DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens So Naturally That Nobody Can Tell.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Sloan's Liniment Keep it handy

Of Course I'll Take

Celery King

I take it every season and so do mother and the children.

It's old fashioned and made of roots and herbs, but it's right there, just the same, and costs next to nothing.

We all think it's the best tonic laxative we ever heard about, and so do other people we have recommended it to.

Take it every other night for three weeks, if you want to feel better, sleep better, work better and be better.

It purifis the blood, clears the skin and chases away that worn out feeling. Brew a cup tonight just like you make tea. You'll like it.—Adv.
