The feature in State bonds was the decline from about 40@50 to 12 in the Arkansas 7s issued to the various railroads. The reason for this decline in prices was the publication of Justice Miller's decision in the case of the bondholders against the railroads. The text of the decision has not yet been received, but from such telegraphic reports as are at hand, taken in connection with what occurred on the argument, it is supposed that the decision simply denies the right of the holders of the bonds to be subrogated to the rights of the State, which is the trustee of the line created by the law authorizing the issue of the bonds. Justice Caldwell dissents from Justice Miller's opinion, so that, as the case now stands, two Judges have decided in favor of the bondholders and one Judge has decided against them. We are informed that the case will be appealed to the Supreme Court of the United States, and strenuous efforts made to advance it on this calendar, so as to bring it to trial this winter. Louisiana Consols sold at 70⅜, seller 30 days, and ex-matured interest at 62⅝. Of City Bank stocks, Commerce sold at 154¼.

The market for railroad bonds was fairly active, but prices were irregular. Erie second consols rose from 93¾ to 94½@94⅞, and first consol 7s sold at 124½. Missouri, Kansas and Texas general mortgages were ½ lower at 80. Central of New-Jersey consols declined ½ to 112½, and Lehigh and Wilkesbarre consols declined ½ to 102½. Canada Southern first 5s were ¼ easier at 98¾. West Shore and Buffalo first 5s were active and strong up to 74½. Chicago, St. Louis and New-Orleans 5s were steady at 105¼, and Central and Hudson debenture 5s were off ½ at 105. Chicago, Burlington and Quincy debenture 5s were unusually pressed for sale and declined from 92½ to 91½@91¾. Ohio Central firsts, Main Line, were up from 67 to 68½@68, and income sold at 20, and firsts Ohio River Division sold up to 32. Ohio Southern incomes sold at 26@30@27. New-York, Chicago and St. Louis first gold 6s were stronger at 99¼@99⅝. St. Paul and Omaha consols declined ½ to 109½. Texas and Pacific incomes declined from 52⅞ to 50, and recovered to 52, and firsts, Rio Grande Division, were off ⅛ at 76½ after 76⅞. Atlantic and Pacific incomes fluctuated between 24@23¼ and 25@24¾, and Northern Pacific firsts were well sustained at 102¾@103.

The business of the Sub-Treasury for the week ending to-night includes receipts of $9,411,757 and payments of $13,125,685, making an apparent loss to its balance of $3,713,928, and leaving its balance at $120,992,023, against $124,705,951 on September 28. The apparent loss for the week, as affecting the banks, is modified by items of transfers in the receipts and payments only $430,000, so that the real loss was $3,253,928. The receipts, however, include $1,280,000 deposited with this Sub-Treasury for payment in gold and silver certificates at Southern and Western Sub-Treasuries; so that the loss to the General Treasury of the United States was $4,533,000. To-day's transactions included: Receipts, $1,598,499; payments, $2,128,686; currency balance, $6,901,535; coin balance, $114,090,488. The money market to-day ruled easy at 3@2½, and finally at 2 per cent.

The Clearing House statement to-day was as follows: Exchanges, $122,893,818; balances, $4,183,319.

The United States Treasury at Washington to-day received $212,000 National bank notes for redemption. The customs receipts were $697,894, and the internal revenue receipts $375,532.

The foreign exchanges continue dull with quotations for business fairly steady, as follows: Bankers' bills, $4 81¾ and $4 84¼ for long and short sterling respectively; 5.24 and 5.21⅞ for francs; 94¼ and 94⅞ for reichmarks; 39¾ and 40 for guilders.

In London British consols, without any apparent reason, were lower, and the difference between money and account was widened by a decline of ⅛ to 100 13-16 for money and a decline of 1-16 to 101 1-16 for account. The quotations for United States bonds continue to come greatly mixed: 4s came quoted first at 123½, and later at 122½ against 122½ yesterday, and 4½s came quoted down ⅝ at 117, and later at 117⅛. American railways generally were higher—responsive to yesterday's late advances in the home markets. At Paris French 3 per cents rose from 77.62½ to 78.02½, and sight exchange on London was weaker at 25.27½ francs to the £.

