FRIDAY, March 7—P. M.

Although the dealings in stocks to-day amounted to 210,000 shares, against 99,800 shares yesterday, the market was dull and developed no pronounced feature. In values there was a gradual decline; there scarcely was activity sufficient to make important fluctuations, so that the final prices reflect, sometimes, considerable shrinkage from yesterday's last figures. Yet that end is little more than the result of a board-room trading which took its cue from the appearance of a moderate amount of orders to sell "long" stock upon a market that is more than usually bare of the sustaining influence of a "short" interest. The stock loan market has ceased to be the leading feature in the situation, as it was early in the week. To-day the attendance at it was as unusually slim as on Monday and Tuesday it was unusually large, and was made up principally of brokers who were desirous to lend stocks; everything was in abundant supply at flat or 1@2 per cent for carrying. In the early dealings Erie stock made a special sensation, because it opened up at 25⅛ and rose to 25½; but it later sold at 24⅝@24⅞. Union Pacific was first in amount of sales (40,000 shares), and declined from 81¼@81⅜ to 80, and closed at 80⅝, or 1 per cent lower than last evening. Delaware, Lackawana and Western opened ⅜ lower at 129¼, recovered to 129⅝, and afterward sold at 128@128½. St. Paul after 92⅛@92⅜ brought 91⅜@91¾. Lake Shore opened at 103⅝ and declined to 102⅝@102⅞. All the stocks in which the transactions amounted to as much as 10,000 shares have been mentioned, and there is little to be said about the remainder of the list except that it followed the course of prices for those stocks named, and that the declines generally are commensurate with the amount of business done in each stock. Of rumors or reports there was an unusual scarcity, and the market, closed weak at the figures of the last sales.

Government bonds were almost entirely neglected but the quotations were steady and unchanged as follows:

Only a small business was done in State bonds, including sales of Georgia gold 7s at 114½, Missouri 6s 1886 at 106, and North Carolina 4s at 84. Considerable was done in city bank stocks: Metropolitan sold at 152, American Exchange at 135, Hanover at 160, and Union at 175.

The market for railway bonds was less active to-day than it was yesterday and presented no special features. Upon the whole, however, prices were firm. Erie second consols were steady at 92½. Missouri, Kansas and Texas first consols declined ½ to 108½ and the general 6s were off ¼ at 81¾. Chesapeake and Ohio firsts, series B, were up ½ at 102½. New-York Elevated firsts were firm at 119½, Metropolitan first 6s were off ½ at 106, and seconds were ⅜ higher at 96⅞. West Shore and Buffalo 5s were lower at 55½@55¾ against 56 last evening. Canada Southern first 5s were ½ higher at 99½. East Tennessee, Virginia and Georgia consol 5s were up from 74⅛ to 74½@74¼. St. Paul firsts, Pacific and Western division, were ½ higher at 98½, and firsts, Wisconsin and Minnesota division, were ¼ higher at 95¼. Northwestern debenture 5s rose ½ to 96, but closed at 95⅝, and Burlington and Quincy debenture 5s sold at 96⅛@95⅞. New-York, Chicago and St. Louis first 6s were up ⅛ at 104¾. Omaha consol 6s were up to 112. Texas and Pacific incomes were ¼ lower at 50, and firsts, Rio Grande division, were up ⅝ at 72⅜. Kansas Pacific consols were off ¼ at 96½. Oregon and Transcontinental firsts were ¾ lower at 69⅛, and Oregon Railwy and Navigation were ½ off at 107½.

