THURSDAY, Sept. 6—P. M.

The stock speculation to-day made further progress toward a higher range of values, and was more than usually active. The early dealings, however, developed a small demand for stocks, and the tone was weak; so that prices declined from last evening's figures ½ to 2 per cent—the latter for Reading. After noon the large speculators took the market in hand, and during the later dealings made their presence more apparent than it before has been since the late advance begun. The movement was more general than heretofore, although the late special favorites were not neglected nor left behind. Rumor had the difficulties as to rates between the trunk lines adjusted before the representatives of the companies had hardly assembled; there was talk of a 2,000,000,000 bushel corn crop already secured, and importations of gold in large amounts from Europe were a common expectation. The railroad men adjourned after a three hours' session, without doing anything, to meet again to-morrow; but it seems probable that the result of to-morrow's meeting will be the adoption of harmonious resolutions and promises for future good behavior; at least there is no reason to suppose that the result will be different from the result of a dozen other similar meetings during the last twelve months. But there still will be left running out of Chicago, with connections at all other points, eight railroads to the Atlantic seaboard, instead of only six roads as there were a year ago. With all stocks on the advance, it is needless to particularize special stocks as leaders. But Louisville and Nashville, considering the gain it had before made, is worthy of mention because of a further advance of 2¾ to 52⅞, with a final ending at 52½. Reading, after a decline from 50⅞ to 48⅞, only recovered to 51⅝@51. The market closed wildly excited; yet the whole of the business was of a professional character.

The sale of 10 bonds constituted the whole business done in Government bonds. The quotations are unchanged as follows:

	Bid.	Asked.		Bid.	Asked.

In State bonds Louisana consols, after 67¼, are quoted as selling at 66¼ (!). Virginia 6s consols sold at 69½, and ex-matured coupons at 41¼, and North Carolina special taxes at 5. Considerable business was done in city bank stocks: American Exchange at 128; Mercantile at 116; Park at 170, and Merchant's Exchange at 96½.

The business in railroad bonds was well distributed, but it generally was in small quantities. Prices for the speculative kinds were higher. There was no transaction in Erie second consols: first consol 7s sold at 124¼, ex-interest, and the incomes at 72½; Missouri, Kansas and Texas consols were ⅛ better at 105⅜, and the general 6s, after 81, were still up ½ at 80½; Rome, Watertown and Ogdensburg firsts were ¾ higher at 67, and Chesapeake and Ohio firsts, series B, were up ½ at 93⅛; Canada Southern first 5s were ¼ higher at 95, and West Shore and Buffalo 5s were up ½ at 74. Ohio Central firsts advanced 3½ to 70. St. Louis and Iron Mountain 5s were 1 per cent higher at 75. New-York, Chicago and St. Louis first 6s were firmer. Louisville and Nashville general mortgages were barely steady at 90½. Chicago, St. Louis and New-Orleans 5s sold at 105. St. Paul consols rose 1 per cent to 129, but firsts, Pacific and Western division, declined ⅛ to 93¾. Denver and Rio Grande consols were steady at 80, and firsts, Western extension, sold at 62, and later one bond at 64½. Northern Pacific firsts were ⅛ better at 104. Texas and Pacific incomes were up ½ at 55, and firsts, Rio Grande division, were steady at 78⅝@78½. Fort Worth and Denver firsts improved ¼ to 70½.

The Sub-Treasury to-day gained on balance $19,785, made up by a currency gain of $298,653, less a coin loss of $278,868. The day's transactions covered: Receipts $1,332,703; payments, $1,212,918; currency balance $6,758,145; coin balance, $120,627,614. Money on call at the Stock Exchange ruled at 2@2½ per cent. Among the domestic exchanges on New-York the rate at Chicago has fallen to 80@70 per cent discount, and at Savannah to ¼@⅛ discount. At other points the quotations are unchanged.

The Clearing-House statement to-day was as follows: Exchanges, $116,937,980; balances, $5,479,261.

The United States Treasury at Washington to-day received $440,000 National bank notes for redemption. The customs receipts were $633,959, and the internal revenue receipts $432,642.

