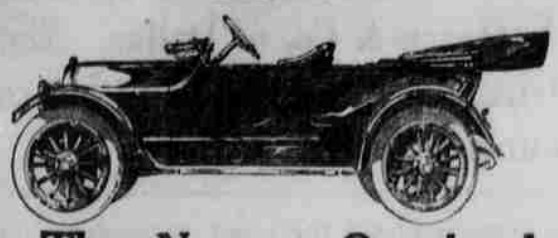
Overland

$750

Roadster - $725

This is the largest Overland that will be produced this year



The Newest Overland
$325 Less Than Last Year

The 1916 Overland is essentially the same as the 1915 Overland—*the famous Model 80 that sold for $1075.*

But the price is $325 less.

The stream-line body is the *same* as the $1075 model of last season.

It has the *same* magnificent finish; that deep, rich tone of dark Brewster green with fine hairline striping of clear ivory-white.

It has the *same* powerful, economical thirty-five horsepower, four-cylinder motor, *but weighs less.*

It has high-tension magneto ignition.

It has the *same* underslung rear springs. It has the convenient arrangement of electric control buttons on the steering column.

It has the *same* easy-working clutch which any woman can operate; the *same* "easy to handle" shifting levers; the *same* "easy to steer with" wheel; the *same* positive brakes.

It has 32" x 4" tires which is unusual on a car at this price.

In detail, finish, mechanical features, comforts and conveniences, this newest Overland gives you all there was in the $1075 Overland *and even more power.*

And it costs you but $750 — $325 less than last season's large 35 horsepower Overland

Deliveries are being made now all over the country.

Every Overland dealer already has a waiting list.

Place your order immediately and you can be sure of a speedy delivery.

CARRANZA ELIMINATES HIMSELF

Mexican factions are given to understand that the Conference of Countries would eliminate from consideration any of the factions that should refuse to join in a peace conference. Now it is said that Villa and his followers are ready to consider terms, but Carranza announced that nothing short of recognition of his faction with him as provisional president will satisfy. According to the original plan he has eliminated himself. Of course the recognition of some other faction would precipitate a fight with him, but suppose after Villa has agreed to the peace conference, international recognition should be extended to Carranza. Gen. Villa would have cause to feel that the other nations had not kept faith with him and he would lead a more determined revolution than ever.

In making appropriations for the State University the legislature said so much for this purpose and so much for that, specifying all the different departments. Now comes President Battle of the University, supported by the Attorney General and wants to consider these several appropriations as a lump sum to be drawn on for any one or more expenditures as his discretion may suggest. Comptroller Terrell says the plan is not according to law and he refuses to suffer it. Gov. Ferguson says Prof. Battle is wrong and moreover that he is not a suitable person to be at the head of the State University and he is to be removed and some other to be named in his stead.

J. M. Blackburn of Kiltis County was here last week on business. He ordered the Signal sent to him en route 4, Ennis, Texas.

WITH OUR EXCHANGES

The wingless Normal is no more. The special session of the last legislature granted necessary appropriation for the W. T. S. N. Carry the news to Editor Chambless of the Snyder Signal.—Glaizer Review.

Don't judge a man by his clothes, says an exchange, God made one and the tailor made the other. Don't judge a man by his family, for Cain was of good family. Don't judge a man by his failures in life, for many a man fails because he is too honest to succeed. Don't judge a man by the house he lives in, for the lizzard and the rat often inhabit the grander structure. When a man dies they who survive ask what property he has left behind, the angels that bend over the dying man ask what good deeds he has set before him.—Granbury News.

Frank, have you taken to the pulpit? There is a great sermon in the foregoing.

Russia has an idea that the war is to last for some time yet. Reports from four great provinces which comprise the choicest wheat raising portions of the empire, are to the effect that wheat harvest is going on therein with feverish activity, but that no attempt is being made to sow any portion of the great fields for another crop.—Ft. Worth Record.