The business of the Sub-Treasury for the week ended to-night includes receipts of $10,019,915 and payments of $9,087,190, leaving the general balance at $132,493,682, against $131,560,927 February 29, showing an apparent gain of $932,755. But deducting from the receipts $100,000 and from the payments $3,371,000 for certain items of transfers which only affect the Sub-Treasury's account with the General Treasury, its true gain, as affecting the banks, is $1,203,715. To-day's operations covered: Receipts, $3,082,774; payments, $857,178; currency balance, $10,000,323; coin balance, $122,493,359. Part of to-day's gain of $2,116,902 in coin undoubtedly is in payment for about $1,500,000 of gold bars to-day taken from the Assay Office for export, so that the Treasury's real gain and the banks' real loss is only about $2,700,000. The figures of to-morrow's bank statement of averages, whatever they may be, will reflect only a medium of the banks' loss by the Treasury operations and the week's export of gold.

The Clearing House statement to-day was as follows: Exchanges, $104,025,237; balances, $4,966,204.

The United States treasury at Washington today received $288,000 National bank notes for redemption. The customs receipts were $083,836, and the internal revenue receipts $384,193.

The gold shipments by to-morrow's steamers that are engaged up to the close of business to-night are $4,650,000; but as the steamers do not sail until this afternoon this amount may be changed either by withdrawals or additions. There is no change in the foreign exchanges; they are firm, and quotations for business are as follows: Bankers' bills, $4 80¾ and $4 89¾ for long and short sterling respectively; 5.17⅛ and 5.15 for francs; 95⅛ and 95¾ for reichmarks; 40⅛ and 40⅝ for guilders.

In London British consols were weaker and declined from 101 11-16 to 101 9-16 for money, and from 101 15-16 to 101 11-16 for account. United States 4s were unchanged at 125⅞, and the 4½s were 3-16 higher at 115 7-16 (!). The quotations for American railways generally show advances—from ⅛ to 1¾ per cent—that for Erie being the most conspicuous. Bar silver was 1-16 lower at 51 1-16d. per ounce. The Bank of England gained £18,000 bullion on balance. At Paris French 3 per cents were up to 76.40 francs.

Mr. E. Chamberlain, an old member of the Stock Exchange, has formed a copartnership with Mr. A. A. Franck, of the late firm of Justh & Co., for the purpose of transacting a general stock commission business.

THE PETROLEUM MARKET.

NEW-YORK, March 7.

The feature of the petroleum situation to-day was not nearly developed until after business hours, when an unusual scarcity of certificates for lending was apparent. As a rule, the holder of "long" oil has to pay a small premium, in addition to the storage charges, fifty cents a day per 1,000 barrels) for the carrying of his oil. To-day late borrowers had great difficulty in procuring certificates, and from 55 cents carrying charges fell to flat—that is, the borrower paid the storage charges in itself. Several large houses was usually are free lenders of oil were unable to accommodate the demand upon them. On the face these conditions would indicate the existence of a large short interest, but of course the scarcity of oil may be as much a part of manipulation by "long" holders as the scarcity of stocks sometimes is. In the speculation itself an unexpected strength was developed. The dealings were large and from an opening at 98⅞@99⅛ cents the price rose to $1 01½ in the early afternoon. The buying appeared to come from the New-York Exchange, where prices generally ruled above the quotations at the Consolidated Board and in Oil City and Bradford. In the last hour the market broke to 99⅞ cents coincident with reports that a new well in one of the old Warren County districts had been opened with a production at the rate of 200 barrels a day. Toward the close, however, the market recovered to $1 00¼ and $1 00⅛ and the end was firm. After the close there was active bidding for oil at the Mining Board at $1 00⅜.

The range of prices and the total dealings were as follows:

	N. Y. Pet.	Con. St.
Opening	99⅛	98⅞
Highest	101½	101½
Lowest	99¼	98⅞
Final	100¼	100¼
Sales, barrels	8,431,000	6,545,000
Clearances, yesterday	12,116,000	11,438,000

Elsewhere the clearances were: Oil City 11,442,000 barrels; Bradford 10,454,000 barrels; and Pittsburg 9,330,000 barrels.

There was an advance of ⅛ cent per gallon in refined oil to-day, to 8½ cents per gallon in New-York.
