We are authorized to announce Walton E. Moss as a candidate for Magistrate in the first district of Garrard County, subject to the action of the democratic party.

Do Justice To Your County Paper.

Are you pleased with the Record? If you are, tell your neighbors, If you are not, then tell us, and we will if it be within the bounds of reason, correct any errors or remedy any discrepancies which you may point out to us.

The Record is published for the benefit of Lancaster and Garrard county people, whose patronage we seek, and whom we are earnestly striving to please. We sometimes hear of some person saying "there is nothing in that paper, we can read it through in two minutes." Now we are well aware of the fact that one rain does not make a harvest, neither does the opinion of one person make or mar a newspaper, but we would rather have those persons who are wont to pass such criticism to pause and consider a moment before making such a remark. Do you read our editorial colum, first colum, second page, we always strive to put something interesting there, and a perusal of that column alone will consume more than two minutes: or perhaps it is the personal column to which you allude. Did we inadvertently over look the last trip you made shopping to a neighboring city, perhaps our society editor was not cognizant of your journey, but had you telephoned us, we would have gladly made mention of the fact. We consider it our duty and are always glad to publish the coming, and goings of you and your neighbors and of any visitors you may have, and if mention is not made, it is your own fault, for it would be but the work of a moment to apprise us of any little personal by phone. Or mayhap it is the space allotted to our advertisers which you overlooked, Do you ever glance at the advertisements in your home paper? Perhaps a closer scrutiny of these features would save you one of those little shopping trips you take to a neighboring city, or perhaps save you the cost of a money order to some mail order house. Try it once any way, it might benefit you.

Every Democratic voter should remember that he casts a vote this year that will not only elect a Governor, but will make possible the election of a Democratic President. Judge O'Rear is vainly trying to keep these national questions out of the campaign, but the voters themselves want them answered, and it will not do for the Republican leader to say that he has not had time to inform himself abont reduction of the tariff, and the adoption of the farmers free list bill, both of which measures President Taft vetoed. The Republicans are split into fragments in every State, while the Democrats have won repeated victories by standing shoulder to shoulder. We will not only redeem Kentucky this year, but we will lay the foundation for success in the nation next year.

Judge O'Rear will not permit a discussion of the issues that have been raised by an incompetent extravagant Republican State administration, because he does not want the minds of the voters to dwell on these disturbing questions.

The Republican platform endorsed Taft, and it endorsed Willson. O'Rear dominated that Convention. He could have repudiated both these administrations, but he chose to support their every act, and if he has half the courage, honesty and sincerity which he boasts of having, he will continue that support in his public speeches.

R. Leduc who has oppose Premier Sir Wilford Laurier for his seat as Premier of the Government and leader of the Liberal party has withdrawn and this leaves the grand old man without opposition, to return to his seat as representative from Quebec, in which capacity he has served for thirty three years. Sir Wilfred's victory is considered a victory for reciprocity, and bets of two to one with no takers are being freely offered in Canada that the treaty will be ratified by that government.

At Somerset Saturday a Lincoln county jury, summoned from that county because one was not obtainable in Pulaski, found James Ellis guilty of the murder of Esquire Beattie at Burnside, Ky. sometime ago and fixed his punishment at death. This will be the first legal execution in Pulaski county in thirty years. Ellis together with Fount Helton is charged with the murder of Esquire Beattie and his constable Health in the former's court room at Burnside. Helton's trial is now in progress.

At the state fair at Syracuse N. Y. Saturday a racing car driven by Lee Oldfield, a brother of Barney Oldfield, became unmanageable because of the dampness of the track and dashed into the crowd killing six people outright and seriously injuring fourteen others. Oldfield was dangerously injured. President Taft who was the guest of honor at the fair that day had left the track but a few minutes previous to the accident.

The severe arraignment by C. T. Crane of the educatioal institutions of the country is already bearing fruit. At South Bend Ind. the faculty of Notre Dame have forbidden the smoking of cigarettes by the students, say the habit will be no longer tolerated. Wonder how many parents who patronize this school knew that such a habit has ever been tolerated there.