A great many people at this time are receiving great catalogues from a big mail order house. Each catalogue costs 7 cents to send it through the mail and it is as big as a family Bible, filled with tempting illustrations and catchy prices. Just as long as these catalogues go to people, and service is promptly given, and home people do not issue some kind of an invitation to these people to trade with them, making it just as easy to do so, just so long will a lot of money go to the mail order houses. One of the best ways to meet such competition is to build and maintain good roads, and then advertise constantly.—Cleburne Enterprise.

The Farmers Union of Texas have so educated its members until the crop mortgage is almost a thing of the past, among its active membership. The good this order is doing can hardly be estimated.—Roaring Springs Echo.

Editors as a rule are kind hearted and liberal. An exchange tells of a subscriber who died and left fourteen year's subscription unpaid. The editor appeared as the lid of the coffin was being screwed down and put in a linen duster, a thermometer a palm leaf fan and a recipe for making ice.—Ex.

Some people are so considerate they forget to tell the editor of news concerning their family and then kick worse than an army mule because he doesn't publish something he knows nothing about. We just naturally love such people.—Stanton Reporter.

While returning home from church James Colville of Floyada was held up and robbed of three dollars. If Colville had put the three dollars instead of a nickel in the contribution plate he would now be ahead $2.95.—Coleman Democrat-Voice.

Money is coming into this country so fast from Europe they've gone to estimating it in tons. Seventy-five tons of gold is reported as arriving in New York recently. It will take several tons of it to pay for the large tonnage of feed and grain raised in Texas this year, to say nothing of the cotton crop.—Mineral Wells Index.

An 11-cent stamp has been authorized by the post master general. Why not a 7-cent stamp also? Don't break up that rattling good team, 7-11.—Fort Worth Star-Telegram.

About Dodge Cars.

The following letter has just been received by the LaGrange dealer from one of his recent purchasers of a Dodge Brothers Motor Car.

"I arrived at home alright, but had a terrible experience. About two miles out of Shiner I met the water and mud coming down these hills from rains that had just fallen. We plowed through it, sometimes going into second. This continued for about six or seven miles, then we got to where little rain had fallen, arriving at Wied store, I stopped fifteen minutes and phoned you as you remember. As we left Wied store, a small claud was approaching from the South which developed into a heavy rain, a real water spout, almost. I have not been in such a heavy rain in many years. It rained so hard I had to stop the car twice. I couldn't see to drive, could not see the road, water was over axle in places, and ravines and small brances had to be crossed where you couldnt see whether culverts were there or not. We plowed right along through this, up hills and down slants, narrow roads, slippery and sliding, almost going into the ditch several times and finally rounded up at home safe and sound but Mrs. Long and the children were scared to death all the time—as for me, I knew I could stop the car if it started in the ditch and if I couldn't get home I could stay somewhere on the road. We washed the car immediately and it now shines as if new. It is a Puller believe me, and I believe if any "Doubtful Thomases" had been along they would have been convinced. I think more of my car now than ever. It has proven itself."

Fred A. Graham sells this wonderful car. 10

We Help Those Who Try to Help Themselves

C. W. Post Home Farms

We are building up a community of actual home owners and are anxious to interest good, dependable men in our undertaking. We will sell raw land on which we will place improvements and charge against the land. In other words should you buy 160 acres, we will improve the same with a 4 or 5 room dwelling (with water piped into the kitchen), well and windmill, sheds for chickens, hogs and stock, and a silo if wanted. These improvements will cost from $1500 to $1700. We will not sell land unless it is to be farmed—no speculation.

One can buy 160 acres 10 to 15 miles from Post City, but near a school, at $20 to $22 an acre, plus the improvements mentioned above. We will sell you the land and improvements for a payment of $2 per acre ($320) down and $1.75 an acre ($280) per year at the unusually low rate of four per cent interest. Notes on or before. Payments cover both land and improvements.

Farms on the plains will be sold during 1915, to be occupied early in 1916, for $2.00 an acre down and terms as above. Interest does not start until you go on the land. Next payment Jan. 1, 1917.

Also have just classified and put on the market the breaks, or grazing land. These lands will sell from $6.00 to $12.00 per acre. $1.00 per acre cash, 50c per acre per year until payed out at 6 per cent interest. This goes in tracts of 640 acres and up.
