DYEING AND SCOURING.

JUST AS WE EXPECTED.
Such a rush of LADIES AND GENTS' APPAREL to be CLEANED and DYED has not been seen for some times. With every facility and a full corps of skilled workmen we are at it with a determination to do it good and to clean it all out on time or drain the effort; not that we are tired of living, but because dying we expect to live, while we know not how to live except we dye.

PROPOSALS.

PROPOSALS FOR MAIL LOCKS AND KEYS.

POST OFFICE DEPARTMENT, WASHINGTON, D. C., Nov. 17, 1873.

SEPARATE SEALED PROPOSALS will be received at this Department until 12 o'clock noon, on the FIFTEENTH DAY OF DECEMBER, 1873, for furnishing, under separate contracts, two different kinds of padlocks and keys; one for the sole and exclusive use of *registered through mails*, and the other for the sole and exclusive use of *street letter boxes*.

Every proposal must be accompanied with duplicate samples of the locks and keys thereby offered to be furnished; one of each kind of sample lock to be tested up and fastened, and another to be open or unlocked, so that its internal structure and arrangement may readily be examined. Each sample should be plainly marked with the bidder's name, and if bidding, or any part thereof, be reserved by a patent, the name of the patentee must be attached thereto. It must also be such as shall be warranted to not infringe on any patented invention of which the bidder is not the patentee or assignee.

The internal plan or arrangement of the locks offered, and the particular form of the keys requisite to open them, must not be like any now or hitherto in public or private use, and must not have been exhibited, described or exposed, in any manner tending to impair their security and usefulness for the mails, and will be an important consideration in favor of any lock and key so submitted if, being otherwise suitable, it shall have been invented specially for the purposes for which it is offered.

Locks suitable for the registered mails, or for the street letter boxes, should not exceed eight ounces each in weight, and should possess a high degree of security, strength and durability. Every such lock, while it must be secure from being opened by any other means than by its peculiar key (unless designedly broken by extreme and obvious violence), must be proof against any interior, by opening with the proper key, and be capable of being securely shut without the use of the key. The shape or size of the key for *registered mails* should be such as to make them distinguishable at a glance from the locks of the *street letter boxes*, and both should be their external shape, be instantly distinguishable from the mail locks now in use.

The Registered Mail Locks should be made of hard and tough brass, excepting the shackle and rivets, which must be iron, the latter well shoulder, countersunk, and headed at both ends. The shackle or open end of each lock must not have sharp angles, and must be free from knots, scutcheons, or other appendages likely to be compressed, battered, or knocked off in use, by the peculiarly hard usage of the service. Each lock will have outside upon its face, in letters sufficiently large and distinct, "*U. S. Registered Mail*," and such number, (in figures, each, not less than 1-16 of an inch long,) as may be ordered by the Postmaster General, and must serve, and be able, to furnish three thousand of such locks and six thousand of such keys, if so ordered, within six months after the receipt of such order, and to furnish thereafter any further quantities of such locks and keys at the same rate, if required
