TUESDAY, Aug. 28—P. M.

The transactions in stocks to-day (402,151 shares) are only 3,000 shares less than was yesterday's business. The dealings were characterized by more than a usual degree or feverishness, and the fluctuations in some instances were wide. The final result is higher figures at the end for a majority of the stocks than were yesterday's closing prices. But the whole business represents only operations of daily traders. Yesterday and to-day special efforts have been made to create the impression that there has been a liquidation of the speculation in Delaware, Lackawanna and Western by the same interest which has unquestionably liquidated in Lake Shore. There is good reason to believe that nothing of the kind has occurred, and the special strength which was exhibited this afternoon by Delaware, Lackawanna and Western, and which carried its price to 120⅛, was traced to yesterday's sellers of Lake Shore. Lake Shore, after fluctuations from 101@100⅝ to 101¾ and down to 99⅞, closed at 100½@½ lower than last evening—while Central and Hudson, after 114⅛ at 115, closed ¼ higher than yesterday, and Delaware, Lackawanna and Western, after 118½ at 120⅛, closed 1⅛ higher than yesterday. It now seems that yesterday's report that the coal companies had agreed to advance schedule prices for coal was not true. The Reading Company has proposed it, but the other companies are slower in learning that it does *not* require two parties to make a contract; that with every market stocked full of coal, and railway tracks covered with cars loaded with coal, upon which money has been borrowed, the consumer as well as the producer is an important factor in the making of a price. President Gowen's experience of 1876 and 1878 seems to have profited him little. Yet his influence to-day in the management of all the coal properties seems to be powerful. It is said that Denver and Rio Grande has discovered a president, on condition that for one year he shall have nothing to do with the financial operations of the company; as that part of the management of the company is likely to be the most important part, it seems as if the company might as well be without a president as to have one on those conditions. At the close the stock market was excited at generally the best prices of the day; but the call board for brokers never presented fewer demands for their attention at the doors to receive orders from customers.

A fair amount of business was recorded in Government 4s and 4½s at unchanged prices; the bids for the 3s are ⅛ lower. Annexed are the closing quotations:

Transactions in State bonds were confined to sales of Missouri 6s, 1888, at 109, and 1887 at 107⅝. There were no sales of city bank stocks.

Only a small business was done in railroad bonds, and that at irregular prices, subject to no little manipulation. A special feature was the sharp decline in West Shore and Buffalo 5s from 72½ to 70, with sales at 69½, seller thirty days; a recovery followed to 71¾. New-York, Chicago and St. Louis firsts were firm at 100, and Erie second consols sold at 94 against 91¾ Saturday. Missouri, Kansas and Texas consols were ¾ lower at 105, and general mortgages at 76¼ were 1¾ lower than the last previous sale. Central of New-Jersey consols were easier at 112⅞. East Tennessee, Virginia and Georgia 5s were up ½ at 71¾, and incomes, after 28½, finally closed ¼ higher at 29¼. St. Paul firsts Southern Minnesota were off ¾ at 105, but firsts Pacific and Western 5s closed up ¾ at 92⅞. St. Paul and Omaha consols were off 1 per cent at 110, and Manitoba consol. 6s sold at 101½. The usual transaction of one bond of the Reading consol 5s and convertible 7s was recorded at steady figures. Denver and Rio Grande consols rose 1½ to 79½, and firsts, Western extension, advanced 6 per cent to 69 on the report that negotiations for the money with which to pay the September interest had been carried to a successful issue. Texas and Pacific incomes were 1⅝ higher at 53¾, and firsts, Rio Grande division, rose from 75¼ to 76½@76. Northern Pacific firsts were down ⅝ at 103, and Oregon and Transcontinental were off ⅝ at 92¼. Oregon Short Line 6s were 1 per cent lower at 96, and Oregon Improvement Company's 6s sold down to 91¾.

The Sub-Treasury to-day gained on balance $774,302, made up by gains of $702,347 coin and $71,955 currency. The day's transactions covered: Receipts, $1,650,545; payments, $876,243; currency balance $7,078,024; coin balance $122,064,281. Money on call ruled easy at 2@2½ per cent.

The Clearing-House statement to-day was as follows: Exchanges, $93,356,188; balances, $3,834,723.

The United States Treasury at Washington to-day received $246,000 National bank notes for redemption. The customs receipts were $563,016, and the internal revenue receipts $112,045.

The foreign exchanges were dull and rates were lower. We review quotations for business as follows: Banker's bills, $4 82¼ and $4 85¾ for long and short sterling respectively; 5 25⅜ and 5 22 for francs; 94 and 94¾ for reichmarks; 39⅝ and 39⅞ for guilders.

In London there was no change in British consols, and their prices remain 100 1-16 and 100⅛ respectively for money and account. United States bonds are quoted unchanged—115¼ for 4½s and 122½ for 4s. The quotations for American railways generally are lower than yesterday, but there were irregularities as there were in yesterday's home market, and consequently Reading is a conspicuous exception to the rule in showing an advance of ⅞ per cent. At Paris French 3 per cents opened a little higher at 79.67, but closed at 79.62½, against 79.65 yesterday and sight exchange on London was weaker at 25.33 francs to the £.

*THE PETROLEUM MARKET.*

NEW-YORK, Aug. 28.

There was a slight increase in the amount of dealings at the Petroleum Exchange to-day, but the character of the market cannot be said to have changed. There was a good covering of "shorts" which maintained firmness in prices, and the lowest point to which they dipped was $1 05¾. Later there was a rally to $1 06⅞, but the close was easy at $1 06⅛@$1 06¼. The news from the wells was unimportant. The new wells in are dry or poor, while the ones recently reported as good ones are rapidly declining. At the same time there is a considerable "short" interest in the market which would furnish the basis for a "twist" if the "bulls" would act vigorously.

The range of prices and the total dealings to-day were as follows:

| | N. Y. Pet. | Cons. Ex. |
|---|---|---|
| Opening | 106⅜ | 106⅛ |
| Highest | 106⅞ | 106⅞ |
| Lowest | 105⅞ | 105¾ |
| Closing | 106¼ | 106¼ |
| Final | 2,098,000 | 2,008,000 |
| Sales, bbls | 2,902,000 | 3,350,000 |

The refined market is unchanged.

OH, WOMAN! WOMAN!—Mamma: "Both Smythe and Robson were most attentive to Celia last night, papa! Robson 's as good as gold, with the temper of an angel—like herself! and Smythe 's a heartless, selfish, dissipated young fiend! I do hope it will be Robson!" Papa: "Well, I don't know. If Robson 's really all you say, she'll precious soon get tired of him. Whereas, from your description of Smythe, I fancy she would be able to love him faithfully all her life long. Any woman would!"—(Punch.
