THE COURTS.

POST OFFICE AUTHORITIES ENJOINED.

Justice Donohue, in the Supreme Court, Chambers, yesterday granted an order restraining the Post Office authorities from interfering with the business of Boyd's Dispatch. The order to show cause why the injunction should not be continued is returnable to-morrow. The complaint in the suit is in the name of Mary Blackham, who is said to be the owner of the company. It sets forth the nature of the business, and that it has been carried on without objection on the part of any one for many years. The circumstance of the recent raid of the Post Office authorities is also described. The business is said to be worth $100,000. The plaintiff alleges that the raid was without authority of law and in gross violation of her rights. She intends to stand up boldly for her rights in the courts, but in the meantime wants to be able to carry on her business.

CIVIL NOTES.

Judge O'Gorman yesterday, in the Superior Court, Chambers, made an order dismissing the lunacy proceedings which were begun recently against John Gill by some of his children, on the ground of certain irregularities in the papers on which they were begun. The order was entered on the consent of the attorney for Mr. Gill's children. It is supposed that new proceedings will be begun.

The third trial of the suit of Anthony Farrell against General Newton, in charge of the Hell Gate excavations, was begun yesterday before Judge Shipman and a jury in the United States Circuit Court. Farrell was a laborer employed at Hell Gate in July, 1878, and was permanently injured by the fall of a mass of rock. He sued for $50,000, and on two occasions the trial of the case resulted in a disagreement on the part of the jury. The trial will be continued to-day.

Maria Amberger, in behalf of herself and twenty other women, members of the Stamm Lodge of the Sons of Malta, obtained a few days ago a temporary injunction restraining Eliza Folk and sixty-nine other women from drawing out $700 from the German Savings Bank, funds of the lodge. The plaintiffs and defendants lived peacefully together as members of the lodge until March 28, when there was a disruption of the lodge. The motion to continue the injunction was argued yesterday before Judge O'Gorman.

A MISSISSIPPI LEVEE CONVENTION.

NEW-ORLEANS, May 8.—A special dispatch from Baton Rouge, La., to *The Times-Democrat* says the Governor has issued an order reciting that as all the citizens of Louisiana are vitally interested in maintaining, repairing and building levees, the inauguration of a practical system to prevent and close crevasses, the adoption of a plan to prevent the cutting of levees for roadways and the use of them as highways, and in means to be employed for the improvement of the navigation of the Mississippi River, therefore the Governor has thought it proper to call a convention, to assemble at the State Capitol on Monday, the 18th of June next, for the purpose of advising such measures as they may deem proper in the premises.

CHARTERS DECLARED FORFEITED.

HARRISBURG, Penn., May 8.—The Governor last night issued a proclamation declaring forfeited the charters of all those corporations which have failed to make a return to the Attorney-General within three years, and which have not responded since the issuing of a previous proclamation thirty days ago. Between 650 and 700 charters are declared forfeited. The list is composed largely of defunct concerns.

FEATURES OF THE CHICAGO MARKETS.

[BY TELEGRAPH TO THE TRIBUNE.]

CHICAGO, May 8.—The commission men who promised last night that by the opening of the Board this morning they would be in possession of the main facts of the May Washington agricultural report looked confident and wise to-day. They were so, too and after they had gotten rid of a deal of wheat, they confidentially exhibited telegrams from New-York, announcing that the forthcoming report would show an improvement since the last of 15 per cent in the wheat crop and would predict that the 1883 yield would be not far from the average.

Not much credence was put in the dispatches. Wheat was easier at the close than at the opening or during the day, but this was due to the fact that Kent, heretofore a large owner of this grain, was an open seller. While the alleged "bear" pointers on the forthcoming May report were going the rounds, a cable from London from a prominent grain firm there was just as industriously handed about. It announced that the Russian wheat crop was a failure. About as much credence was placed in this announcement as in the predictions concerning the Washington report.

Wheat for July delivery closed at $1 16¼. All the other options showed the same drop. On all sides it is admitted that the Washington report which is to be made public on Thursday evening will have a tremendous effect. People, consequently, will be at sea without information of their own relative to the wheat crop, and who enter the market now are simply betting on the Agricultural Commissioner's figures. On the call to-day only 300,000 bushels of wheat changed hands, while the average aggregate of the transactions within the half hour is not less than 1,200,000 bushels. White wheat fell off a trifle. Corn advanced a little. June closed at 55⅝ cents and July at 57⅝ cents, ¼ of a cent above last night's figures. S. Kent, who was a seller of wheat, was believed to be a buyer of corn. The Lester and Quinlan clique at New-York is popularly believed to be standing out in a great line of "short" corn. The receipts were fair to-day (332 cars), but they almost invariably are on Tuesday. The provision manipulators are talking $23 pork and 12½ cents lard. Pork closed within 2½ cents of where it stopped last night, the June option at $20 12½ and the July at $20 30. Lard was 2½@5 cents lower than twenty-four hours ago, the June option stopping at 12.05c. and the July at 12.10c. Leopold Bloom is credited with running a "deal" in June rye through McGeoch, Everingham & Co.

WESTERN CROP PROBABILITIES.