THE PETROLEUM MARKET.

NEW-YORK, Oct. 5.

The report of the producers' committee that made a gauge of the oil stocks held by the United Pipe Lines on September 1 was received to-day. The committee consisted of Charles S. Whitney, of Bradford, Penn.; J. B. Smithman, of Oil City, Penn.; N. Mehlen, of New-York; David Kirk, of Bradford; George Hukill, of Oil City, and J. J. Carter, of Titusville. It was appointed last August at the invitation of the United Pipe Lines, doubt having been cast on the integrity of the monthly reports made by that company in accordance with the laws of Pennsylvania. There were 1,373 iron and 122 wooden tanks which were gauged and inspected. A force of 172 gaugers was employed. The committee's report says: "The work of inspecting the contents of the tanks was not completed until about the 20th of September and we are satisfied that it was performed with care and thoroughness." The result as given compares as follows with the official report of the United Pipe Lines of September 1, the figures being given in barrels:

	U. P. L.	Producers' Gauge.
Gross stocks	36,227,589	36,227,589
Surplus and sediment	2,522,876	3,228,644
Net stock	33,704,713	32,998,945
Merchantable oil in surplus account	1,383,275	
Actual oil held by the United Pipe Lines	34,332,320	

As the United Pipe Lines reported 27,937,602 barrels in outstanding acceptances and 5,767,110 barrels in credit balances to producers on the books of the company (a total of 33,704,713 barrels), the report shows that the company actually holds 677,807 barrels more of oil than is necessary to meet its liabilities. But it is only proper to say that to make up this amount the surplus oil held by the company would have to undergo a process of heating and steaming in order to make it merchantable. In other words, if it were physically possible to present all its liabilities to the company at once, it could not deliver all the merchantable oil it has given receipts for by 705,767 barrels. This feature undoubtedly will attract the attention of those persons who have been assailing the pipe lines, but as a practical question affecting the immediate delivery and receipt of oil it is of no consequence. The figures are as follows:

Gross stock, bbls		36,227,589
Sediment, bbls	14,811	
Free water, bbls	201,860	
Merchantable oil, bbls	3,012,473	—3,228,644
Amount of clear, merchantable oil, bbls		32,998,945
Outstanding certificates	24,504,414	
Credit balances	5,767,110	
Registered certificates	3,435,188	—33,704,712
Deficiency on liabilities		705,767
Amount of merchantable oil obtainable from the unmerchantable stocks by heating and steaming		1,383,575
Actual margin against liabilities, bbls		677,808

The petroleum market to-day was only moderately active, and prices ranged between $1 13¾ and $1 12⅝. There was no feature to the dealings, but the close was weak at about the lowest prices of the day.

The range of prices and the total dealings here were as follows:

	N. Y. Ex.	Cons. Ex.
Opening	113½	113¾
Highest	113¾	113¾
Lowest	112¾	112⅞
Final	113¼	112⅞

" Bradford	.....	5,208,000
" Pittsburg	.....	5,779,000

The refined market was firm but unchanged.

A "CORNER" IN CHICAGO MARKETS.

PORK ADVANCES 80 CENTS A BARREL—WHEAT SLIGHTLY LOWER.

[BY TELEGRAPH TO THE TRIBUNE.]

CHICAGO, Oct. 5.—Pork to-day for October advanced 80 cents a barrel. The more distant options were only feebly affected, but whichever one of them moved at all moved up. Lard advanced nearly ¼ of a cent per pound; ribs nearly another ½ cent per pound. The scramble of the "shorts" was even less formal and self-possessed than yesterday. They started in good order to buy, just as they did yesterday, but first one became alarmed, then another, and in a very short time the whole mob was in disorder. Yesterday the "shorts" directed their efforts almost solely to covering their contracts for short ribs for October. To-day the men who had sold pork that they did not have, lost their heads, and so did the other men who had sold lard. Ribs advanced 60 cents per hundred pounds yesterday. They went up 40 cents more to-day. That makes an advance of 1 cent per pound in two days, nearly 2 cents advance in a fortnight. It counts in a market where a speculator considers himself a nobody if he does not sell a million pounds of ribs at a clip.

