THE RAMSDEN ABANDONMENT CASE.

The proceedings brought by Mrs. Ramsden again t her husband, Edward Charles Ramsden, for abandonment, were continued before Justice Herriman yesterday in the Harlem Police Court. Mr. Ram den sat biting his spectacles wh le he was being cross-examined, and varied the proceedings by advising his wife's lawyer 'not to waste so much time on immaterial points." At times he became indignant, as when asked some delicate questions about Mrs. Stagg's daughter.

Mr. Ramsden believed he had had one child by his wife; he wasn't sure but he was, reasonably convinced. He had been at Spa and Wiesbaden but, did not recollect leaving those places without paying his hotel bills. It was possible he had done so, but he couldn't say for certain. He had registered at some hotels under assumed names, but that was because he desired to travel incog. One or two of his letters were read to the Court. They were written after his wife had kicked him and torn his hair. One of them was as follows:

"MY DEAREST WIFE: Three letters I have already written to thee, still I am without one syllable from thee. I am quite beside myself. May it please God that nothing has happened to thee. Day and night I pray to Him to watch over thee, to give thee good health, etc. I shall soon kiss your beautiful sweet lips again. May God grant it. My dear beloved angel may God bring you soon safely over the sea to me, and again lay you in my arms."

The witness said that he had written several letters, in which he had called his wife darling and angel, in the hope that she would learn to grow better, but from 1869 up to d te, be added, it there was any woman he hated it was his wife. He was sorry he could not marry Helen Stagg. "I would dearly have liked to marry that excellent and virtuous woman," he added.

Part of the great Egyptian Sorceress scheme advertisement was read:

"TO THE LADIES OF THE ARISTOCRACY.—A lady from Egypt who has travelled more than twenty years in many parts of the world and made feminine appearance and beauty her study, has b come acquainted with many Oriental secrets and remedies for imparting a lustre and beauty to the complexion, for which Turkish and Egyptian ladies are so much and deservedly admired. The use of paints and dyes or any deleterious substance whatever is not in Egyptian treatment at all, which is solely comprised in the best herbs, which renew the whole body of woman. After a few herbal baths you will not know yourself and every one will say what a change has taken place in a few days even. A lady of any age will in a short time recover her youthful vigor and color as at the age of twenty-five, e.c., etc.

"Egyptian consultation fee sits cost five guineas, which any lady will be glad to pay."

Lewis Jacobs, a furrier, doing business in this city and in London, was called to testify as to what he knew of the trial of the case of Ramsden vs. Moses, in London. He was present, he said, and had heard witnesses testify that they had been bribed through Mrs. Ramsden to give false testimony in that case. He had volunteered to become a witness in the present case, and had been led to do so by reading the accounts of the trial in the newspapers.

"Ask him how many husbands Mrs. Moses had," whispered Mrs. Ramsden to her counsel. "Ask him that."

The case will be continued to-morrow.

FEATURES OF THE CHICAGO MARKETS.

[BY TELEGRAPH TO THE TRIBUNE.]

CHICAGO, April 19.—The wheat market is a good deal better to-night than last night. The great "scalpers" who bought a fortnight ago and have been buying ever since have sold out. Nichols is believed to have realized in the wheat held by the Parks crowd, and Deacon Hobbs has sold the wheat he bought for himself, for William Clapp and for his rich New-York Methodist brethren. Lindblom sold his holdings, getting rid of something like 500,000 bushels on the curb after the "call." Of course with all this realizing there was some covering of "shorts." If there had not been, all the grain could not have been sold and yet the prices all the while advanced. There was certainly a deal of "short" wheat covered. McGeoch's partners scrambled for some of it at the top prices of the day. A great many other "shorts" did the same thing. About the only persistent people in the crowd of "bears" are believed to be Lester and his friends, and Swartz & Dupee and their customers. It is possible that to-morrow there will be a reaction; the only thing against it is the fact that almost everybody is anticipating such reaction. The majority of operators now believe that after each fluctuation there will be an advance. Most of the operators who sold out to-day would be likely to take hold again if there was a two-cent tumble.

