

# WHY USE DRUGS?

By DR. H. F. VAN TRUMP

People today are seriously considering the following: "Are the 'Old Schools' of Medicine (Allopathic) right or wrong?"

HOW "NEW-LIFE" IS USED

Long before the so-called "Positive Science of Medicine" was forced upon the public at large there were other forms to cure disease. After many years we have a very positive cure—"Without Medicine"—for Rheumatism, as my Personal Testimonial below will show.

For seven years I was afflicted with Inflammatory Rheumatism in the right knee. I was advised by brother Practitioners to try this and that, but I failed in all. Finally two years ago I bought a New Life Machine and after 60 days' patient trial I was able to walk five blocks without help. Today I am completely cured, and although I paid \$35.00 for my machine, I would not today take \$3,500.00 for it. I am always willing to speak a good word for New Life.

Sincerely,

DR. H. F. VAN TRUMP.

Although the testimony may be of value to some people, yet take the testimony of Mr. A. L. Davenport of this city. He gives the following testimony:

Hamilton-Beach Sales Co., 15 West First South St., Salt Lake City, Utah.

Gentlemen: I have had Rheumatism for one and one-half months and was unable to get out of bed, was absolutely helpless. Was induced to try "TRY-NEW-LIFE" after I had tried everything in the way of medicine and had found no relief whatever, after the first application of your "TRY-NEW-LIFE" I was able to raise my arm and in about ten days was able to dress myself.

I am sixty years old and have lived in this city for the past four years. I can recommend it as the only thing that saved my life.

(Signed) A. L. DAVENPORT,  
No. 1 Chamberlain Court.

—The scientific principle of "Try-New-Life" is very simple. It stimulates a good, healthy circulation of the blood the moment it is applied, which is the natural way of assisting Nature and accomplishing the most satisfactory results.—

—Nature alone can cure; this is the highest law of practical medicine. Nature creates and maintains; she must therefore be able to cure without the use of drugs or medicine.—

—The healing and strength-giving power of Nature is in the blood; it is the blood that heals. No trouble or disease can exist in any part of your body if the good, rich, red blood is sent coursing through your veins.—

—It is the free-flowing circulation of the blood that builds the body of an athlete strong and healthy. "Try-New-Life" stimulates the circulation of the blood the same as exercise, passively exercising all the muscles without fatigue or loss of energy.—

—It is the blood that distributes all the strength and nourishment of your food through your entire body; it is the blood that carries away all the waste matter from your body. Just stop and think how important the circulation of your blood is for good health.—
