Building Material

Lumber has made an average advance of 25% since the beginning of the war.

With an abundance of employment at high wages and the recent stimulus to economy caused by the war, there is more money that could be utilized for home building than there has been for many years.

Lumber is relatively low in price, the advance not having kept pace with the increases in wages, freight rates and other commodities — from 35 to 50 per cent and over.

Now, therefore, while other commodities are higher in proportion, and *Lumber is lower,* is the time to do your building.

Army Units Retained Temporarily Overseas

Washington, D. C., April 7.—Official charts covering the homeward movement of the American expeditionary forces show that 13 infantry and 11 artillery regiments and six machine gun battalions, all additional to the seven regular divisions comprising the army of occupation, have not yet been designated for return by Gen. Pershing.

War department officials indicated that most of these units were being retained only temporarily and their release might be expected as the organization of the military force which is finally to represent the United States in France and Germany is determined.

Divisional combat units which have not yet been released specifically by Gen. Pershing follow:

Eighth division—Eighth regiment infantry.

Thirty-second division—57th artillery brigade; 119th, 120th and 121st artillery regiments.

Thirty-sixth division—Headquarters; 71st and 72d infantry brigades; 141st, 142d, 143d and 144th regiments infantry; 132d and 133d machine gun battalions.

Thirty-sixth division—Headquarters; 161st and 162d infantry brigades; 321st, 323d, 323d and 324th infantry; 156th artillery brigade; 316th, 317th and 318th artillery regiments; 317th and 318th machine gun battalions.

Eighty-third division—158th artillery brigade; 322d, 323d and 324th artillery regiments.

Eighty-eighth division—175th and 176th infantry brigades; 349th, 350th, 351st and 352d infantry regiments; 338th and 339th machine gun battalions.

Thirty-ninth division (skeleton-led)—140th and 142d artillery regiments.

