been wrong on wheat his operations in corn have been right, and a good deal of lost money has been recovered on the "bear" side of corn during the past fortnight.

Wheat acted a little nervous this morning at the very opening, but stood up pretty well until toward noon when the receipts of grain were reported. Then everything around the grain-pits wavered. The number of receipts was phenomenal; over 1,300 cars of corn, 432 cars of wheat, 317 cars of oats, 136 of rye, and 39 of barley. The cars of corn alone which came during the past forty-eight hours would make an unbroken train nine miles long, and a train fourteen miles long would not more than carry the wheat, corn, oats and barley that arrived to-day and yesterday. When the receipts were posted prices fell. The number of the sellers increased, a number of loads were thrown over and the feeling became very weak. The shipments of corn were quite as phenomenal as the receipts. Nearly 900,000 bushels went out and there were also inspected preparatory to being shipped to-morrow nearly 900,000 bushels. To-morrow being Tuesday, and the receipts promising to be larger, prices may suffer another little break, but the signs now rather point to a little recovery. Last night was cold and to-night promises to be cold. This will check the "bearing" of corn, and with the stopping of the decline in this grain, wheat and oats are likely to go up, especially if the advance in provisions prophesied for September has apparently begun. Ribs advanced to-day 20 cents and closed at the highest figure of the day. The opinion prevails that "Phil" Armour has got the market oversold to him, and it is an indisputable fact that about all the ribs in town are in Armour's warehouses. Pork and lard did not go up, but they did not decline. They were steady and strong. The official statement of the amount of provisions in store created a good deal of criticism. There is more lard left than was anticipated, even more ribs, but the stock of pork shows an unexpected decrease of nearly 40,000 barrels. The stock as reported is 139,058 barrels of pork, a decrease of 36,000 for the month; 24,000,000 pounds of ribs, a decrease of 9,000,000 pounds; and 48,000 tierces of contract lard, a decrease of 11,000 tierces. While the stock of ribs is larger than was anticipated, the conviction that Armour owns them all and that the market is being oversold, makes everybody "bearish." This feeling over short ribs causes strength in every other kind of hog product.

Wheat and corn closed at the lowest figure of the day; September wheat at 98⅜ and October at 100¼; September corn at 47⅞, and October at 47¼; September and October ribs at $6.55, October lard at $8.35, and October Pork at $12.17½.

DISCOURAGING COTION REPORTS.

A DECREASE OF 20 PER CENT IN THE YIELD IN THE MEMPHIS DISTRICT.

MEMPHIS, Tenn., Sept. 3.—The August cotton crop report for the Memphis district, which embraces West Tennessee, North Mississippi, North Arkansas and North Alabama, to be published to-morrow by Messrs Hill, Fontaine & Co., will say:

Herewith is submitted a summary of the information contained in 362 letters bearing an average date of August 28. The outlook detailed in these letters is not encouraging. Drouth, rust and the shedding of the squares and small bolls are mentioned as causes of complaint in nearly every portion of the district. In Mississippi only four correspondents report no injury from these causes. In Arkansas only twelve report no damage. The reports point to a decrease in the yield of fully 20 per cent.

The following is the aggregate of the 362 responses: 206 report the weather during August as having been unfavorable for cotton, 156 favorable, 204 less favorable than last year, 102 more favorable and 56 about the same; 214 report the plant fruiting well and 148 not so well; 60 report the plant in good condition and better than last year, 208 not so good and 94 about the same; 44 report the season as having begun and 318 not occur; 326 report injury to the plant from drouth, rust and shedding and 36 no injury; 80 report a prospect of a greater yield than last year, 214 that it will be less, and 68 about the same.

THE COURTS.

CIVIL NOTES.

An order was made by Justice Donohue yesterday allowing the Mutual Life and Accident Association to change its name to that of the National Trust Fund Life Association. It is said that the company no longer does an accident business and that the old name is misleading.

Judge Van Brunt yesterday denied the motion recently made for an order removing Homer Morgan as receiver of the property which was involved in the suit brought by Mary E. Haines against the sisters of her late husband.

Justice Donohue in the Supreme Court, Chambers, yesterday made an order granting $15 a week temporary alimony and $500 counsel fee to Mrs. Bertha Dautel, who has begun an action against her husband, John G. Dautel, for an absolute divorce on the ground of infidelity. Justice Donohue also appointed referees to take testimony in three other divorce suits.

In the Court of Common Pleas yesterday Judge Van Brunt made an order granting $3 a week temporary alimony and $25 as counsel fee to Elizabeth Mayer and against her husband Christian Mayer. Mrs. Mayer wishes an absolute divorce. She says that her husband did not treat her well, and that he abandoned her and has been unfaithful.

THE PETROLEUM MARKET.

NEW-YORK, Sept. 3.

The guage of the Balltown district, taken on Saturday, shows a decrease in production of 182 barrels from the preceding week, although there were two new wells opened. The Balltown figures are: Production, 3,135 barrels; wells producing, 37; wells drilling, 16; rigs up and building, 8. Smith & Crosby's reports for the Cooper and Balltown districts compare as follows with the preceding dates mentioned:

	June 2.	July 6.	Aug. 11.	Aug. 25.	Sept. 1.
Producing wells	90	113	136	141	148
Production, barrels	6,698	6,120	6,834	6,671	6,803
Wells drilling	26	20	25	33	27
Rigs up and building	21	26	30	25	19

The petroleum market to-day was dull and local in character. Prices here generally ruled from ⅛ to ¼ cent above the Oil City prices, and this fact encourages a "bullish" feeling on the ground that operators were depressing the Oil City market in order to buy as cheaply as possible in New-York. But it might be argued that the Eastern market was being held firm to permit sales at the Western exchanges. After early strength at $1 08⅜@$1 08⅝ the market slowly fell to $1 07⅞; in the last hour prices hardened to $1 08. See thoroughly are the present circumscribed transactions speculative in character that any attempted indication of the future would be a sheer guess.