Last night pork for October closed at $10 50; to-night everybody wants it at $11 32½. Even November pork is 25 cents per barrel higher, because all at once the sellers have thought that, perhaps, in selling hundreds of thousands of barrels of pork for future delivery which they did not have, and which they have no facilities for making, they have been a little reckless. October ribs closed to-night at $7 05, after having touched $7 15. A few days ago it was only the radicals who were talking $7 for October. This figure has now been passed. The radicals have advanced their figures to $8. Even the conservatives are talking $7 50. Lard for October was $7 02½; to-night it is strong at $8 15, after having touched $8 30, and the "shorts" are dropping into the offices of the Englishmen who have got the cash property, suing for settlements. There is no difference of opinion as to the situation for October. Armour, everybody admits, has the short sellers "cornered." There is no escape for them. Half of them are not attempting to escape. The market to-day was rushed up by the "shorts" themselves. Armour never touched it except when it seemed to flag. There is undoubtedly a large "shortage" of pork, of lard, and of ribs. There is believed also to be a considerable "shortage" out in October pork. Some settlements are being made, a good many by the English crowd with their lard "shorts." This does not at all break the "corner." No cash lard is released. The contracts of the sellers are simply cancelled upon payment of the market differences. The lard is all locked up in the bank vaults. McFarlane & Company say that they know of 10,000 barrels of lard which will be sent here from across the water. There never was a provision squeeze yet, however, in which just such remarkable manoeuvres were not promised. October pork closed at $11 32½; November, at $10 70; October lard at $8 15; November at $7 65; October ribs at $7 05; November at $6 15. Wheat dropped a half a cent to-day. There were further reports of failures in the grain trade abroad, and besides it is believed that the St. Louis crowd headed by Pratley, which controls considerable wheat, has begun to sell. The range of fluctuation was, however, narrow. The local "scalpers" are still raising the market and the feeling here is somewhat depressed. On the "call" the feeling was pretty firm. October stopped at 95c.; November, at 96⅝c; December at 98⅝. Corn was a trifle strengthened by the advance in provisions and closed ⅛@¼c better than yesterday. The shipments were liberal, 355,000 bushels; nearly as large as the receipts. Oats were firm and practically unchanged. McCreech's firm was buying wheat to-day.

LIVE STOCK MARKET.

NEW-YORK, Oct. 5.—BEEVES—Receipts were 185 cars of 3,347 head—132 cars at Jersey City and 53 cars at 60th-st. Total for six days 14,438 head against 12,1 head for the corresponding time last week. Mr. Eastman had 22 cars of Export Cattle. Martin Fuller & Co. 14 cattle loads and 4 cars were consigned to Mr. Goldsmith, leaving exclusive of 21 car loads which came direct to a city slaughterer 124 cars for sale. Forty carloads were delayed on the Pennsylvania road, of which 23 cars were not likely to reach the yards until after 1 o'clock. The arrival was much larger than expected, but not exceed the demand, and if yarded early, all could have been sold out long before noon. All grades were in demand at higher prices. Fair to Good Natives at an advance of ¼c per lb, and Common and Medium together with Colorado and Texans sold nearly ¼c per head stronger. Quality of the Texans and at a fraction over 3c. Sales of 1,176 Cherokees at 3¾c, to dress 55%. Six cars of Fair Colorado sold at 3¾c, loss 50c per head, and very Ordinary to Fair Natives at 3@3½c, to dress 52@53%, while Good and Prime Steers were wanted at 4@4½c, and even 12c was paid for the best lots.

A carload of Family Illinois Cattle was sold by Vogel & Regenstein, 1,300 lb, at 4½c, and Mr. Hoffmeister and 6 head to W. Blumenthal & Son. The east price in Chicago was 3@3¼c, and the selling price here 3⅞@4c. This was the best lot shown here for several months.

Exporters purchased about 100 head at $5 88@$6 70 Messrs. Meyer & Siegel had 14 cars of Texans to arrive, all of which would be wanted.

Shipments for the balance of the week are as follows: In the steamers 190 Live Cattle by M. Goldsmith, 880 Quarters of Beef and 100 carcasses of Mutton by Joseph Eastman, 784 Quarters of beef by D.