Auditional Moisture

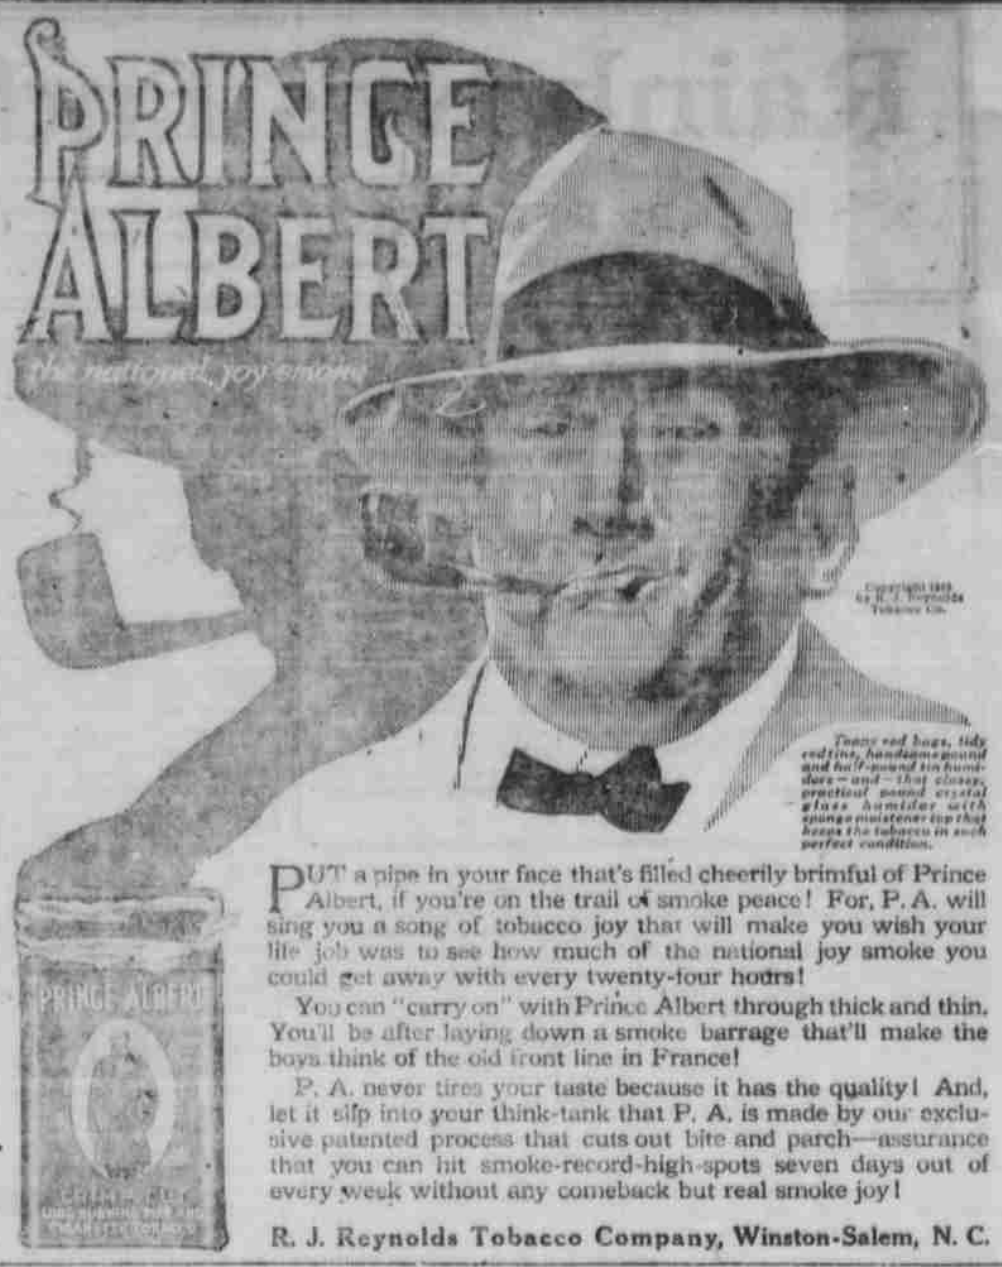
Rain and snow have been the order of the day and night as well—this week. Tuesday, and at night, rain and snow; repeated, with variations, Wednesday and at night.

In the lower altitudes the snow melted rapidly and its moistures, added to that of the rain, made streets and roads soft and—in parts, almost impassable. The mails from Roswell and White Oaks were delayed by the deep mud, and trains from the east by heavy snow; the fall to the Tucumcari country and beyond exceeding a foot in depth.

The thermometer made a radical drop registering below freezing, and it is asserted that practically all the fruit in the county has been killed. Notwithstanding this loss, which is a severe one, a large part of our section rejoices over the bright prospects for the future, as the abundant moisture exceeds anything we have enjoyed for a number of seasons. Stockmen are assured early feed, and farmers are hopeful of a bountiful crop.

PRINCE ALBERT

the national joy smoke



Copyright 1919, R. J. Reynolds Tobacco Co.

Tasty red bags, tidy redtins, handsome pound and half-pound tin humidors—and—that classy, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

PUT a pipe in your face that's filled cheerily brimful of Prince Albert, if you're on the trail of smoke peace! For, P. A. will sing you a song of tobacco joy that will make you wish your life job was to see how much of the national joy smoke you could get away with every twenty-four hours!

You can "carry on" with Prince Albert through thick and thin. You'll be after laying down a smoke barrage that'll make the boys think of the old front line in France!

P. A. never tires your taste because it has the quality! And, let it slip into your think-tank that P. A. is made by our exclusive patented process that cuts out bite and parch—assurance that you can hit smoke-record-high-spots seven days out of every week without any comeback but real smoke joy!

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadowville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak...

I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few doses of Black-Draught."

Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose. All druggists. J. 69