News of the condition of the growing wheat crop is sought after. Such advices as are received here tell of great damage. Most of the big commission houses have started men on horseback through Ohio, Indiana, Illinois and Kansas to gather information. There is a wide difference of opinion as to the percentage of damage, and also as to whether or not, with fair weather and other favorable circumstances, there can be, between now and harvest, a complete recovery. The McCormick Reaper Company at the beginning of the month from estimates of their agents figured that the winter wheat crop would fall 15 per cent short of an average. McCormick & Bedee on April 17 announced as follows: "We estimate the crop of winter wheat as likely to approximate as follows: Illinois and Indiana, 50 per cent of an average; Ohio, 70 per cent; Kentucky, Tennessee and Missouri, 75, and Kansas, 80 per cent." Almost private reports from the wheat fields are kept secret, but he is known to be a "bull" on and a large owner of wheat.

Two million bushels of wheat and 1,725,000 bushels of corn were sold on the "call" this afternoon. Wheat for May was carried to $1 11⅛, for June to $1 13⅛, and for July to $1 14. It was created by a panic among the "shorts." May wheat closed at $1 11, June at $1 13⅛, July at $1 13¾. There was a fractional decline on the "curb." Corn was strong, partly because of the great falling off in the receipts and partly, too, because of the strength about the wheat pit. This strength was exhibited despite the fact that there was a rumor abroad that corn in the elevators was "hot." The May option stopped at 55¾ cents, 2 cents above the figures of twenty-four hours before. Provisions were strong. Pork moved up 22½@27½ cents a barrel, and lard and short ribs 7½@10 cents a hundred pounds. But these products are manipulated. McGeoch is keeping his adversaries, the English packing houses, commission houses, and others less able, busy now putting up margins. While the receipts of hogs continue small, the demand from the people who eat up pork and lard also continues small.

THURSDAY, April 19—P. M.

To-day's stock market developed a continued disposition to liquidate. The declines in prices which occurred were not sharp nor decisive enough to alarm the average buyer, who had purchased at about top prices on clique "points." The character of the opening of the market, at prices which were fully equal to last night's prices, presented as many indications of an advance for the day as it did for a decline. But a steady, yet not an aggressive offering of stocks, did not fail to exert its influence upon prices. As usual, a few stocks made up the bulk of the day's business. Four stocks, the transactions in which ranged from 33,600 shares for Louisville and Nashville to 103,400 shares for Delaware, Lackawanna and Western, contributed 212,900 shares towards the day's total business of 464,292; and four other stocks, with transactions ranging from 20,000 shares for Central of New-Jersey to 27,900 for Lake Shore, contributed another 106,900; total for the eight stocks, 319,800 shares, or nearly three-fourths of the day's business. Delaware, Lackawanna and Western, with its large transactions declined from 129@129⅝ to 127½@128¼. Union Pacific stock to-day was a notably strong stock; it sold no lower than yesterday—at 97¼—and after selling up to 98½@97½ closed at 98. The special strength developed by this stock to-day is directly traceable to the operations of one of the leading "bulls" on the general market, who has been and probably still is "short" of Union Pacific stock. With the general market weak, he cares not how high he buys his "shorts" in Union Pacific, provided its price has an effect upon the general market—as it assuredly does have. The Hannibal and St. Joseph stocks were dull; the common sold at 42@41, and the preferred at 93@91½@92½. Chicago, Burlington and Quincy stock was fairly steady at 127½@126¼@126½. The purchase of the Hannibal and St. Joseph stock by the Chicago, Burlington and Quincy Company is fully confirmed. The cost of the Chicago, Burlington and Quincy Company is about $9,000,000 in its 5 per cent consolidated bonds, the annual interest upon which will be $450,000; the interest on the debt of the Hannibal and St. Joseph Railroad is $653,000 per annum; so the Chicago, Burlington and Quincy must realize in net earnings from the Hannibal and St. Joseph Company over $1,100,000 to make good its annual expenditures for the purchase; that sum is $100,000 greater than the net earnings of the Hannibal and St. Joseph for the year of 1882 (according to its own report), and is more than $200,000 greater than the average net earnings of the Hannibal and St. Joseph for the last six years. The acquisition of the Hannibal and St. Joseph by the Chicago, Burlington and Quincy renders necessary a rearrangement of the pools between Chicago and Missouri River points, which may not be accomplished without a fight. The market closed with some recovery from the lowest prices on the covering of "short" traders, but it was weak.

