GEN. CRESPO.

Caracas and La Guayra Now Under His Control.

His Triumph Over the Government Forces Is Complete.

The Revolution Is Victorious—Plunder and Riot Put a Stop To By Admiral Walker and His Marines—Members of the Cabinet Are Leaving.

CARACAS, Venezuela, Oct. 10.—Caracas has fallen. The triumph of Gen. Crespo over the government forces is complete. The revolution is victorious. After defeating the army of the government at San Pedro, Gen. Crespo began his march on the capital.

Three thousand of his troops, commanded by Generals Guerra, Rodriguez and Fernandez, entered the city of Caracas Sunday night. Gen. Crespo, with the balance of his army, is at Calvira, a short distance from the city. He will enter the capital Monday.

La Guayra is also in the hands of the Crespoists. Gen. Crespo has triumphed all along the line. Members of the government have either left the country or are trying to get out as fast as they can.

Before Crespo's detachment arrived La Guayra was filled with rioters. The news of the defeat of the government forces created something of a panic, that had not got fairly under way before the town began to fill up with refugees and stragglers from the army of the Pulido government that had met its Waterloo, and adherents of the government who fled from Caracas so as to be out of the way when Crespo's men got there. There was a lot of incendiary material gathered in the town. Pillage and plunder soon became general. Many houses were looted and there was much wanton destruction of property.

How far things might have gone it is impossible to say, if Admiral Walker, acting with admirable energy and decision, had not landed a force of sailors and marines to hold the mob in check and preserve order. The sailors were warmly welcomed by all who were not themselves seeking plunder. There is no doubt that much property and, perhaps, many lives were preserved by the landing of the men from the cruisers Chicago and Kearsarge.

Fugitives from Caracas tell me that the roads between here and the capital are almost impassable. They are filled with people who are fleeing they hardly know where, and are seeking, many of them, to take their portable property with them.

Stragglers and camp followers are hurrying and scurrying to get to the sea-side, thus adding to the general confusion.

It is rumored that Pulido and the members of his cabinet embarked from here and got safely on board some vessels that will carry them all beyond Crespo's reach.

The advent of the Crespoists was hailed with delight. They met with no resistence. There was no organized force to oppose them. The remnant of the government forces that had reached here was without officers to command it. The officers had deserted.

Amid the confusion one fact stands out as clear as the neonday sun—the revolution has triumphed.

COLUMBUS DENOUNCED.

A New York Preacher Dishonors the Discoverer.

NEW YORK, Oct. 10.—Rev. Henry Van Dyke denounced Columbus as immoral, dishonest and in effect an imposter, at the Brick Presbyterian church, Fifth avenue and Thirty-seventh street, Sunday. Nearly every seat in the church was taken when the servic began. After prefatory remarks, Mr. Van Dyke said:

"If Columbus discovered America, who discovered Columbus? If you say Columbus was a great genius, a nobleman, who discovered that there must be a world on the other side of the ocean, and that he set out across the Atlantic and discovered America; if you say this, you say something very simple and very well adapted to the purpose of hero worship. But the trouble is that it is not true.

"In the first place, it is rather doubtful whether Columbus was a noble man, and it is certain that he was not a hero. In the second place, he had not the slightest idea that there was a country on the other side of the Atlantic. In the third place, he was not the first European who stood upon American soil."

The preacher said that it was quite certain that at least on one occasion Columbus obtained money under false pretenses, that he was otherwise immoral and guilty of great cruelty, and was responsible for the West India slave trade that marks a dark spot in the history of the old world.

"It was God," he continued, "who discovered Columbus, and used him as an agent in the discovery of America. It was the King of Kings, who, by lack of the avarice which Columbus displayed, caused the voyage to be made, and it was the same King who sent the flock of birds to tell Columbus that he was nearing land."

Killed by a Wild Train.

CLARKSBURG, W. Va., Oct. 10.—A shifting train on the new West Virginia and Pittsburgh railway became unmanageable on a heavy grade near Weston and ran away. In rounding a sharp curve the wild train ran into a work car on which were six men, striking it with such force that the men were hurled sixty feet and most of them were shockingly mangled. John Curran, a superintendent in the employ of the Youngstown Bridge Co.; James Lawrence, Pascobe Parises and a laborer whose name was not learned, were killed, three of them instantly, the other dying some hours later.