COLUMBUS, Ohio, May 8.—Official dispatches received from other States by the Ohio Board of Agriculture give the following as the total probabilities (that is acreage and condition combined) for winter and spring wheat, in the following States: Kansas 93, Minnesota 76, Indiana 90, Iowa about 80, California 87, Michigan 64, Ohio 56, Illinois—April estimate—68, Kentucky—April estimate—66. From the above and other data Secretary Chamberlain, of Ohio, estimates a probable total shortage of 100,000,000 bushels from the last crop of 500,000,000 bushels.

TUESDAY, May 8—P. M.

The late correspondence between the Interior Department at Washington and the Union Pacific Railroad Company, relative to the dispute as to the amount due the Government under the Thurman act, has elicited many inquiries as to the present indebtedness to the Government of all the subsidized railroads. Subjoined is a detailed statement of the amount of bonds issued to each railroad; the amount of interest already paid by the Government, less the repayments by transportation and by 5 per cent of net earnings in cash; the amount of interest accrued to May 1; and the totals of the accrued debts to May 1. The actual amounts of interest paid by the Government for account of the two principal roads are: $25,885,120 for Central Pacific, and $27,236,512 for the Union Pacific. The repayments by the same are $4,449,659 by transportation, and $643,272 cash by the Central Pacific, and $8,897,865 by transportation by the Union Pacific. The statement, which, of course, is that of the Government, is as follows:

	Principal of bonds.	Balances of Interest paid.	Interest accrued.	Total debt May 1, 1883.

In the stock market the total transactions amounted only to 230,000 shares. Except in a few special instances the fluctuations were limited to small fractions. The market was quoted 'as strong all the day. Central of New-Jersey (22,100) and Reading (17,300) scored transactions in greater numbers of shares than any other stocks and at one time recorded important advances on last evening's prices; but the final gains were ⅜ and ⅝ respectively. There was no new gossip about the discharge of the receivership and the leasing of Central of New-Jersey to the Reading Company; but there are only a very few speculators who do not believe that both changes are as good as accomplished. Richmond and Danville stock was exceptionally strong and advanced from 64¼ to 66¼@66. Central and Hudson, Lake Shore, Michigan Central, Delaware, Lackawanna and Western and Union Pacific enjoyed their little advances of ¼@½ per cent, but at the close all except Michigan Central were lower than they were last evening, and Union Pacific was down ⅝ per cent. The Northern Pacifics and Oregon and Transcontinental stocks were strong all the way out and closed with gains of from ⅛ to ¾ per cent. The market closed dull and featureless.

There was a better demand for Government bonds, and the prices were firmer. Bids were advanced as follows: 3s and 4s each ⅛ and 4½s ¼ per cent. Annexed are the closing quotations:

In State bonds the business was confined to small sales of Tennessee 6s and compromises. Of city bank stocks twenty shares of Mercantile sold at 117.

The railroad bond market presented the same general features that it has for several days. Erie second consols were steady at 100@99¾. New-York, Chicago and St. Louis firsts were firm at 103, and West Shore and Buffalo 5s ruled at 82@81½@81⅝. East Tennessee, Virginia and Georgia 5s were ⅜ higher at 78½, and incomes were active with an advance of ¾ to 39½. Richmond and Danville debentures advanced 2 per cent to 72, and Virginia Midland incomes sold from 61¾ up to 65⅛@65. St. Paul consols were ½ higher at 123, and firsts of Chicago, Pacific and Western division rose ¼. Kansas Pacific consols sold at 99. The official list in reporting a sale yesterday at 97 was in error; it should have been printed 99. Denver and Rio Grande consols were lower at 99¾@100. Atlantic and Pacific firsts recovered to 100, and incomes were active at 28¾@29½. Oregon and Transcontinental firsts were ⅜ higher. Mutual Union sinking funds rose from 88 to 89¾.

The Sub-Treasury to-day gained on balance $332,689, made up by gains of $213,028 currency and $119,661 coin. The day's transactions covered: Receipts, $1,225,036; payments, $896,341; currency balance, $7,207,252; coin balance, $115,764,722. Money to-day ruled steady at 3½@4 per cent; there are indications that rates will rule firmer in a few days.

The Clearing-House statement to-day is as follows: Exchanges, $116,577,179; balances, $4,798,693.

The United States Treasury at Washington to-day received $475,000 National bank notes for redemption. The customs receipts were $486,181, and the internal revenue receipts, $460,231.

A very moderate demand for foreign exchange served to stiffen the rates. The revised quotations for business are as follows: Bankers' bills, $4 83¼ and $4 85¾ for long and short sterling respectively; 5.21 and 5.18¾ for francs; 94½ and 95 for reichmarks; 40 and 40¼ for guilders.

In London, British consols were again weak and ⅛ lower at 101 11-16 for money, and at 101 15-16 for account. United States 3½s were off ¼; 4s were first quoted down ⅜ to 122¼, and later at 122¾ (!), and 4½s after being off ⅛ to 116 were up to 116¼. American railways generally were lower, but Erie second consols were up 2 and St. Paul was up ⅝ per cent. The Bank of England lost £55,000 bullion on balance.

At a meeting of the stockholders of the Delaware and Hudson Company authority was voted to the directors to issue, as required, $10,000,000 of new stock, for the purpose of retiring $3,465,000 of its bonds maturing in 1884, $1,000,000 in 1887, and $5,549,000 in 1891.