To date Governor Willson has only been absent 269 days from his post of duty. He has drawn from the treasury for that period of idleness $4,786.20. his salary being $17.80 per day, and for doing his work Lieutenants Governor Cox has drawn the same amount. This is the wastefulness and neglect which Judge O'Rear's platform tells the voters is altogether praise-worthy.

Governor Wilson's Republican Board of Equalization has in the last two years, added more than $1,380,000.00 to the burden of the peoples taxes. The platform upon which Judge O'Rear is running endorses every act of Willson's administration, so, of course, this spoliation of the property of the tax-payers is approved.

Hon. Thomas Henry Carter, one time member of the United States Senate, ex-Chairman of the Republican National Committee and a noted figure in the political life of the nation, is dead at his home in Montana of lung trouble. Mr Carter was 57 years of age and was born in Ohio.

Statistics from Washington show the United States to be gainer in her exchange of commerce with the world; during the first eight months of the year 1911, her exports alone exceeding those for the same pesiod of last year by $1,250.000.

A Dreadful Sight.

to H. J. Barnum, of Freeville, N. Y., was the fever sore that had plagued his life for years in spite of many remedies he tried. At last he used Bucklen's Arnica Salve and wrote: "it has entirely healed with scarcely a scar left." Heals Burns, Boils, Eczema, Cuts, Bruises, Swellings, Corns and Piles like magic, Only 25c at R. E. McRoberts & Son. 1-m

Improving The City Streets.

The county machinery is busily engaged in repairing Richmond street from the public aquare to the railroad crossing. When this is done there will be a modern boulevard for a distance of about four miles in the direction of Point Leavell, and in the near future this will be extended to the Madison county line at Paint Lick.

Wallace.

Mrs. Wallace, wife of Mr. Newton Wallace who lives at the work house property and is employed by the county died at eight o'clock Tuesday evening.

Mrs. Wallace has been ill for some time of intermittent fever, but was thought to be much better until Tuesday afternoon when she grew rapidly worse until the end came. Heart failure was the immediate cause of her death. Mrs. Wallace was 35 years of age and had made many friends since moving to Lahcaster two yeras ago. She is survived by her husband and two small children. Her remains were taken to her old home in Jessamine county for interment.

Post Card Shower.

On my 88th. Birthday I was made to feel with the poet "While friends abide and the sunbeams fall, there is something pleasant in life for all"—When a shower of almost two hundred post cards with other reminders came to me. Some from friends of the daya of "Auld Lang Syne," others from friends of the present, and relatives far and near.

My heart was made to rejoice and be glad; to overflow with love for all-and

"As you come to your birthday mile post.
May it point down a sunlit way,
With friendship sweet to guide your feet
Toward the Land of the Perfect Day."

John K. West.

Died.

On the morning of the 13th with the breaking of dawn the soul of little Joseph Thompson Leavell, the nine months old son of Mr. and Mrs. W. K. Leavell, took its flight. The little fellow had never been strong and many times during the last few weeks the little life had been despaired of, but each time he rallied and again made a struggle for life, but notwithstanding the careful attention of physician and friends and the loving care of the parents, who hoped against hope that the little one might be spared to them, he finally succumbed After short services at the grave by Rev. C. C. Brown, the remains were laid at rest in the Lancaster cemetary at 10:30 o'clock Wednesday morning.

Robinson Reunion.

A reunion of the immediate family and relatives of the late Benjamin F. Robinson, who resided for years near Camp Dick Robinson, in Garrard county was held last week at the club house on Dix River. Forty relatives gathered at the beautiful spot and to say the day was a delightful and happy one but mildly expresses the event. The Robinson family is one of the most prominent and popular in Central Kentucky—Every member being possessed of that bigheartedness, sociability and honorable bearing so characteristic of Col. Robinson. He was, in his prime, unquestionably, the best known stock man in this section, and distributed many a thousand dollars among the farmers. He was a true friend, an honorable gentleman and good citizen, and his name will long linger with those who knew him. A sumptuous dinner was served.—Danville Messenger.

Quit It Boys.

Imagine yourself a stranger in a strange city, entering with a young lady a place of public entertainment, and your advent being made the occasion of clapping of hands, stamping of feet, whistling cat calls, etc. Would you not feel embarrassed? This is the experience of nearly everyone who visits the Lancaster opera house, home people as well as strangers, and a bashful youth accompanying his first sweetheart is made the particular butt for these jokes. (?) These occurences are not new in Lancaster, they have been in vogue for years, and it is time a stop was put to the practises. It is the height of rudeness, annoying, ungentlemanly and wholly uncalled for.