WASHINGTON, Oct. 10.—Saturday the heavy hammer-throwing record was smashed at the Amateur Athletic union meeting on Analostan island, by Wilson Coudon, of the Warren Athletic club. He threw the 12-pound hammer 159 feet and one-half inch, also breaking previous record of 158 feet, and ended by tossing the 8-pound hammer 204 feet 6 inches, beating by 2 feet 6 inches his record of 202 feet.

Loss of Fishing Vessels.

GLOUCESTER, Mass., Oct. 10.—During the twelve months ending October 1, an even dozen of the Gloucester fishing vessels have been lost at sea. Fortunately none of these disasters have been attended, but fifty-eight lives have been lost through accidents by men being washed overboard, going adrift in dories, etc. The total money loss will amount to something like $78,000. Last year seventeen vessels and seventy-eight lives were lost. The valuation was $89,000.

The children were taken home and domestic remedies applied, but the little ones died in horrible agony.

FAST OCEAN TRAVEL.

Three-Day Trans-Atlantic Steamers—Will Carry No Freight.

OTTAWA, Ont., Oct. 10.—President Van Horne, of the Canadian Pacific railroad, has returned from England, after arranging for a fast trans-Atlantic steamship service. "It will," said Mr. Van Horne, "be a purely passenger line, as the rate of speed at which the steamers will run will preclude the carriage of a pound of freight. The steamers will run in connection with the Canadian Pacific railway across the continent. They will cross from land to land in one hour less than three days, and land passengers at Quebec in five. We will therefore be able to take a great deal of American travel away from New York; in fact, we must do so. They will see the advantage of using our fast line of steamers and through line of railway when we show them that we can land a Chicago ocean voyager at his own door in the same time it would take other lines to land him in New York."

MEDAL FOR SPEARS.

His Chicago Admirers Will Do the Handsome Thing By Him.

CHICAGO, Oct. 10.—Liveryman Spears, who demonstrated his ability as a dead shot at bank robbers at Coffeyville, Kas., the other day, has some warm admirers among the banking fraternity in Chicago. A subscription list was displayed on Cashier Hoag's desk at the First national bank, which stated that the object was to raise money to present Mr. Spears with a gold medal as showing appreciation for the dispatch with which he terminated the careers of the three desperadoes. The ink had hardly got dry on the heading of the subscription list before $220 was subscribed, and then the list was closed, as it was thought the sum was sufficient for the purpose. The order has been placed for a handsome gold medal, which will have engraved upon one side a picture of Mr. Spears with his deadly rifle.

WHY PAPER IS HIGHER.

Foreign Rags Cut Off and Bleaching Powder Put to Other Uses.

CHICAGO, Oct. 10.—According to a local manufacturer the stock of paper is running short and prices have advanced 10 per cent., and the end is not yet. This is not due to any "corner," but to the stoppage of the supply of rags from abroad. When the rag supply was cut off the mills were found with light stocks on hand. The lack of rags and the increased demand caused by the campaign were two causes in bringing about the present advance. Another is found in the fact that bleaching powders have risen greatly. These are made in England were discovered to be a powerful disinfecant and tons have been sent to Hamburg and the cholera infected points of Europe. Local dealers say the mills are working double time and can not fill the present orders.

THE MORMONS

May Support Several Women—Has Public Sentiment Changed?

SALT LAKE, Utah, Oct. 10.—At the Mormon conference Apostle J. W. Taylor said the manifesto of President Woodruff advising that no more polygamy be entered into for the present does not prevent a man from supporting more than one woman if he wants to. Apostle Grant was severe on apostles and those who criticise the church authorities. Apostle Thatcher warned the congregation that the wrongs are not to be righted by the people, but by the constituted rights of the church. President Geo. Q. Cannon exulted in the freedom and prosperity of the saints and in the change of public sentiment that has been wrought in their favor—a change little short of miraculous.

She lost her own life in rescuing her pet dog.

NEW YORK, Oct. 10.—A number of Jewish rabbis arrived here to attend the conference called by Chief Rabbi Jacob Joseph for Sunday, Monday and Tuesday. The object of the conference is to protest against the so-called "reform" rabbis, who have created such a stir in orthodox circles of late.
