Keg of Pennies is Exchanged for $500 Loan in Bonds

Three years ago J. P. White sides, who sells newspapers at Edwardsville, Ill., decided he would save all the pennies he received. He accumulated a keg of the coins, which he kept in a cellar.

Last week he took the keg to a bank and exchanged the pennies for $500 worth of Liberty Bonds.

SUCCESS OF LOAN VITAL TO U. S., DECLARES M'ADOO

Failure of the present or any subsequent issue of bonds during the war with Germany would impair the credit of this country, with disastrous results, is the warning being voiced by Secretary of the Treasury McAdoo in his speaking tour of the country in the interest of the Second Liberty Loan.

"If the credit of the United States is undermined," the Secretary declares, "what is property worth to the rich man, what is life worth to the free man?"

U. S. RAILROADS ARE BUYING BONDS LIBERALLY

The railroads of the country are doing their part in response to the patriotic appeal to the public as made Eight Million strong the Second Liberty Loan.

The Chicago & Northwestern Railroad announces it will subscribe for $1,000,000 of the issue. Two million dollars worth is to be purchased by the Chicago, Milwaukee & St. Paul Railroad.

Announcement is made by the board of directors of the Pennsylvania Railroad that the company will subscribe to $1,000,000 of the issue. This subscription is in addition to the subscriptions of the employees.

A subscription of $500,000 for the Tenth Federal Reserve District, with headquarters at Kansas City, is announced by the Chicago, Burlington & Quincy.

FIRM'S SALESMEN SPEND DAY SELLING LIBERTY BONDS

Clarkson Porter, chairman of the Hurlburt Adding Machine Company, devoted his own time and that of his salesmen throughout the country one whole day to the sale of Liberty Bonds.

As a result of their campaign in St. Louis they received 102 subscriptions.

THIS IS *YOUR* WAR

By ORIN R. COILE

This is *your* war. There can be doubt about that. It is as much *your* war as if Germany had invaded the United States and attacked you and yours.

As a matter of fact Germany has invaded the United States. Germany has blown up munition factories and railroads and bridges in an effort to stop the exportation of supplies and munitions to the Allies.

You are a civilized being and Germany has attacked and raped civilization. Germany has crucified Belgium and Belgium is a part of civilization—a noble part.

So, it is just as much *your* war as it is England's war, or France's or Russia's. It is even more your war than it is any one of these nations for the reason that the United States, of which you are a part, stands for the best in civilization and the highest in democracy.

Countless mothers have sent their sons to France to fight for *you;* countless wives have given up their husbands that you might be protected, that democracy might live.

What are *you* going to do about that? Are *you* going to stand idly by while these men fight? They are giving up everything that is dear to them. What are you giving up? The least you can do in the name of civilization and humanity and justice, the least you can do for your God and for those who are near and dear to you is to back up the boys in the trenches, back up the Government itself, back up President Wilson, who is giving his best for *you*, just as our soldiers are perhaps giving their life-blood—the least you can do is to back up all of these men and all of these influences by lending *your* money to the Government by purchasing Liberty Bonds.

Not to-morrow and *not next day*, not a *week* from now, but *NOW*. This is the time for *you* to show your patriotism; this is the time for *you to show that there is red blood in your veins;* this is the time for *you* to speak out against the German government's ravage of civilization and humanity.

Man, Man, this is *your war* and this is *your hour* to act.

WHOLE PALACE HOUSE OVER 1,000 MILES

Los Angeles, Oct. 29.—It is not an uncommon sight to encounter a house taken down in the middle of a town and in the process of being transported to a new location, some distance away. Yet it is seldom that a house is taken to pieces, the pieces transported more than one thousand eight hundred and fifty miles and then put together again. This is exactly what has happened, however, with the residence of J. E. Shorer of this city. The Shorer family recently decided to make its home hereafter in Edmonton, Can., and for some reason not generally known to the public they took their home with them. A corps of workmen was engaged, the house taken down piece by piece, each carefully marked and done up in neat bundles and loaded upon a magnificent for transportation to Vancouver, and thence by rail to Edmonton. It will not be long, therefore, until an American frame house, built of American lumber from floor to shingles, appears in a Canadian city as the residence of the Shorer family.

GOVERNMENT TO GET LEATHER FROM SHARKS

New London, Conn., Oct. 29.—A contract for 1,666 shark hooks, 700 to be completed in ten days and 700 in twenty days after the first enlargement, has been awarded by the Government to J. W. Fordham, a blacksmith, of this vicinity.

There are to be three varieties of hook, eleven, ten and nine inches in length. A chain and swivel are to be attached to each hook.

It is reported from a Washington correspondent that the Government is about to prospect in a new leather field, that of shark skins. In a series of tests a durable and satisfactory leather has been evolved from the skins of these fish. It is believed there is no reason why an industry may not be profitably started.

FEEDING SOLDIERS IN CAMP ENORMOUS TASK

Chicago, Oct. 29.—Soldiers in training at the sixteen national army cantonments in the United States require approximately 2,500 carloads of food daily, according to statistics given out here by the Railroad War Board. It is estimated that at least five pounds of food is needed each day for each of the 1,000,000 men now training for the national army and national guard divisions.

Railroad executives are giving close attention to the transportation problem presented by the task of moving this great quantity of foodstuffs.

The task involves the supplying of all the necessities of life for sixteen nonproductive cities of a population of 45,000 each and fifty-six smaller cities ranging in population from 700 to 2,000.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes:

"From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain. . .

"It has now been two years since I took Cardui, and I am still in good health. . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.
