SPICES—Trade is for the moment unfavorably affected by the reduction of 10 per cent in the duty on East India Spices; these are being received from London in rather liberal quantities, and buyers are disposed to hold off for easier prices, this of course does not affect such articles as Pimento and African ginger. Nutmegs, 78@80c.; Sinapore Pepper, 17⅜@18c.; Batavia, 16½c.; Pimento, 12⅜@13¼c.; Cloves, 23@ 32½c.; Cassia, 18½@19½c.; Calcutta Ginger, 6⅝c.; African do., 7@7½c.

WHOLESALE PRICES OF COUNTRY PRODUCE

For the week ending Jan. 9, 1883

PEAS AND BEANS.

Receipts for the week—Beans, 2,471 pkgs.; Peas, 5,634 bush. Exports—Beans, 118 pkgs.; Peas, 4,332 bush. Imports for the week, 210 pkgs. Buyers are disposed to wait for the developments of the import business before stocking up, hence a dull market generally. Marrow, Medium and Pea Beans rule a trifle weak; buyers for large lines could probably obtain some concession from quotations. Red Kidney richer and firm. Turtle soup slow. Green Peas dull and a shade easier;

Receipts for the week, 24,951 pkgs.; last week, 22,351 pkgs.; corresponding week last year, —— pkgs. Exports for the week, 829 pkgs. Gradually the market has settled about 2c per lb, and we are having an extremely dull trade. Every effort made thus far has failed to stimulate buyers to operate beyond the most urgent wants, and with weaker advices both from this State and the West, receivers are more inclined to meet the situation squarely and put prices down to a point where the goods will find an outlet. It looks very much as though exporters would have to take many of the Fair to Good State Dairies at from 20 to 22c, as we certainly have not home demand enough to use the accumulated stock in addition to the fresh made Western Butter, which shows a very material increase. Strictly Choice Entire Dairies are now offering at 32c.; Good to Prime at 25@28c., and Fair at 24@25c., so that prices are steadily nearing shippers' bids. Closely-selected half-firkin tubs reach 30c., and we hear of 32c. being made occasionally for the fresh ends of the best Delaware County Dairies, but few straight lines are of quality to sell above 30c. Firkins almost unsalable and entirely nominal. Receipts of creamery are liberal but all show loss of quality and a very small proportion of the offerings will bring outside quotations. The Elgin market yesterday was dull at 39c., and dealers have learned to operate on too small a margin to keep prices here above 41@42c. With one or two exceptions the best marks of Iowa or Minnesota are offering at 37@38c., while the bulk of the stock cannot be moved at 35c. Western Imitation Creamery and Choice Fresh Dairy sell very slowly and rule a fraction lower. Factory in free receipt, very light demand and prices decidedly lower and weak.

Fancy marks such as "W. and L." are offering at 25c. without attracting buyers. These goods must necessarily go to exporters at 18 to 20c., as the local demand is not sufficient to absorb the receipt.

Receipts for the week, 22,759 boxes; last week 31,471 boxes; corresponding week last year —— boxes. Exports for the week, 26,449 boxes; same time last year, —— boxes; Liverpool cable quotations, 68s. Freight by steam to Liverpool, 30@35c. Commercial sixty days' bill on London, $4 78½ @$4 79. State Factory Cheese are held with great confidence, some holders refusing to sell at the prices quoted, but the high figures asked tend to less the demand for the top grades, and the market is ruling quiet. Exporters have some orders for fine fall stock, which they are filling at 12¾@13¼c. The strong holding of State Cheese makes a firm feeling in Ohio flats, the best of which have occasional sales to the home trade at 13¼@13½c. Creamery Skims have had a good export demand, and stock has worked out nicely at ⅛c. advance. We hear of special lots reaching 8¼@8½c., but shippers rarely bid above 8c. for Choice.

EGGS.

*Receipts for the week, 6,564 pkgs.; last week, 6,174 pkgs. The market remains very dull and weak for the bulk of stock offering. Buyers confine their attention to the few small lots of Choice, late packed goods, and these being in small supply, are held about steady. The stock in store on January 1 was stated by the Mercantile Exchange at 27,587 bbls. and 2,654 boxes. This large stock is made up almost entirely of ice house, fresh and limed Eggs of generally poor quality, and has a very depressing effect upon trade. Holders are anxious to sell and continue to offer more favorable terms, but the trade are unable to use bad Eggs, and the lower prices fail to awaken any increased movement. Some of the best kept ice house lots have an occasional sale at about 24c., and fall packed at 25@26c., but the sales even at these prices are inconsiderable. Inferior stock offered from 22c. down to 15c., and entirely neglected. A few fresh Southern Eggs arrive, but they are irregular in quality and vary a good deal in price. Prime Tennessee lots sell at 27@27½c. and fine, fresh Maryland and Virginia at about 28c., but ordinary lots run small and dirty, and have to go at about 26@26½c. Limed Eggs are offered freely at a further material decline.

FRUITS, BERRIES AND NUTS.

Exports of Apples for the week, 3,921 bbls. Apples are in light supply, moderate demand and firm. The few lots arriving on the docks are sold in the range quoted, but holders of Fancy stock in store report small sales to the retail trade at higher and sometimes quite extreme prices. A few Very Fancy Greenings sold in small lots from second hands, reach $4 50; Spitzenberg, $6@$7, and Newtown Pippin, $10@$12 per bbl. Grapes are in fair supply and very dull; the remaining stock is usually of poor quality; some lots sold down to 5c. per lb, only. Very choice reaching our outside quotation. Cranberries have sold moderately on out-of-town orders at firm prices. Florida Oranges in light receipt and firm, a few special brands of Extra Fancy fruit slightly exceeding quotations. There has been a demand for Tangerines at very high prices; a few have arrived and sold at $10@$20 per ½ bbl.
