premiums demanded for the use of stocks were unusually heavy and ranged from 1-32 to ½ per cent. This of itself was sufficient to drive the scattered "short" traders into covering their stocks. Till after 1 o'clock the rally was fairly maintained, but not up to the best figures. After the close some stocks, which early had loaned at 1-16@⅛ per cent, paid 3 per cent for carrying, and prices began to slip away. Delaware, Lackawanna and Western, which had risen from 112⅞ to 114⅛, declined to 112⅛, and Reading, which had risen from 34 to 36⅛, again sold at 34. Union Pacific early sold at 49⅛@48, rose to 50, and then declined to 45⅞, at which it closed. Northwestern opened at 106⅜@106¼, rose to 109½, and later sold at 107@107¼; the difference between cash and regular stock ruled at about ½ per cent in favor of to-day's delivery. St. Paul made a smart rally from 75½@75 to 77, and afterward sold down to and closed at 73¼. Central and Hudson opened down 1¼ per cent on the London quotation (which was the equivalent of only 108½), and rose to 111¼; it later sold at 109¾@110. The purchases "under the rule" of Central and Hudson amounted to 1,000 shares; the first purchase (cash), was at 110⅝—¾ per cent above the market figure for the regular stock, and the last 300 shares were at 109½—½ per cent below what at that moment was bid for it regular. Louisville and Nashville developed a weak spot, and from 44½@44⅝ declined to 40 @40¾. The Northern Pacifics lost their exceptional buoyancy, but their declines are small compared with the general list. The business in Western Union was unusually large (86,952 shares), and it fell from 59⅜@60 to 54@55. Even Missouri Pacific, after 80¾, sold down to and closed at 78. Of course, with such a market, the air was full of rumors of financial troubles, but only two of them as yet seem to have had any foundation, and at the time of writing those have not developed into affairs of importance. The market is weak because of a want of confidence, and financial difficulties that may develop will be the effect and not the cause.

Government bonds were quiet and weak; bids were ⅜ lower for the 4s and ¼ lower for the 4½s. Annexed are the closing quotations:

	Bid.	Asked.		Bid.	Asked.
U.S. 4½s 1891, reg.	111½	112	U.S. cur. 6's 1896	131	....

The business in State bonds was in small amounts, and included Louisiana consols at 76¼, Missouri 6s at 106¾, and North Carolina consol 4s at 84. Of city bank stocks Manhattan sold at 167, Metropolitan at 150, and Central National at 122.

The market for railway bonds was in full sympathy with the share market. The prices improved and declined together. The feature of the day was the decline for Erie second consols to 63@63½ after rallying from 68 to 69. Chesapeake and Ohio currency 6s were active at 46½@44@45. Missouri, Kansas and Texas first consols were off ½ at 105½; the general 6s were down 2 per cent at 77, and the 5s were off 1 per cent at 62. Canada Southern first 5s declined 1 per cent to 100. West Shore and Buffalo first gold 5s were active and closed 1⅛ lower at 50½. East Tennessee, Virginia and Georgia consol 5s were ½ easier at 72½. St. Paul first, Wisconsin and Minnesota division 5s, were off 1 per cent at 96. Northwestern debenture 5s were ¼ lower at 94½ and Wabash general 6s declined 2 per cent to 43. Denver and Rio Grande consols were down 1 per cent at 56, and firsts, Western extension, were off ⅝ at 43¾. Oregon Short Line 6s were ¼ easier at 84¾. Texas and Pacific incomes fell 1 per cent to 42, and firsts, Rio Grande division, declined from 60½ to 59⅜@59½. Northern Pacific firsts were firm at 104⅝. The dealings in bonds that are mentioned generally were in small amounts and the figures are not significant; but almost everything was offered at prices of sales shown in the official report at head of this column.

The Sub-Treasury to-day gained on balance $44,868, made up by a coin gain of $84,692, less a currency loss of $39,824. The day's operations covered: Receipts, $1,202,022; payments, $1,157,154; currency balance, $9,978,153; coin balance, $125,678,146.

The money market to-day ruled firmer on the shifting of loans consequent upon yesterday's decline in prices. After opening rates at 3 per cent for call loans the prevailing rate was 4 per cent, with exceptions at 5 per cent, and the closing was at 4@5 per cent.

In London British consols were steady at 101 9-16 for money, and 101 11-16 for account. United States 4s were off ⅜ at 125⅛, and 4s were ½ lower at 115. American railways were all lower, and prices for all the high price shares ruled about 2 per cent below last evening's home closing figures. The strength which the London market heretofore has received from the dealings of arbitrage traders has been destroyed by the premiums demanded in our market for use of certificates. At Paris French 3 per cents rose to 79.42½ frs.

The Clearing House statement to-day was as follows: Exchanges, $143,797,534; balances, $5,994,388.

The United States Treasury at Washington today received $865,000 National bank notes for redemption. The customs receipts were $360,257, and the internal revenue receipts $136,679.

The lack of business and the hardening tendency for money gives a weaker tone to the foreign exchanges; but quotations remain unchanged.
