FRIDAY, AUG. 8—P. M.

The Stock Exchange market opened weak again this morning on further depression in the London market, and continued sales here for realizations and for the "short" account. In the stock speculation, the shares of Central and Hudson, Lake Shore, Union Pacific and Western Union were specially depressed, while the grangers, while lower, were comparatively well held. After noon time there was a change in the temper of the speculation, and prices advanced rapidly to above opening figures, and the advance was not only sustained but was emphasized in the final transactions. The day's business in stocks amounted to 350,849 shares, against 373,275 shares yesterday, on 't, as usual, St. Paul, Union Pacific and Western Union were the conspicuous features, but Lake Shore, with sal s of 37,542 shares, made the fourth of the active stocks. Central and Hudson, after 105, closed at 106¾, which is 1½ per cent lower than last evening's closing price; but it is almost alone in no showing more or less of a final advance. The market from beginning to end was one that reflected little or no thing more than the kaleidoscopic opinions of professional and local traders; but by figures it closed strong.

Government bonds were in better demand, and the bids for the 4s and 4½s were advanced ¼ per cent. Annexed are the closing quotations:

The business in State bonds was covered by $1,000 Arkansas funded 6s at 10. The activity noted yesterday in Arkansas 7s to the railroads to-day dwindled away to the old routine of nominal quotations that are from 6 to 10 per cent apart. There were no transactions in city bank stocks.

The market for railway bonds was dull. In the morning prices were easier and finally lower, but in the late dealings they sympathized with the improvements in the share market. Erie second consols declined from 59½ to 58½ and closed at 59⅝@60. West Shore and Buffalo 5s went off 1 per cent to 41½ and recovered to 43⅝; the closing quotation was 42¾@43. Chesapeake and Ohio firsts, series B, with small transactions rose to 92. Missouri, Kansas and Texas consols were off ¼ at 102. East Tennessee, Virginia and Georgia consols rose from 58 to 60, but the fundings of 1873 were off ¼ at 17½. New-York Elevated firsts were up ½ at 116, and Metropolitan firsts were 1 per cent higher at 105, and the seconds were up ½ at 93. Missouri Pacific consols were weak at 1½ per cent decline to 93½. Indiana, Bloomington and West'n, eastern division, firsts declined 1 per cent to 79. Wabash general 6s were 1 per cent lower at 44. Denver, Rio Grande and Western firsts were off ½ at 35. Oregon Short Line 6s dropped 5 per cent to 65 and recovered to 70. Texas and Pacific firsts, Rio Grande division, were up 1¾ at 48⅝, and Northern Pacific firsts were steady at 103.

The business of the Sub-Treasury for the week ended to-night includes receipts of $12,973,351, and payments of $10,073,866, leaving the general balance at $135,815,962 against $132,921,479 August 1, showing an apparent gain of $2,894,483. But deducting from the payments $1,469,000 and from the receipts $6,130,000 for certain items of transfers which only affect the Sub-Treasury's account with the General Treasury, its true loss, as affecting the banks, is $1,766,517. To-day's operations covered: Receipts, $5,361,747 (including $4,000,000 legal-tenders from Washington); payments, $2,128,569; currency balance, $13,224,970; coin balance, $122,590,992. To-day's Washington Treasury statement shows a further reduction of $159,810 in the gold reserve to $116,667,917.

The local money market remains easy at about 2 per cent, and from that exceptionally down to 1 per cent for call loans between brokers at the Stock Exchange; but outside the rate is 5½@6 per cent, and loans are not pressing at these rates.

The Clearing House statement to-day was as follows: Exchanges, $78,001,105; balances, $4,210,082.

The United States Treasury at Washington to-day received $409,000 in National bank notes for redemption. The customs receipts were $773,118 and the internal revenue receipts were $297,097.

The foreign exchanges are still dull, but they are firm; some drawers to-day advanced their asking rates, but we leave quotations for business unchanged, as follows: Bankers' bills, $4 82¼ and $4 84¼ for long and short sterling respectively; 5.22 and 5.18⅜ for francs; 94¼ and 94⅞ for reichsmarks; 39⅞ and 40⅛ for guilders.

In London British consols were weak and ¼ lower at 100 5-16 for money; for account the figures were unchanged at 100 7-16. United States 4s declined 3-16 to 123¼, and 4½s were 5-16 lower at 115¼. American railways again were lower, in response to yesterday's further decline in some prices, and the London opening figures were from ⅜ to 1 per cent below the equivalent of yesterday's last home prices. Bar silver was 1-16d lower at 50 13-16d per ounce. The bank of England lost £50,000 bullion on balance. At Paris French 3 per cents further declined to 77.30, and sight exchange on London was stronger at 25.17 francs at the close.

The attention of investors is directed to an advertisement in another column of the Controller of the City of New-York which invites bids for $1,180,000 of the consolidated stock of the city. The offering is of three classes of bonds, all bearing interest at the rate of 3 per cent per annum, which are exempt from city and county taxation. For particulars reference is made to the advertisement.

FLOUR AND MEAL—FLOUR—The demand for State and Western flour was been moderately active. Exporters have been shopping about for bargains and meeting with further concessions of 5@10c, where the necessities of receivers have forced them to sell. The mood of receivers in general is to make a stand against the low bids of exporters, and the market shows some tendency to rally a little. The condition to some such change for the better, however, must be found in an improved Wheat market, and for the present the Wheat market is weak. Advices from the West indicate the millers are paying relatively higher prices for Wheat than are current in New-York. Sales, 11,800 bbls, including 2,100 bbls, City Mill Extra, $4.00@$4.95. Twenty cars of Baltimore stock reached the yards late, the last train of 9 cars not bearing put in an appearance at 12 o'clock. Not many Texans on sale. J. Schamberg had 10 cars of very Fair Indians, and there were a few Colorados in the yards. The bulk of the Native Steers ranged from Common to Fair with a few cars of really Good Bullocks. The dull supply gave sellers control of the market, and buyers paid from ¼@½c advance for Texans and Colorados, while Natives showed an improvement of fully ¼@½c. Trade was brisk but delayed a little by the late stock, and the finish just a little weak.
