thereof, be covered by a patent, the name of the patentee must be attached thereto. It must also be such as shall be warranted to not infringe on any patented invention, of which the bidder is not the patentee or assignee.

The internal plan or arrangement of the locks offered, and the particular form of the keys requisite to open them, must not be like any now or hitherto in public or private use, and must not have been exhibited, described or exposed, in any manner tending to impair their security and usefulness for the mails; and it will be an important consideration in favor of any lock and key submitted if, being otherwise suitable, it shall have been invented specially for the purpose for which it is offered.

Locks suitable for the registered mails, or for the street letter boxes, should not exceed eight ounces each in weight, and should possess a high degree of security, strength and durability. Every such lock, while it must be secure from being opened by any other means than by its peculiar key, unless designedly broken by extreme and obvious violence, must be devoid of any intricacy in opening with its proper key, and be capable of being securely shut without the use of the key. The same or nine of the locks for registered mails should be such as to make them distinguishable at a glance from the locks of the *street letter-boxes*, and both should, by their external shape, be instantly distinguishable from the mail locks now in use.

The Registered Mail Locks should be made of hard and tough brass, excepting the shackle and rivets, which must be iron, the latter well shouldered, counterpunk, and headed at both ends. The shell or case of such locks must not have sharp angles, and must be free from knobs, escutcheons, or other appendages likely to be compressed outward, or knocked out of order by the pecuniary hard usage of the service. Each lock is to have one side one plain face, to admit sufficiently large and distinct, "*U. S. Registered Mail*," and also such number, (in figures, each, not less than 1-16 of an inch long,) as may be assigned, a different number, not exceeding four places of figures in any case, being required on each lock. Such words and figures are to be sunk by stamping, if the shell be made of wrought or sheet brass, or to be raised if the shell be made of cast metal. All the locks for registered mail are to be uniformly alike, except that they are to be marked on them, and all their keys, which should be case-hardened iron and nickel-plated, are to be also alike, so that any one of all the keys which may be furnished for them shall easily fit and readily open any one and all of the locks. The keys should have a shank nearly two inches long between the bit and the bow, and the bow should be solid, with a small hole through it, and have stamped on one side the words, "*U. S. Registered Mail*," and upon the opposite side such number (in figures not less than one sixth of an inch long) as may be ordered; every key to have a different number, of which none will exceed four places of figures.

The locks for the Street Letter Boxes are to be made of hard and tough brass, and the key-hole of each lock should be in the lowest part of the wall or shell or case, when the lock is hanging by its shackle, and should be sheltered by a sufficient jutting out of the upper and lower rim around that part of the wall. The interior mechanism of the lock should be in a position somewhat remote from the key-hole, and be operated easily by its key, which should be of steel, and be of such form, convenient length and sufficient strength and stiffness. The bow of the key should be solid, with a small hole through it, and is to have "*U. S. Letter Carrier*" stamped on one side, and such figures and letters stamped on the opposite side as may be ordered. The face of each lock is to have upon it "*U. S. Street Letter Box*" in either raised or sunk letters, and any other letters besides, not exceeding three, that may be ordered. All the locks and keys of the same letter or letters are to be adapted to each other, and no lock is to be opened by any key not marked with the same letter or letters.

The locks of each kind contracted for must be delivered according to order, at the Post Office Department, at the risk and expense of the contractor, put up in pasteboard boxes of five each, and packed in strong wooden boxes containing not less than one hundred locks each. The keys to such locks are to be strung, by the natural series of numbers, on wire rods, each containing one hundred keys, and are to be delivered to an agent of the Department specially authorized to receive them and convey the same from the manufactory to the Department, where both the locks and keys are to be inspected and approved as conformable to the adopted sample before they shall be paid for.

The samples of locks and keys submitted under this advertisement, the Postmaster General will make a selection (or contract, unless he should deem it expedient for the interests of the service, to decline accepting any of the proposals and samples presented. Therefore the right to reject any and all the proposals and samples is hereby reserved to him.

A decision on the several proposals and various samples submitted will be made on or before the second day of February, 1874, and within thirty days thereafter the bidder or bidders whose proposals may have been accepted must enter into contract with bond and security as hereinafter specified.

The contracts which may be made will be for the term of four years from and after the first day of January, 1874.

The contractor for Registered Mail Locks and Keys will be required by contract to furnish such locks and keys in such quantities, and at such times as may be ordered by the Postmaster General, and must serve, and be able, to furnish thereafter any further quantities of such locks and keys as the same may be ordered. On entering into the contract the contractor must exec
