Washington, which passes near New-Orleans, and Jackson, Miss., an area of 10,765,000 acres, embracing Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Tennessee, and a large part of the bottom lands of Mississippi, the early spring, though wet and cold, was followed by a dry May, while the range of the thermometer, though unfavorable, was higher than last year. The planting was late, but good stands were obtained. The fields were well cultivated in May, and are comparatively free from grass, and the lands are mellow. Timely rains would go far to compensate for the lateness of the planting. This area, though embracing about 64 per cent of the cotton acreage in the South, produced only about 53 per cent of the crop in 1882-83.

West of this line of longitude, embracing bottom lands of Mississippi and Arkansas, Louisiana, and Texas, an area of 6,013,000 acres, producing 47 per cent of the crop in 1882-83, the season has been extremely unfavorable. The rainfall throughout the spring has been excessive, retarding the planting from two to four weeks, injuring the stands, preventing farm work, overflowing the bottoms, washing up the young plants that had come up and setting the fields in grass. The worst conditions have prevailed in Texas. Replanting has been resorted to largely but in Texas the flooding rains of June 2 to June 4, have thrown back the work, so that seeding is still going on. The general condition of this area is therefore, unfavorable, Arkansas presenting the best chances for an average crop. Taking the whole belt together, it is found that there has been no increase in acreage, while the condition of the crop on May 31 was no better than that of last year, which was lower than for several years. Labor is plentiful, and no complaints are heard in relation thereto. The average condition of the crop on May 31, 1883, was reported by the Washington Agricultural Bureau at ninety-six.

OFFICIAL CROP REPORTS.

COTTON, SPRING AND WINTER WHEAT, OATS, RYE AND BARLEY.

WASHINGTON, June 10.—The returns of cotton planting made to the Department of Agriculture indicate a tendency to increase of area, checked somewhat in the Southwest by rains and inundations and in North Carolina and Tennessee by low temperature in the planting season. Replanting was still in progress to some extent on June 1, even in the lower latitudes. The apparent increase is about 4 per cent. The comparison with the area of the previous crop is as follows: Virginia 83; North Carolina 101; South Carolina 106; Georgia 103; Florida 104; Alabama 105; Arkansas 106; Tennessee 101; Missouri 80. The temperature of April was lower than the average throughout the cotton States. Rainfall was deficient on the Atlantic coast and slightly less than normal in the Gulf States, but rains were excessive in May throughout the Southwest, causing overflows of rivers, injuring stands everywhere, and causing a large amount of replanting.

The latter part of May was warm and clear on a considerable portion of the Atlantic coast, causing rapid growth and affording opportunity for thorough weeding and clean cultivation. In the West fields are grassy and "chopping out" not yet finished. The season is one to two weeks late. The plants are generally thrifty and vigorous. The main cause of relatively low condition is want of size, which a few weeks of fine weather may remedy, yet a continuance of bad weather would new be disastrous beyond the Mississippi. The general average of condition is 87, against 86 in June of last year, and 89 in 1882. The figures by States are: Virginia 90; North Carolina 95; South Carolina 97; Georgia 96; Florida 99; Alabama 93; Mississippi 87; Louisiana 72; Texas 77; Arkansas 85; Tennessee 92; Missouri 90.

The increase in the area of spring wheat appears to be nearly 900,000 acres, or 9 per cent. No part of the Pacific coast area is included as spring wheat. The largest increase is in Dakota, amounting to about 400,000 acres. The condition of spring wheat averages 101 per cent, being up to the standard in nearly every district. The condition of winter wheat continues high. The average is 93, against 94 a month ago. It was 75 in June last year, and 99 at the same date in 1882. Since the last report the Illinois average has declined 11 points, Ohio 3 and Kentucky 3. Indiana, Michigan and some other States show higher condition. The averages of condition of principal States are: New-York 98; Pennsylvania 100; Maryland 99; Georgia 93; Texas 98; Kentucky 96; Ohio 82; Michigan 91; Indiana 91; Illinois 76; Missouri 90.

The increase in area of oats is 4 per cent. The average of condition is 98. It was 96 last year and 101 in June of 1882. The averages are highest, as is usually the case, in the States north of the fortieth parallel, coming up to the standard in all of the Western States. The general average of rye has advanced from 96 to 97. The barley average has fallen from 101 in May to 98. It was 97 last June and 91 in June, 1882. It was 97 in New-York, 90 in Pennsylvania, 101 in Wisconsin, 100 in Minnesota, 97 in Iowa, 100 in Nebraska and 98 in California.

THE PETROLEUM MARKET.

NEW-YORK, Tuesday, June 10, 1884.

