to 31. Denver, Rio Grande and Western firsts rose from 68½ to 67@66¾. The Texas and Pacific issues were steady at unchanged figures, and Northern Pacific firsts declined to 102¼. At the close the prices named were hardly obtainable for any of the issues.

The Sub-Treasury to-day gained on balance $275,462, made up by gains of $217,315 coin and $58,147 currency; the balance was further increased by an issue of $400,000 gold certificates. The day's transactions cover: Receipts (including the issue of $400,000 gold certificates), $1,959,668; payments, $1,284,206; currency balance, $6,885,748; coin balance, $118,474,768. The local money market continues to rule easy at 2@2½ per cent, while outside of the Stock Exchange, except upon stock and bond collaterals, there is a growing indisposition to make loans. The best class of mercantile paper is not sought after at 6 per cent, and the situation in that respect has been aggravated by yesterday's and to-day's failures in the mercantile trades.

The Clearing-House statement to-day was as follows: Exchanges $128,276,192; balances $6,412,539.

The United States Treasury at Washington to-day received $158,000 National bank notes for redemption. The customs receipts were $522,248, and the internal revenue receipts $152,372.

The Custom House returns of the merchandise exports for the week show a movement only $390,000 greater than for the preceding week; $840,000 less than for the same week of 1882, and $1,500,000 less than for the week of 1881. That is only the movement from this city, but it accurately reflects the comparisons of the whole country. And on that basis the exports are furnishing a small quota toward the covering of bills which have been sold by bankers in advance on expected shipments of cotton and grain. The foreign exchange market is strong, despite the fact that nearly all the dealers in and drawers of bills are talking it down. Rates for business are as follows: Bankers' bills, $4 82¼ and $4 85¼ for long and short sterling respectively; 5.24 and 5.21¾ for francs; 94¼ and 94¾ for reichmarks; 39¾ and 40 for guilders.

Reports of the London market to-day were meagre and at the time of writing nothing later than 1:30 p. m. has been received. British consols opened higher; 100 15-16 for money and 101 for account. United States bonds are quoted irregular; the 4s, first as down ⅜ to 122¾ and then up to 122¾ and 4½s up 1-16 at 116 3-16. American railways generally were lower, but Erie was quoted up ¼ at 32½.
