FRIDAY, Oct. 12—P. M.

There was no lack of effort to-day on the part of a few of the room traders to establish higher figures, and whenever they appeared en masse and bid against each other for the purchase of any particular stock, their efforts always were rewarded by more or less of temporary success until after 2:30 o'clock. To that kind of operations were due nearly all of to-day's variable fluctuations. But the feature of the various movements was that following the rallies there was a still lower decline. After 2 o'clock there was an increased pressure to sell stocks, which proved to be too urgent for the room manipulators to stem. In the late dealings Lake Shore became a conspicuous feature, and with a large business in the last half hour declined from 99 to 97¾, at which it closed without recovery. All of the other trunk lines fully sympathized with the decline in Lake Shore. There were rumors of a cutting of rates between the lines; but so far as we are informed that is no more true to-day than it has been since January 1, except that the Pennsylvania Railroad, on business from Philadelphia and points in New-Jersey, has issued reduced rates for freight via the West Shore road to points on that line as far west as Syracuse. The Northern Pacifics again were weak and lower, but the preferred stock is still sustained by the idea that its possession is necessary to the directors to authorize the new loan. There now is less doubt about the loan being authorized than there is of its successful negotiation after it is authorized. Denver and Rio Grande stock declined from 24¾ to 23⅛@23⅜. Those figures place the market value of the proposed issue of "blanket" bonds at 51⅝. That is, a subscriber to $10,000 in bonds will pay $7,500 in cash, and therefor receive the $10,000 bonds and 100 shares of stock; the stock may now be sold at $2,337 50, leaving the cost of the bonds 51⅝, or for $10,000 in bonds a cost of $5,162 50. The market closed weak and unsettled, but the day's dealings generally are within a range of ½@1 per cent.

Government bonds were extremely dull. Bids for the 3s were off ⅛ per cent, but for the 4s and 4½s are ¼ higher. Annexed are the closing quotations:

U. S. cur 6s, 1895	129	....			

There was no business done either in State bonds or city bank shares.

Railroads bonds generally were dull and prices were weak. West Shore and Buffalo 5s were active, but after 78 the price declined to 76½@77½. Erie second consols were steady at 94, New-York, Chicago and St. Louis firsts at 99½@99¾, and Central and Hudson debenture 5s were up ½ at 106. Canada Southern first 5s declined ¼ to 95¾. Missouri, Kansas and Texas first consols were unchanged at 107; seconds were down to 52, and general mortgages were ⅜ lower at 79. Texas and Pacific issues were unusually active; the land grant incomes declined from 50 to 48⅝ and recovered to 49½, and firsts Rio Grande division fell from 74 to 70 and ended at 71. East Tennessee, Virginia and Georgia consols were firm at 73, but the incomes declined 1½ to 28. Denver, Rio Grande and Western firsts were ¼ higher at 70. Northern Pacific firsts were steady at 103, and Atlantic and Pacific incomes were down to 24.

The business of the Sub-Treasury for the week ending to-night includes receipts of $8,017,052 and payments of $6,853,362, making an apparent gain to its balance of $1,163 690, and leaving its balance at $122,155,713, against $120,992,023 on October 5. The week's movement, however, includes in its receipts $550,000 and its payments $1,483,000 of items that do not affect the banks nor the local money market; so that the loss of the banks by the week's operations is $2,096,690—$385,735 in currency and $1,710,955 in coin. While the sum named ($2,096,690) is that between the Sub-Treasury's actual receipts and payments and reflects the banks' loss from that movement, $1,575,000 of the Sub-Treasury's receipts was gold coin for payments in silver certificates to be paid out elsewhere; so that the United States general Treasury gained only the sum of $521,690. The day's operations included: Receipts, $1,815,515; payments, $713,520; currency balance, $7,269,270; coin balance, $114,886,443.

The local money market at the Stock Exchange still reflects the presence of a large supply of loanable capital on call; to-day's rates were 2@1½ per cent, and a good proportion of the business was done at the lowest rate.

The Clearing-House statement to-day was as follows: Exchanges, $125,469,988; balances, $5,205,589.

The United States Treasury at Washington to-day received $328,000 National bank notes for redemption. The customs receipts were $577,933, and the internal revenue receipts $335,283.

The foreign exchanges to-day seemed weak because the rates were reduced. An absence of demand and the receipt of some New-Orleans bills, drawn against cotton exports which were to be taken up at market, were the cause of the decline. We revise quotations for business as follows: Bankers' bills, $4 81½ and $4 84½ for long and short sterling respectively; 5.24 and 5.21 for francs; 94¼ and 95 for reichmarks; 39¾ and 40 for guilders.

In London British consols were strong at ⅛ advance to 101 5-16 for money and 101½ for account—a fact that disposes of the sensational stories published of impending financial disasters. United States 4s were steady at 124⅜ and 4½s were ⅛ off at 117⅜. American railways were all lower in sympathy with yesterday's home markets. Bar silver was ⅛ lower at 50⅞d. per ounce. At Paris French 3 per cents were higher at 78.05, and sight exchange on London declined to 25.25½ irs. to the £.

Bullion valued at $46,000 was received in this city yesterday from the mines.

THE PETROLEUM MARKET.

NEW-YORK, Oct. 12.

There was further active speculation in pipe line certificates to-day, but the net result was a slight recovery in prices from the close yesterday. From the oil fields the news was not of sufficient importance to influence traders in either direction. The market declined early ⅞ cent to $1 06⅝; a later rally to $1 10⅛ was followed by sales down to $1 09⅛. The highest prices of the day were touched near the close, but at the close prices ended a trifle off, and the tone was not entirely settled. The recent drop has resulted in the creation of a large "short" interest, which may furnish the basis of a sharp rally.

The total sales and the range of prices were as follows:

	N. Y. Pet.	Cons. Ex.
Opening	109⅛	109⅛
Highest	110⅛	110⅛
Lowest	108⅝	108⅝
Final	110⅛	110⅛
Sales, barrels	10,182,000	4,394,000
Clearances yesterday	10,624,000	5,736,000

The clearances at the other exchanges were: Oil City, 10,524,000; Bradford, 6,880,000; Pittsburg, 6,626,000 barrels.

The refined market was quiet but unchanged at 8⅝@8¾c per gallon in New-York.
