A SHOCK WORTH SOMETHING.

There is, perhaps, no expression that more shocks the sensibilities of the readers of a newspaper than the oft-used phrase, "How's your liver?" It savors of slang, and is mentally resented. Possibly the shock that one feels when reading the phrase is the moving of the liver itself, which is stirred to action by the very boldness of some demure enemy of the liver. But did you ever stop to analyze the phrase, "How's your liver?" It is really the common salutation among the oriental people, and that because of the knowledge possessed by them that "No good health can be had unless the liver is active." The drummer on the road who has not a crankety merchant will, without hesitancy, say, "Oh, well, his liver is out of order." Lord Rochford once said, "He would rather have one good liver, according to the Gospel, than ten babblers," of course, he meant an individual who lived righteously, according to the precepts of the Gospel; but even that is impossible to the man or woman whose liver is sluggish or diseased. It is the liver which troubles most people more than anything else. A sluggish or diseased liver is the cause of Biliousness, Headache, Constipation, Dyspepsia, etc., and if these are not enough to upset one's nerves then nothing can do such mischief. If people who are shocked by the phrase, "How's your liver?" would just take a few doses of Simmons Liver Regulator, the "King of Liver Medicines," there would be a shock worth something. It would make the liver bound and move with such activity that one would have no consciousness of any ills, even of nerves. Life would be a perfect bliss. A great multitude have crowned Simmons Liver Regulator the King of Liver Medicines. This is just the time of year when the liver is likely to be most sluggish, and especially during the warm and oppressive weather of summer. And, if you want good health to enjoy the summer, don't forget to keep the liver active by taking

A Happy Ending.

Otterville, Va.—"For fifteen years I was a great sufferer from Dyspepsia, and nothing relieved me until I tried Simmons Liver Regulator. This is the best medicine in the world. I am now in good health."—Mrs. N. L. Collins.

A Wise Conclusion.

West Corinth, Maine—"I doctored for years for Biliousness, but nothing ever helped me like Simmons Liver Regulator. I shall take nothing else hereafter."—N. L. Oakman.

A Plain Statement.

New Market, Miss.—"Simmons Liver Regulator cured me of liver complaint and dyspepsia of 20 years' standing, after many other remedies had failed me. Will say no more than that I feel like a new man."—Wm. Schafin.