The range of prices and the total dealings here to-day were as follows:

	N. Y. Pet.	Cons. Sx.
Opening	108⅜	108½
Highest	108½	108⅝
Lowest	107⅞	107⅞
Final	108	108
Sales, bbls	2,820,000	1,901,000
Clearances, Saturday	3,790,000	3,155,000

The refined market opens strong for the week, but dull, at 7⅞@8 cents per gallon in New-York.

MONDAY, Sept. 3—P. M.

The transactions in stocks to-day amounted to 321,136 shares, against 356,498 shares on Saturday. The decrease in the amount of the business is small, but it is significant, although to-day's board session occupied only four hours against Saturday's five hours. The business of the day has established a higher range of prices, but there is a marked difference in the character of the advances made in the preceding three days and those that were made to-day. Until to-day, since last Thursday, the upward movement in prices had the help of a general sentiment in favor of a "rally" and of a laggard "short" interest which only liquidated as the advance in prices forced or frightened it to do so. To-day those two elements were missed in the market, and the prices were put up by the sheer application of force in the interest of large speculators who cannot, in the present limitations of the market, double on their tracks in a single day's operations. While there was no positive resistance made to the advance, the advances were met by a better supply of stock than had been the case for three days. A single instance will illustrate the methods and character of to-day's dealings. The Northern Pacific stocks were inclined to be heavy at their prices in the early dealings, and did not respond to the fluctuations made in such stocks as Delaware, Lackawanna and Western, Lake Shore, Northwestern and Union Pacific. After noon-time a leading broker appeared as a buyer of the preferred stock and in less than five minutes had advanced the price from 75½ to 76¼; two minutes later the stock was selling at 75⅜, and so closed against 75¼ Saturday evening. The general list, however, shows greater final advances than does the stock named; but that also might have closed higher if it had received the same attention in the last few minutes as did those stocks which, as indicators of the general tone, are held in higher regard. The market closed feverish and not strong.

Only a small business was done in Government bonds and that at the bidding figures. Annexed are the closing quotations:

In State bonds Louisiana coupons were steady at 66⅛@66¼, and at 59 for ex matured coupons. Alabama, class C, sold at 81½. There were no transactions in city bank stocks.

The business done in railroad bonds was small, but it was well distributed and at rather improving prices. West Shore and Buffalo 5s were a feature, and rose from 72½ to 73⅞@73½, and New-York, Chicago and St. Louis first 6s were firm at 100. Central and Hudson consols sold at 128½ and the debenture 5s at 105. Delaware and Hudson registered 7s, 1891, were ⅜ higher at 112½. Missouri, Kansas and Texas general mortgages were up ¼ at 78¾. Rome, Watertown and Ogdensburg 5s were up ½ at 62. Chesapeake and Ohio firsts, series B, rose ½ to 93, and the currency debts were up 1 per cent to 47. Ohio Central incomes declined ¼ to 9¾, and East Tennessee, Virginia and Georgia incomes were off ½ to 29¾. The ill-advised and unquestionably unwarrantable default in the payment of the September interest on the Ohio Central first mortgages of the River division is reflected by a wavering confidence in all the schemes of persons, or the syndicate, that at present has the management of the Ohio Central. St. Paul consols rose ¼ to 119, and Northwestern gold consol 7s were up ¼ at 123¼. Denver and Rio Grande consols were 1 per cent. higher at 81. Union Pacific firsts improved ½ to 113, Northern Pacific firsts rose from 103½ to 104@103⅞. New-Orleans and Pacific firsts were ¾ higher at 82¾, and Fort Worth and Denver firsts were up ¾ at 70.

The Sub-Treasury statement to-day shows a loss on balance of $415,152, made up by losses of $188,943 currency and $226,209 coin. The day's transactions covered: Receipts, $1,545,628; payments, $1,960,780; currency balance, $6,663,108; coin balance, $120,762,930. The rates for call loans at the Stock Exchange to-day were harder and a good proportion of the business was done at 3 per cent; but after the business was over millions were offered at 1½ per cent. In the domestic exchanges on New-York the only important change was at Chicago—a decline to 70@60 cents discount.

The Clearing-House statement to-day was as follows: Exchanges, $149,139,386; balances, $6,770,886.

The United States Treasury at Washington to-day received $285,000 National bank notes for redemption. The customs receipts were $509,549, and the internal revenue receipts $849,131.

The situation in the foreign exchanges remains unchanged; the business is light and rates are fully steady at quotations for business as follows: Bankers' bills, $4 81¾ and $4 85¼ for long and short sterling respectively; 5.25⅞ and 5.22 for francs; 94 and 94¾ for reichmarks; 39⅝ and 39⅞ for guilders.

In London money and discount offers were steady at 100 3-16 for money, and the new account opens with a difference from the cash price of 5-16 at 100½. United States bonds are quoted as "unchanged." The market for American railways presented the same features that it has for months past. The quotations are nothing but a reflection of the home markets, and consequently, following our Saturday movements to-day's London prices were higher. At Paris French 3 per cents rose to 79.90 francs.
