## Gazet & Sentinel.

FORTIFICATIONS AT MEMPHIS.—The Memphis Appeal, of the 7th inst., says:

Breastworks have been built along the front of the bluff; some of the streets have been already barricaded; the fort at the mouth of Wolf river is rapidly progressing; a second fort will be raised below Titus' cotton field. A redoubt opposite the Bradley block is far advanced towards completion.

PADDY BEWILDERED.—An Irishman having emigrated to America, was somewhat disappointed in not getting rich immediately, betook himself to a small creek, and while lamenting, he saw a small land turtle crawling up on the land, when he immediately jumped to his feet, and exclaimed—"Oh why, why, did I iver come to Ameriky to see a snuff-box walk."

**PROSPECTUS.**

***Young Ladies Academy***
AND
**CONVENT OF HOLY CROSS,**
**Plaquemine, (Iberville,) La.**

THIS INSTITUTION is beautifully situated in the centre of the town of Plaquemine, between Court, Church and Plaquemine streets. The buildings are large and commodious, and the grounds of good ample space for amusement and healthy exercise. The Institution being situated within a few minutes walk of the steamboat landing, enjoys the advantage of easy and frequent access. It is conducted by the Sisters of Holy Cross, who being wholly devoted to the important work of public instruction, spare no pains to improve the hearts of their pupils in virtue and store their minds with knowledge, and they pledge themselves to return the children to their parents improved in virtue and learning.

To impart a thorough education in the highest sense of the word—to train the moral and the intellectual being—to develope sound health and elegant manners, is an object of constant attention. The system of government is mild and maternal, aiming to guide rather than to drive the pupils along the path of duty. The comforts and dersonal habits of the young ladies, receive the same attention as in the most refined family circle.

Religion is the ground-work of education. The Institution is Catholic; but young ladies of all denominations are admitted, provided they are willing for the sake of order and uniformity to attend the exercises of public worship. The Academical year is of ten months. The course of Education embraces all the branches usually taught in Academies, with the facility of primary instruction in both the English and French languages, at the option of parents.