According to the official statement of the Washington Bureau of Statistics, the exports from the United States of petroleum and petroleum products in April varied but slightly from the exports in March. The comparison with April, 1883, however, is more favorable than was the similar comparison of the March report. The amount exported in April was 1,353,111 gallons under the figures for April, 1883, but the value of the exports was $119,934 larger. For the ten months of the fiscal year beginning June 30, 1883, the exports were 416,973,175 gallons ($38,272,244), against 396,941,154 gallons ($35,195,865) in the same period of the preceding fiscal year. But from January 1, 1884, there is a decline from the amount for the first four months of 1883 of 7,181,786 gallons, but the value of the exports shows an increase of $226,879. The total exports of the country from January 1 to April 30, 1883 and 1884, compare as follows:

	1883 Gallons.	1883 Value.	1884 Gallons.	1884 Value.
January	38,487,937	$3,508,545	33,480,079	$2,985,783
February	29,909,791	2,669,721	31,459,833	3,147,812
March	36,309,101	3,423,136	39,257,182	3,497,753
April	34,614,906	3,172,492	33,261,885	3,292,420
Total	138,621,345	$12,791,894	131,439,759	$13,018,273

A dull speculation was the outcome of the dealings at the Petroleum Exchanges to-day. Without any new development, prices showed a tendency toward ease, and after early fluctuations between 74 and 74⅝ cents, there was a decline to 73⅝ cents. The market closed easy at about the lowest points of the day.

The range of prices and the total dealings were as follows:

	N. Y. Pet.	Cons. Ex.
Opening	74¼	74
Highest	74⅝	74⅝
Lowest	73⅝	73⅝
Final	73⅝	73⅝
Sales, barrels	3,854,000	4,561,000
Clearances, yesterday	3,296,000	6,617,000

There was no change in refined oil.

REAL ESTATE.

NEW-YORK, Tuesday, June 10, 1884.

The following sales were held at the Exchange Salesroom to-day:

By John T. Boyd.

1 4-story brownstone building, with lot, No 2,010 5th-ave, w s, 84.6 ft s of 125th-st, lot 16.9x88; Isabella Reech $21,340

By John F. B. Smith.

1 8 and 4-story brick building, with lot, No 137 East Broadway, 210.1 e of Pike-st, lot 20x83; R A Gleason 15,550

BROOKLYN PROPERTY.

By John T. Boyd.

1 3-story brownstone dwelling, with lot, No 122 1st-place, between Court and Smith sts, lot 25x153; J C Julien 16,100

HIGHBRIDGEVILLE PROPERTY.

By James L. Wells.

Hotel and 15 city lots, e s of Central-ave, n of Macomb's Dam-road, executors 17,500

1 plot of land, adjoining above, 33x149, s s Randall 1 plot of land, adjoining above, 33x149, s s Randall 1,000

16 city lots on 1st-ave, and Deval-st, John Roesch & C Williamson 8,350

12 city lots on 2d and 3d aves, each 25 x about 125, John Kart & Thos McGuire 9,625

RECORDED REAL ESTATE TRANSFERS.

NEW-YORK CITY.

Broome-st, No 204, Aaron Hirshfield and wife to Samuel Langfelder $24,100

75th-st, n s, 160 ft e of 2d-ave, 50x102.2, Wm Cohan and wife to John Ignesk 45,000

86th-st, No 33 West, 25x100.9, Ed Frith to F W Stevens 40,400

Sullivan-st, Nos 78 and 80, A B Crane, executor, to Jas Dowling 17,500

28th-st, s s, 195 ft w of 4th-ave, 20x81, C W Hatfield et al to J Stephenson and another 14,000

TUESDAY, June 10—P. M.

The various markets at the Stock Exchange to-day moved more in unison with each other than they have of late. No change was developed in the bond department except a tendency toward a greater depression, but the share market was also weak instead of steady or irregular. The business in stocks (288,000 shares) was 115,000 shares more than the amount of yesterday's transactions. The market enjoyed a rather steady opening followed by improvements that were measured by small fractions. Then followed a steady and continuous selling of long stocks that was not pressed to the point of demoralizing the market, but which was sufficiently persistent to create no little uneasiness among some of the Board-room followers in the late advance. A cessation of sales during the last half hour of business, and a rally of ¼ to ½ per cent in prices, however, were some relief, and it found expression in a liberal bidding for stocks on the part of a few of the traders who always are conspicuous when the market turns a ¼ per cent in their favor. Taking the business of the day as a whole, it represents an important shrinkage in values that possesses more significance than does the closing rally, which still left prices materially lower than last evening. The greatest of the last rallies was in Missouri Pacific, which, after a decline from 86⅜ to 84⅝, closed at 85½; the total business done in the stock was only 19,425 shares. The statement of the earnings of the Northwestern Company for the last week in May, which shows a decline from the week of 1883 of $109,500, was partly the cause of the weakness in that stock; it declined from 99½ to 97¾ and ended at 98. St. Paul, however, was equally weak, and declined from 72½ to 70¾@71⅛. Burlington and Quincy and Rock Island were soft, with little pressure to sell. Among the coal stocks, Delaware, Lackawanna and Western again sold below par (99¼) and ended at 100, and Reading declined from 23½ to 22¾@23. Central of New-Jersey sold down from 58 to 56¼@56½. Among the trunk lines Central and Hudson was conspicuously weak; it rose to 104¼ and then sold at 102¾@103½@103⅛. Union Pacific at 42⅞ shows a rally of ½ from its lowest price, but still is 1⅝ lower than last evening. Western Union declined from 60⅞ to 59½@59¾, despite the report that the quarterly dividend to be declared to-morrow will be the usual 1¾ per cent, and that the statement to be issued will be a favorable exhibit. The market closed feverish and unsettled.