The foreign exchanges were dull and steady at quotations for business as follows: Bankers' bills, $4 81¾ and $4 85¼ for long and short sterling respectively; 5.25¾ and 5.22 for francs; 94 and 94¾ for reichmarks; 39⅝ and 39⅞ for guilders.

The governors of the Bank of England at their weekly meeting to-day made no change in the bank's minimum rate for discount and it remains at 4 per cent. During the week the bank gained £107,000 bullion and the proportion of its reserve to its liabilities was raised from 47 9-16 to 47 11-16 per cent against 39¼ per cent at this date a year ago. To-day the bank gained £50,000 bullion on balance. The weekly statement of the Bank of France shows losses of 380,000 francs gold and 1,076,000 francs silver. At the London Stock Exchange British consols were unchanged at 100 1-16 for money and at 100⅜ for account. United States bonds were not quoted. American railways were irregular after the fashion of yesterday's home markets and consequently generally were lower. At Paris French 3 per cents rose to 79.75, and sight exchange on London was easier at 25.33 francs to the £.

The Missouri Pacific Railroad Company has declared a quarterly dividend of 1¾ per cent on its stock, payable October 1; transfers close September 20 and reopen October 2.

The gross earnings of the Northern Pacific Railroad Company are reported as follows:

THE CHICAGO MARKETS.

AN ADVANCE IN WHEAT, CORN, OATS AND HOG PRODUCT—RUMOR AND COMMENT.

[BY TELEGRAPH TO THE TRIBUNE.]

CHICAGO, Sept. 6.—There was a recovery in the prices of all sorts of produce to-day. Wheat, corn, oats and hog product, after advancing a considerable distance, stopped at night at the highest figures of the day. The "shorts," everybody said, had been covering. It is an explanation resorted to when the gossipy fellows, whose province it is to elucidate the doings of the days know nothing at all.

"I don't think there has been any substantial change in the situation," said McIlvery. "Prices are a little better to-night, but it does not appear to me as if anything had touched bottom yet." "I don't think that anything has turned about for good to go up again," Lindblom thought, although he said that he had become conservative in his prophecies. "How's Armour on the wheat question?" inquired the commission man, turning interviewer. Lindblom believes that "Phil" Armour has been buying wheat during the past few days. Pool, Kent & Co.'s men were going from office to office this afternoon bidding 98⅛ cents for the October option.

Wheat, it is pretty certain, would be a good deal stronger were it not for the malign influence of provisions. It is notable that nearly all the wheat "bulls" are corn "bears" and *vice versa*. Even if wheat was below a normal figure it is possible, it is argued, that a big drain in pork or a precipitate drop in corn might carry it considerably lower. The situation is much mixed. There were brokers to-night running around pretending to want to arrange for a round lot of 800,000 bushels of wheat. It is a little bit queer that they did not meet the fellows who were also after buying. It is a new dodge, this offering late in the afternoon of "round lots" for purchase or sale, a little "off" the market. To-night in the "alley" wheat was just a cent higher than it closed yesterday on the regular board, but just where it was last night on the "curb." September stopped at 96⅜ and October at 98⅜ cents.

Provisions advanced to-day—pork 25 cents a barrel and lard and ribs 17½@20 cents per 100, out the amount of trading was small. By provision men this was considered an unfavorable sign. The local crowd is growing more and more "bearish" and more and more unanimous in the belief that Armour and the other packers are "atop" of the market. The shortage in provisions is great. If the situation was a normal one, if the crop of hogs was only an ordinary one, the present situation is just such as one or another of the great provision kings would seize for a "corner." But with the country swarming with big black hogs, nobody here dreads manipulation. Everybody continues to sell. The receipts of hogs are letting up a little, but only for the moment. So say the stockyard men. October pork stopped to-night at 11 27½. October lard 8 05 and October ribs at 6 27½. Corn continues to pour in and pour out again. The receipts to-day are put at 425,000 bushels, and the shipments at 450,000 bushels. David Dows & Co. still lead the "bulls" here. September stopped at 48⅝ and October at 47⅝.
