FRIDAY, August 1—P. M.

The stock speculation to-day opened tamely with a general depression from last evening's closing figures. But that condition was not permitted to continue for any length of time. A renewed upward movement was not long delayed, in which Union Pacific, Western Union, Lake Shore and St. Paul were the conspicuous figure-heads, because they (as well as North western) sold up to higher figures than were reached in yesterday's market, which was not the case with the general market. The day's business amounted only to 384,400 shares, against 583,719 shares for yesterday's business. The only outside influence that affected the market was derived from the much-talked-about abundance of this year's crops, of which there now is little reason to question the result. The crops are now so well assured that an abundance should be an important factor in the reasoning of any one upon the value of railway securities, and be put in the balance against the continued depression in general business, which as yet has reflected no results from this year's products of the soil. Accepting large crops as assured, and as an important factor, each speculator or investor is in a position to draw his own conclusions of results, and to govern his operations accordingly. In to-day's operations St. Paul resumed its old place as leader and contributed nearly one quarter of the whole day's business; it sold up from 85½@84¾ to 87¼ and closed at 85⅝. Union Pacific holds second place in amount of sales, and from 45¾ (46½ last evening) it rose to 48¼ and closed at 46½. Lake Shore opened off ½ at 86½, and after 86⅝ rapidly advanced to 88⅝; it later sold at 86@86¾. Western Union was exceptional in opening strong at 61½@61⅝, it rose to 62⅝ and closed at 61¾, which shows a final gain of ¾ per cent. Missouri Pacific opened at its highest figure, 95⅝@95⅞, and steadily declined to 94¼@94⅝. Delaware, Lackawanna and Western, with small transactions, fluctuated between 113¾ and 115½, and closed at 114⅝—or ¾ lower than last evening. Pacific Mail was a special feature in the dealings; it opened up ¾ per cent at 46¾, and after selling at 46½ it rose to 48½ and ended at 47¼. Speculatively speaking, despite the day's fluctuations and the frequent exhibitions of strength, as shown by figures, the market seems to be so full of stocks that it is choked; but it has had that appearance several times before during the last four weeks advance and has recovered.

Government bonds were quiet with an advance of ⅛ in the bids for the 3s. Annexed are the closing quotations:

The only feature of the State bond market was a demand for North Carolina special taxes, and they sold at 4¼@4; the 6s Chatham R. R. issues sold at 20. Louisiana consols sold at 67, seller thirty days. Of city bank stocks American Exchange sold at 123 and Commerce at 147.

The transactions in railroad bonds generally were limited to small amounts, and were without feature. The speculative kind of bonds fluctuated with the share market—strong in the morning and weak at the close. Erie seconds rose from 62 to 64 and closed at 62½. Missouri Pacific general 6s advanced to 72¾ and ended at 71. Canadas and Ohio firsts, series B, declined ⅛ to 104⅞. Ohio central firsts rose 1½ to 54½. Metropolitan second 6s sold at 99¼@99⅝. West Shore and Buffalo first 5s were up from 109¼ to 109¾. East Tennessee, Virginia and Georgia general 5s were ⅛ off at 50½, and the income were steady at 16½. Missouri Pacific consols were up 1½ to at 104½. Texas consols were steady at 117, and Brazos Pacific and Western division sold at 64¼@64. Wabash general 6s were up ⅜ at 40. Denver and Rio Grande consols were ½ higher at 65 and Rio Grande Western at 32 per cent. Oregon Short Line 6s sold at interest—94 70@70. Texas and Pacific Denver after 40 were unchanged at 33¾, but its land grants advanced were up 1 per cent to 48. Oregon and Transcontinental firsts were up 1½ at 21½. The Wabash, St. Louis and Pacific Railroad Company today defaulted on all its mortgaged income, and the receivers of the company have issued the following circular:

"On the 30 ult. and June 1 coupons were gave notice desiring the bonds of the several trusts connected in the mortgages on which the coupons had ordered the interest paid from the income and profits of the road, the undersigned have been advised that the interest on bonds has been long in arrear and on these bonds. The receivers therefore, have given notice to the holders of such bonds that the coupons will be paid as soon as the current earnings will admit of such payment. Due notice of the time of payment will be given, and in the following order of maturity, viz:

"These coupons are to be paid from the income, profits and other source, available for the receivers, while, since the property has been in their hands have no be sufficient to commence payment of the July coupons, but which, according to the best judgment they can form in the working of the system thus far, will enable them, before the close of August, to commence payment, and before the close of the year to pay all the coupons above designated. To the holders of the bonds on the several roads on which the receivers were not ordered to pay the coupons, we have to state that, under the orders of the court, separate accounts of earnings and expenses are to be kept, in order that payments of interest may be resumed whenever possible, and that if not possible, the accounts at least serve as the basis for an equitable settlement. To that end, under the directions of the court, accomplished and disinterested experts are now preparing a report to be used as the basis for an apportionment of earnings to each separate road comprised in the system upon which interest has not been ordered to be paid."