The principal pertretrators are boys of an age that do such things unthoughtedly, but we are sorry to note that the rudeness is participated in by some who should know better, who have reached maturer years. Let us have an end of such practises.

The Sick

Mr. Coleman Gulley is confined to his home on Richmond street with an attact of stomach trouble. His condition is considereably improved and it is to be hoped that he will be able to resume business within a few days.

The bright little son of Mr. William Watkins who resides on the Danville pike near town is seriously ill of typhoid fever. The little fellow is well known in town having apent much of his time recently with Mrs. J. I. Hamilton, and his many friends hope he will come through this attact of fever.

One of the little sons of Mr. and Mrs Adam Kelly has been very ill the past week with what was at first thought to be typhoid fever, luckily however, this proved not to be the case and he is now on the way to recovery.

Mrs. Ben King who has been seriously sick at the home of her sister Mrs. Dr. Burnett is sufficiently recovered to be able to sit up and her entire recovery is but a matter of a short time.

Mrs. Sallie Lawson who was reported as being ill last week is considerably improved.

A NEW AND MUCH NEEDED ENTERPRISE To Be Established In Lancaster By One Of Our Successful Business Men.

Mr. Henly V. Bastin is organizing a stock company for the purpose of establishing an ice plant in Lancaster. The plant is to be placed on the property now occupied by the Creamery, and the water for the manufacture of the ice can be obtained in amply sufficient quantities, according to Mr. Bastin, from the old Herring spring, which adjoins the property in view.

Mr. Bastin's idea is to incorporate for the sum of $15,000. Of this amount $5,000 is to be common stock which Mr. Bastin takes in return for the Creamery property, the land surrounding it and two acres more land upon which the above named spring is situated; the remaining $10,000 is to be preferred stock and is to be placed upon the market at a par value of $100. per share, several shares already having been disposed of at the market price. No profit is to accrue to this common stock until the preferred stock is upon a basis where it will net a dividend of 7 per cent annually, in other words, Mr. Bastin does not stand to reap any profit from his enterprise until after the corporation having paid taxes & c, his preferred stockholders are drawing an annual dividend of 7 per cent.

Mr. Bastin says that with the latest improved machinery it does not require near so much water for the manufacture of ice as has heretofore been necessary with the old style machinery, and that the spring which he proposes to utilize will furnish an ample supply of water the year round to keep the ice plant in operation. Mr. Bastin proposes to erect a plant with a capacity of 10 tons of ice per day, and in addition to this he proposes to operate an ice cream factory in conjunction with the ice plant with a capacity of 200 gallons of cream daily.

An ice plant has been a long felt want in Lancaster, and it is greatly to the credit of Mr. Bastin that he has taken the initial steps toward the erection of one. The surplus of an ice plant at this place would find ready sale, as the ice plants in this section of the state have been unequal to the task of supplying this as well as other communities with a sufficient amount of ice during the heated season, the scarcity at times amounting to almost a famine.

The success of the enterprise is assured almost from the start. Mr. Bastin has upon several occasions proven his aptitude for just such enterprises as this one; in the first place he is thoroughly acquainted with all classes of modern machinery, had made them a study; he took the Lancaster Creamery when it was shut down, because it was said not to be a paying proposition, placed it in running order and made a success of it, as many farmers of the county will bear witness. To this he has added a modern ice cream factory, supplying the soda founts of Lancaster and the entire town and county with all the cream used during the year, besides shipping his cream to many Kentucky towns and establishing for it an enviable reputution, so that he has now reached the point that he is unable to supply the demand.

We believe that Mr. Bastin will be equally as successful with an ice plant as he has been with the creamery and ice cream factory, and that he will succeed in solving the theory of supplying Lancaster with a bountiful supply of pure ice, and at the same time reap a nice profit for himself and his associates in the proposed enterprise.

FARMS FOR SALE
In
Garrard County Ky
By
HUGHES & SWINEBROAD
LANCASTER KENTUCKY.
