### A "Brief" Honeymoon.

Lord Reading is nothing if not original. His honeymoon was quite unique. He told his friends that, after being called to the bar, he was to be married and spend his honeymoon in Spain. That sounded extravagant for a budding barrister, probably not overburdened with pocket money. But he was businesslike even then, and it was found later that a certain firm of solicitors had given him as a wedding present a commission to take evidence in Madrid. So he took his wife with him and combined business and pleasure.—Exchange.

### "Almanach de Gotha?"

This is a French almanac which was first published in 1763 and gives genealogical particulars concerning all the sovereign houses of Europe, the mediatized families of Germany, and many of the European princely and ducal houses not of sovereign rank. It also contains valuable information regarding officers of administration and statistics of the principal political divisions of the world.

Advertising is today the mightiest factor in the business world. It is an evolution of modern industrial competition. It is a business builder, with a potency that goes beyond human desire. It is a positive creative force in business. It builds stores, factories, skyscrapers and railroads. It makes two blades of grass grow in the business world where only one grew before. It multiplies human wants and intensifies human desires. —Truman A. DeWeese.
