An Opportunity to Serve

Now that every ounce of woman-power must be ranged alongside the man-power of the nation, it is no longer the fashion for a healthy, intelligent young woman to remain in idleness. The knowledge that her services are needed makes every patriotic girl want to do something that is worth while.

But what? It should be something for which she is naturally fitted, and which will not require a long period of training. One of the best of answers is—Telephone Operating.

The telephone operator's work is interesting. It is of vital importance to the public welfare. It is entirely unlike factory, store or office work. It has a charm all its own. The work is performed under ideal conditions, under the watchful care of sympathetic supervisors. It is permanent, the pay is good and advancement is certain to those who qualify.

See our School Principal at Room 216, Telephone Bldg.
