TUESDAY, May 29—P. M.

All of the Stock Exchange markets to-day were excessively dull and uninteresting. The transactions in stocks amounted only to 150,035 shares, and of that quantity the reported operations in four stocks contributed 83,100 shares—Delaware, Lackawanna and Western, 30,300; St. Paul, 22,800; Union Pacific, 18,300; and Northwestern, 11,700 shares. No stock other than the four named recorded sales of as much as 9,000 shares, and only one other—Wabash preferred, 8,700 shares—scored a business of as much as 6,000 shares. The fluctuation in prices was unusually small, but the closing figures generally are small fractions lower than were yesterday's last prices. The striking feature of the speculative situation is the absolute apathy exhibited by all classes of operators except the few who are loaded with stocks. The "short" interest in the market has been reduced to a minimum and there is disposition neither to buy nor sell for new ventures until the conditions are less under the control of cliques or the commercial and mercantile situation develops something that will encourage a buying for an advance. It is under those circumstances that the market closed dull and barely steady before to-morrow's holiday, and without the rally in prices which usually precedes a day off.

Only a small business was done in Governments, but prices were firm and the biddings were advanced ⅛ for the 3s, 4s and 4½s and ⅜ for the 4½s. Annexed are the closing quotations.

State bonds were quiet at full quotations; sales of North Carolina special taxes at 5, and of Alabama 6s class A at 84. Of city bank stocks, only five shares of Central National were sold at 129.

The business in railroad bonds was confined to an unusually small number of issues, and generally was in small lots. Atlantic and Pacific incomes were a special feature; there were large transactions between 33¾ and 35, and they closed at 34⅞, against 34½ yesterday. Texas and Pacific firsts, Rio Grande division, after selling up ⅝ to 83, declined to 82¼@82¼. There were no transactions in Erie second consols; the closing quotation is 98@98½. Missouri, Kansas and Texas general mortgages declined ¾ to 83¾. Central of New-Jersey incomes brought 95. Chesapeake and Ohio currency debts were off ½ at 50. St. Louis and Iron Mountain new 5s were ¼ lower at 76. New-York, Chicago and St. Louis first gold 6s were strong at the highest figure—103⅛—and New-York Central debenture 5s sold at 103. West Shore and Buffalo gold first 5s were raided and declined to 78¾, and New-York, Lackawanna and Western first 6s sold at 117¼@117½. Northwestern sinking fund 5s sold at 101⅜, and Northern Pacific first 6s at 108⅜.

The Sub-Treasury statement to-day shows a gain to the balance of $118,949, made up by a currency gain of $180,439, less a coin loss of $61,490. The day's transactions covered: Receipts, $859,702; payments, $740,753; currency balance, $7,758,541; coin balance, $113,542,353. Money ruled just a shade firmer; the bulk of the business in call loans was done at 3 per cent, but there were exceptional loans as high as 4 per cent. The domestic exchanges on New-York at the places named are quoted as follows: Savannah, par to ¼ premium; Charleston, ⅛@¼ premium; New-Orleans, $1 premium for commercial and $1 50 premium for bank; St. Louis, 90 cents to $1 premium; Chicago, 60 cents premium.

The Clearing-House statement to-day is as follows: Exchanges, $93,699,442; balances, $5,112,509.

The United States Treasury at Washington today received $454,000 National bank notes for redemption. The customs receipts were $377,910, and the internal revenue receipts $239,810.

The foreign exchanges continue to be dull; of course, all the commercial bills that are making—and the amount is larger than at this time a year ago—are taken up, but notwithstanding the small demand for bankers' bills the rates hard for business as follows: Bankers' bills, $4 84¾ and $4 88¼ for long and short sterling respectively; 5.19¼ and 5.16⅞ for francs; 94¾ and 95¼ for reichmarks; 40 and 40¼ for guilders.

In London British consols were steady at 102 1-16 for both money and account. United States bonds were all lower: ⅛ for the 4s and ¼ for the 4½s and 4½s. American railways responded to yesterday's decline in the home markets, and except for Reading and Central and Hudson the last quotations were the lowest of the day. The Bank of England gained £50,000 bullion on balance. At Paris French 3 per cents were stronger and rose from 79.75 to 80.17½, and sight exchange on London was up to 25.28½ francs to the £.

MINES AND MINING.

THURSDAY, May 29—P. M.

The feature of to-day's dealing in mining stocks was the continued buoyancy of the Comstock shares. Virginia sold up to 1.05@1, California to 58@55, Mexican to 5, Sierra Nevada to 9¼@9 and Union Consolidated to 12. Sonora was active, and Oriental and Miller advanced from 18 to 25@20 cents.

North drift from winze No. 6, 677 level, is 147 feet long. South drift from same winze, at the 640 level, is 161 feet long. Some very good ore is going to the mill from this drift.

THE PETROLEUM MARKET.

NEW-YORK, May 29.

To the surprise of many traders, the petroleum speculation failed to-day to develop a reaction that was important. The price opened at $1.08¾ and declined to $1.07½. Up to the late afternoon the market held strong without buoyancy, but then an excited trading set in which carried prices to $1.12¼. The total dealings here exceeded 6,000,000 barrels, a large proportion of the activity being confined to the last two hours. There was no news from the wells to-day to affect the speculation; its developments were simply in the line of those which have marked the progress of prices upward from 90c. The movement has been well handled by the "bulls," the reactions are unpanying it being only such as afforded chances for the realization of profits and re-investment, and for the covering of "shorts" without ruin to the "bears." The market closed under a hammering process on the part of the "bears" which put the price down to $1.11. The close was strong and higher prices were paid for all after regular hours. The range of prices and the total transactions in New-York were as follows:

	N. Y. Pet.	Cons. Ex.
Opening	108⅝	108⅝
Highest	112¼	112¼
Lowest	107⅝	107⅝
Final	111	111⅜
Sales, bbls	3,534,000	2,566,000
Clearances, Saturday	4,328,000	4,470,000

The refined petroleum market was firm but unchanged at 7¾@77c. per gallon in New-York.