The business of the Sub-Treasury for the week ended to-day includes receipts of $8,820,108, and payments of $8,370,059, leaving the general balance at $132,921,479, against $131,162,430 July 25, showing an apparent gain of $1,759,049. But deducting from the payments $1,126,644 and from the receipts $3,930,000 for certain items of transfers which only affect the Sub-Treasury's account with the General Treasury, its true loss, as affecting the banks, is $444,307. For the week previous the receipts, $3,071,807; payments, $2,026,829; currency balance, $140,146,961; coin balance, $122,774,518. The figures indicate little change in to-morrow's bank statement.

The local money market remains unchanged, and excepting a single loan at 3 per cent, call loans ruled at 1½@2 per cent.

The Clearing House statement to-day was as follows: Exchanges, $80,129,166; balances, $2,748,624.

The Assistant State Treasurer at Washington to-day received $810,000 in National bank notes for redemption. The customs receipts were $635,986, and the internal revenue receipts were $321,589.

Yesterday's reduction in rates for foreign exchange attracted a demand which is reacted upon the rates this morning were promptly advanced. We quote quotations for bankers' sixes as follows: Bankers' bills, $4 81¾ and $4 82¼ for long and short sightings respectively; 4 78¾ and 4 79 for francs; 94¼ and 94½ for reichsmarks; 39⅞ and 40⅛ for guilders.

The cable again to-day gave us no quotations for British consols at the London Stock Exchange. United States bonds come ⅛ higher at 124¼ for 4s and at 116⅛ for 4½s. American railways were irregular, and with the exception of St. Paul, Reading and Lake Shore closed lower than last evening, despite the early morning's advance in the home markets. The Bank of England 1st £233,000 outflow on balance. At Paris there was a recovery from yesterday's China war share that sent 3 per cents down to 77.17½, and they closed at 78. Silver exchange on London ruled at 25.15⅛ francs to the £, which is close to the rate that will draw gold from London.

FLOUR AND MEAL—FLOUR—For State and Western Flour there has been a moderately active demand and a steady market at about former prices. We say about former prices, for there is some irregularity noticed in the minor descriptions. The receipts are still very light and scarcity of old Flours worth a dollar per barrel or more, keeps the market firmly held, source and sustained. All the jobbing trade brands are slow and show a downward tendency. Sales, 14,000 bbls, including 2,000 bbls. City Mill Extra, $4.00@$5.00, quotations, $4.00; $2.25@$3.00, superfine, $2.25, rather an extreme; Common to Fair Extra state $3.20@$3.50, Good to Choice do, $3.60@$3.90; Common to Good Extra, Western, $3.30@$3.75; Good to Choice $4.00@$5.00; Common to Fair Extra Ohio, $3.40@$3.90; Good to Choice do, $3.95@$5.25; Common Extra Minnesota, $3.35@$4.00; Clear, $4.00@$4.75; City Mill Clear, $4.25@$6.00; Straight, $5.25@$6.00; Patent, $5.60@$6.25. Bakers' Extra, $4.75@$5.00; Superfine Winter Extra, $3.25@$3.75; Fine do, $3.00@$3.25; Extra No. 2, $2.50@$2.75; Rye Mixtures, $4.25@$4.50; Graham, $4.75@$5.25. Good to very choice $5.50@$6.00. Patent Winter Wheat Extra, $5.50@$6.00. City Mill Extra for West Indies, $5.50. South America, $5.00@$5.20. Market closing dull.....SOUTHERN FLOUR is fairly active. Sales, 300 bbls. Common to Good Extra at $3.50@$4.50. Good to Choice, $4.60@$6.25.....RYE FLOUR is held for higher prices owing to the scarcity of Rye. Business is necessarily quiet, sales 150 bbls. Super
