Hopkinsville Kentuckian.

CHAS. M. McCHAM, ... Editor

TUESDAY, MAY 28, 1889.

HOPKINSVILLE, KENTUCKY.

A live and growing city of 8,000 inhabitants, situated in a county of 10,000. The Louisville and Nashville has two lines of railroad in the county and the people have recently voted aid to two new roads. Largest tobacco growing county in the world. Wheat, corn, hay coal, live stock and fruits produced for export in large quantities. The city has four banks with an aggregate capital of $450,000. A planing mill and wagon factory, three carriage factories, lime factory, tobacco manufactory, two foundries, three brickyards, broom factory, steam laundry, ice factory, two large flouring mills in the city and several in the county. Splendid driving par [and fine opera house. Five turnpikes centering in Hopkinsville. Building and Loan Association, Commercial Club, a telephone exchange, numbered streets and houses and city lighted by gas Macadamized streets and brick sidewalks all over the city. Eleven churches, two colleges, a high school and the finest system of public schools, white and colored, in the State. Western Kentucky Lunatic Asylum with a population of 650, two miles east of the city. A $100,000 court house with town clock in the dome A fine fire department and a company of State Guards. Little River furnishes an adequate supply of water for all purposes Real estate low and rents cheap. Fine opening for woolen mill, pork packing establishment, fruit cannery, tanyard and many other enterprises.

Climate mild and invigorating and exceedingly healthful.

The Democratic Committee will meet on Monday, June 10th to take action in the legislative race.

A serious riot occurred at Guthrie, Oklahoma, last week over a dispute between two claimants for the same lot.

The Pope has named seven new Cardinals. They are all foreigners with names an Englishman can't pronounce.

Queen Victoria celebrated her 70th birthday on the 24th of May. She has been Queen of England for 51 years.

Mr. T. O. Chisholm, late of the Franklin *Favorite*, has succeeded Mr. Vasco D. Brown as editor of the Adairville *Times*.

The Ohio Valley Railroad has completed its line to Evansville and removed its headquarters from Henderson to that place.

The St. Thomas Orphans' Asylum at Bardstown was recently burned and eighty orphans made homeless The children have been taken to Louisville and an effort will be made to rebuild.

Mr. W. S. Sterrett, who formerly published a paper at Central City, has started a new paper at Whitesville, which he has given the novel but rather well chosen name, the *Kentucky Colonel*.

A paper endorsing the candidacy of Mr. F. B. Richardson, signed by his neighbors, is published in to-day's paper. Mr. Richardson is the only Democratic candidate for the nomination so far announced.

In a card published in this issue, Mr. F. M. Pierce declines to be a Democratic candidate for the Legislature. Mr. Pierce is one of the best and most substantial citizens of the county and would have been a strong candidate if he had consented to enter the race.

The Republicans are still casting around trying to settle upon a suitable candidate for the Legislature. One wing of the party is said to favor Esq. H. B. Clark while the other prefers Esq. T. C. Tinsley or Mr. J. M. Starling. The nomination will not be made until July 1.

Wm. Kemmler a murderer, will be the first person to be executed by electricity in New York or the United States. He will be put to death "during the week beginning June 24," the exact time being kept a secret from him, under the new law of the State.

Laura Bridgeman, deaf, dumb and blind from 2 years of age, made widely famous by Charles Dickens in his American Notes, also by many public references to her wonderful intelligence, died Friday at the South Boston Asylum, where she has long dwelt, aged 60.

The Democrats had better look Sharp. The Republicans are threatening to make the Treasurer's contest so hot they can't Barret. In such an event, however, the Prohibitionists would doubtless remove the Cobb stopper from their jug of cold water and cool off things a little.

The Morganfield *Sun* says R. Y Thomas, Jr., will recover from his wound received in the Caseyville affair and that his leg will be saved. A warrant has been issued and as soon as his leg is well enough the examining trial will be held. Public sentiment is pretty equally divided on the subject.

Scribner's Magazine for June marks the beginning of a new enterprise not less notable than the Railway Series commenced a year ago. It is the series of popular articles on The Practical Applications of Electricity, a subject which has become of chief importance in the scientific, commercial, and industrial worlds. The opening article, by Professor C. F. Brackett, of Princeton, is entitled "Electricity in the Service of Man." It is an introductory paper which sets forth, in a clear and precise way, some of the common methods by which the more important electrical phenomena are produced, the laws which they reveal, and the principles involved in measuring electrical quantities such as the Volt, Ampere, and Ohm—terms which have lately come into general use, though not popularly understood.

NOTES AND INCIDENTS.

Ice water was provided in abundance.

The usual number of agents and drummers worked the crowd.

The dust was terrific and many a suit of new clothes was ruined.

The Indian medicine company was on hand and gave an entertainment.

The crowd dispersed about 2:30 o'clock and about 4 a heavy rain fell

Every department was in the hands of a competent committee and everything was done in order.

The ladies were out in force from all the surrounding country. Several hack loads of pretty girls were there from Hopkinsville and Cadiz

A number of little girls circulated through the crowd taking up a collection to repair the floor of the church, which broke through the night before.

There was enough dinner for all, but the way it was devoured by some of the professional eaters was disgusting to refined tastes. One man began his meal on pie and helped himself to a whole stack, plate and all, which he dispatched with a fork, leaving a hollow rim of crust five inches high. Another fellow was caught making for the outskirts of the crowd with a whole leg of mutton. If these gatherings are to continue in the future, the public dinners should be abolished. Private tables could be spread for invited guests and a lunch stand provided where those not having friends present could buy something to eat. This would be a much better plan than for the grangers to go to heavy expense to prepare dinner for a mob to gormandize and trample under foot. It is to be hoped some plan will be adopted to shut out the chronic glutton at the next sale.

$100 REWARD. $100.

The readers of the KENTUCKIAN will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucus surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength, by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address,

Wharton Re-nominated.

The delegate convention at Cadiz Saturday to nominate a Democratic candidate for the legislature in Trigg, re-nominated Hon. Wm. Wharton on the third ballot. There were three other candidates, Messrs. Thos. Boyd, Wm. Campbell and Sam'l Larkins. The convention was harmonious and the nomination accepted by the defeated candidates with becoming grace.

The Tyler-Staton Muddle.

The Clarksville muddle has been temporarily settled. The Supreme court granted a writ of supersedeas and C. W. Staton was released from jail and the question of contempt against Staton will be heard at Nashville next Spring. John Staton, who refused to surrender the jail keys, was tried before a justice and held over on a bond of $250 till the next term of Criminal court. In the meantime the *casus belli*, the prisoner Vanvaver, is still in jail.

Nominee Jack Barrett should hurry home and explain his part in the nefarious scheme to cover up Dick Tate's rascalities. He was one of the three commissioners appointed by Gov. Buckner for the express purpose of turning a fierce light on the vacant throne. Why didn't he do it? Arise, Jack-o-My-Lantern, snuff the waning moon.—Louisville *Times.*

"Bright's Disease has no symptoms of its own," says Dr. Roberts of the University of New York City. Additional proof why Warner's Safe Cure cures so many disorders which are only symptoms of kidney disease.