In Governments there were considerable amounts of 4s sold, and the market was steady, with bids for the 4s ½ higher. Annexed are the closing quotations:

State bonds were almost neglected; sales of Tennessee compromise bonds are noted at a concession of ¼. There were no transactions in city bank stocks.

The dealings in railroad bonds generally were small, and the prices of these issues which were active were irregular and fluctuating. Erie second consols were off ¼; C., C. and I. C. incomes, reorganization certificates, rose from 72¾ to 75@74. Canada Southern firsts were less active than yesterday and were steady, and New-York, Chicago and St. Louis firsts and West Shore and Buffalo fives fluctuated within a range of ¼ per cent, and closed the same as yesterday. Missouri, Kansas and Texas seconds declined 1⅛ per cent and the general mortgages were ⅛ easier. Texas & Pacific incomes dropped to 66¼, but closed unchanged at 67, and firsts of Rio Grande division were about steady. East Tennessee, Virginia and Georgia consols were off ½, and the incomes, after a decline of 1 per cent to 37, closed at 37⅜. Richmond and Danville firsts were steady at 96½, but the debentures were off 1¼ per cent.

The Sub-Treasury to-day lost on balance, $88,233, made up by losses of $77,264 coin and $10,969 currency. The day's transactions covered: Receipts, $858,555; payments, $946,788; currency balance, $7,033,571; coin balance, $121,825,841. Money to-day on call was sufficiently more active to make the rate for some exceptional transactions 8 per cent, but the business generally was done at 5½ to 6 per cent, and the closing rate was 6 p r cent. Domestic exchanges on New-York at the places named are quoted as follows: Savannah, ⅛ discount to ⅛ premium; Charleston, par to ¼ premium; New-Orleans, 75@50 cents discount for commercial, and $1 premium for bank; St. Louis, 50 cents premium; Chicago, 75 cents premium; Boston, 30@25 cents discount.

The Clearing-House statement to-day is as follows: Exchanges, $132,963,812; balances, $3,489,413.

The United States Treasury at Washington today received $242,000 National bank notes for redemption. The customs receipts were $725,924, and the internal revenue receipts $404,375.

The foreign exchanges continued dull, but the rates for business are unchanged from yesterday, viz.: Bankers' bills, $4 83 and $4 85½ for long and short sterling respectively; 5.21 and 5.19 for francs; 94½ and 95 for reichmarks; 40⅛ and 40⅝ for guilders.

The Governors of the Bank of England at their weekly meeting to-day made no change in the bank's minimum rate for discount, and it remains at 3 per cent. During the week the bank lost £240,000 bullion, but the proportion of its reserve to its liabilities was raised from 36 15-16 to 37 7-16 per cent, against 44 3 16 per cent at same date last year. To-day the bank gained £60,000 bullion on balance. The weekly statement of the Bank of France shows gains of 4,325,000 francs gold and 2,800,000 francs silver. At the London Stock Exchange, British consols were steady at 102 7-16 for money and 102 9-16 for account. United States 4½s were ¼ lower and the others were unchanged. American railways were all lower; the declines ranging from ¼ to 2 per cent. A Paris, French 3 per cents were off to 79.30 francs and sight exchange on London was firm at 25.22½ francs to the £.

The members of the Stock Exchange to-day were not wanting in their expressions of pleasure at Welcoming back to his duties Mr. Alexander Henrique, vice-chairman of the Board, after an absence of some two weeks because of a serious illness.

Subscribers to the stock of the North River Construction Company who have failed to pay the last and final installment upon this stock will notice by an advertisement in another column that if the payment is delayed beyond May 21 steps will be taken to forfeit all payments that have been made.

MINES AND MINING.

THURSDAY, April 19—P. M.

There is little of to-day's mining stock market worthy of notice. Sonora Consolidated rose from 1.35 to 1.50, declined to 1.10, and closed at 1.25. Navajo sold at 2.25@2.50@2.35 against 2.10 last last evening. Hale & Anderson declined from 1.60 to 1.40@1.50, and Robinson was 2 cents lower at 79 cents. Alta Montana recovered from 2 to 5¾ cents. Horn Silver was off ⅜ at 7⅞. The Comstocks were dull, but Sutro was in free supply at 20 cents.