Government bonds were dull; the bids for the 3s were ¼ higher, but the other gold issues were weak and bids were off ¼ for the 4s and ½ for the 4½s. Annexed are the closing quotations:

	Bid.	Asked.		Bid.	Asked.
U.S. 6's 1881, reg.	110¼	110¾	U.S. cur. 6's, 1896	125	....

U.S. 4s 1907, reg.	113½	114	U.S. cur. 6's 1898	129	....
U.S. 4s 1907, coup.	113½	114	U.S. cur. 6's 1899	131	....
U.S. 3 per cents	100¼	100¾	Dist. Col. 3-65s	....	112
U.S. cur. 6's 1895	123	.....			

The business in State bonds was confined to sales of Tennessee 6s at 38½@38⅛. There was no business in city bank stocks.

The market for railroad bonds was dull and prices almost universally were lower. West Shore and Buffalo 5s, however, were an exception; after a decline of ¼ to 39 they rose to and closed at 41⅛. Erie second consols were sold in liberal amounts at from 55½ down to 54⅛@54½, and at 53 seller 60 days. Rome, Watertown and Ogdensburg 5s were off 1 per cent at 69. Chesapeake and Ohio firsts, series B, were down 1 per cent at 91, and the currency 6s declined from 37½ to 33@34. Missouri, Kansas and Texas first consols were off ½ at 104. Central of New-Jersey consols declined to 103, and Lehigh and Wilkesbarre consols were off 1¼ to 94. East Tennessee, Virginia and Georgia consols again were weak, and sold down to 50¼, against 54 yesterday. Louisville and Nashville general 6s were 2 per cent lower at 80. Missouri Pacific consols further declined to 97¼. Northwestern debenture 5s were down 1¾ at 91¾, and Burlington and Quincy debenture 5s were off ⅜ at 92⅝. Denver and Rio Grande consols declined 4¾ to 46, and the firsts, Western extension, were 8 per cent lower at 38. Texas and Pacific incomes declined ½ to 40, and firsts, Rio Grande division, fell from 49 to 44½. Northern Pacific firsts, after 103, were steady at 103⅜. New-Orleans and Pacific firsts declined to 59.

The Sub-Treasury to-day lost on balance $139,961, made up by a coin loss of $261,096, less a currency gain of $121,136. The day's operations covered: Receipts, $1,513,575; payments, $1,653,536; currency balance, $9,922,837; coin balance, $127,672,597.

The general rate for money on call was 2@3 per cent; it did loan at 4 per cent and the closing rate was 2 per cent.

The Clearing House statement to-day was as follows: Exchanges, $80,937,087; balances, $4,070,005.

The United States Treasury at Washington to-day received $559,000 National bank notes for redemption. The customs receipts were $751,238, and the internal revenue receipts $148,864.

The foreign exchanges, while dull, are hardening, but there is no change in quotations, which for business are as follows: Bankers' bills, $4 84¼ and $4 86¾ for long and short sterling respectively; 5.19⅝ and 5.17⅛ for francs; 94⅜ and 94⅞ for reichmarks; 40 and 40⅛ for guilders.

In London British consols opened 1-16@⅛ higher, but later reacted and closed at 99 13-16 for money and 99 15-16 for account. United States bonds were weak; the 4s were off ⅞ at 122¾ and the 4½s were ¼ lower at 113¾. There was no feature in the market for American railways beyond the fact that it, as usual, followed yesterday's home market and therefore was lower. Bar silver was 1-16d. higher at 50 15-16d. per ounce. At Paris French 3 per cents declined to 79.22½, and sight exchange on London ruled at 25.21½ francs to the £. The weekly statement of the Imperial Bank of Germany shows a specie gain of 742,000 marks.
