REFLECTIVE MOODS.

Do you ever fall into them? For instance, when in want of a suit, a hat, some shirts or other "fixings," do you ever ask yourself where you can buy to the best advantage, and at the same time suit your taste? If so, and you are unable to answer, visit our house and we guarantee to solve the problem for you easily and pleasantly.

In the matter of SUITS, for example, those selling at eight dollars and a half are, of course, plain to look at; nevertheless, they will wear well and add to your appearance.

If you can afford a better and more DRESSY SUIT, ask to see those selling at $11, $12.50 and $13.50. Our assortment is larger than you can find elsewhere, and the very best value is guaranteed for whatever sum you spend. Don't forget that if you buy an article from us and feel dissatisfied afterward, that you are at liberty to come back for an exchange or get your money refunded.

Generals Beauregard and Early.

A card signed by the above is going the rounds of the press. One statement in it strikes the reader as very peculiar, namely: "that in managing a single number drawing if the commissioners of such a lottery allows the ticket-holder the privilege of calling out the number on his ticket and have the tag or ballot with a corresponding number on it shown him in the presence of the audience and then placed in the wheel, such a lottery company resorting to such a practice proves itself to be a fraud." This statement is untrue and unworthy of such gentlemen. Will these generals please say how single number lottery companies swindle; is it not by simply having all tags or ballots with numbers on them corresponding to the numbers of the tickets they sold, not placed in the wheel at all, thus if a man buys a ticket with number 56 on it, the tag or ballot with 56 on it is kept out of the wheel, so, of course, the ticket holder is bound to draw a blank, because his number is not represented in the wheel at all, but suppose the holder of the ticket asks to see the tag with 56 on it placed in the wheel and sees it done, he knows then his ticket HAS a chance to draw a prize. This certainly is the only fair test of an honest drawing. Should the ticket-holder not be there in person, he could write to some one, asking them to call out his number and see that it goes into the wheel. These generals were brave soldiers, and no doubt are honest in THEIR lottery work, but they certainly are not posted as what constitutes an honest lottery drawing and their statement shows their ignorance.

Mr. H. E. Edwards, Blanco, Texas, says: "Brown's Iron Bitters relieved me in indigestion, sour stomach and dyspepsia."
