OIL NOTES.

THE MARKETS—On Monday last both agencies advanced the price two cents on credit balance, and we had dollar oil for the first time in two years, and remains at that point.

COW RUN—The Derrick of last Saturday said a prominent oil operator came up from Parkersburg, W. Va., to-day and while in the lower Southwest said he had visited the Cow Run sand developement below Williamstown. When asked if their was any excitement down that way, he said that it could be called "Excitement." Why they are paying $75 an acre bonus and quarter royalty and falling over one another to get it at such unwarranted terms. It is inexpensive territory to operate, owing to the shallow depth at which the oil is found. The operator referred to said the leases were cut up into small patches and the wells would be drilled right up against the lines. There is a well now starting within 30 feet of the one completed a few days ago on the Johnson farm. Only those in his opinion, holding leases of some size would make any money in Cow Run sand developement.

It you want a Bicycle or your old one repaired go to White Walter & Co. largest stock in County. Bicycles for hire.

Fellow Citizens:

Now, that the sweet angel of peace has spread her white wings over our fair nation; and the crops were all good and are safely gernered, would it not be a capital idea for us all to celebrate and have a jolly good time—and if that is the general feeling—why not all take in the "Big Butler Fair"—have a county reunion indeed. Every person in this county can find something at the Fair to instruct, interest and entertain them, besides the social part of it—meeting old friends and making new acquaintances, etc., and right in this connection I must say that in no county in Pennsylvania will there be found a fair ground like ours—either in size or pleasantness of location and arrangements, and the order is always or the very best. The races are always good and the track one of the best half-mile tracks in the country.

A CITIZEN,
who has no interest in the fair, except as a citizen of the county.

A Fine Train.

One of the new vestibuled passenger trains lately built for the P. & W., R. R. by the Barney and Smith Car Co. of Dayton, was on exhibition at the P. & W. station, last Sunday, where it was seen by hundreds of our people.

The ends of cars are equipped with wide pattern vestibule, provided with large plate glass observation windows both in ends and doors; the floor and steps are covered with corrugated rubber matting which insures passengers against slipping.

The main features of the cars are, first, the large and commodious smoking room, which is separated from the main room of car by swinging door having large plate glass light, smoking room provided with large beveled edge french plate mirror at each end, gentleman's toilet and handsome marble top wash stands in connection with smoking room. The ladies toilet is at the opposite end of car and separated from main room by bulkheads; toilet is provided with large and handsome wash stands and waiting room having rich upholstered seats. Will Hyde, of near Butler, Pa., an oil well contractor, was blown 50 feet by an explosion at a well at the Elk Run (W. Va.) field. If he recovers he will lose his eyesight and be disfigured. Pittsburg Dispatch.

Andrew Pettigrew, son of R. B. Pettigrew of Washington twp., was struck by a train in Westmoreland county, recently, and was killed. He was a married man, lived in Greensburg and leaves a wife and six children.

Little Johnny Snodgrass, who fell from a swing in the old Roessing woods (not the Purvis swing as stated last week) has recovered from his injuries. The swing he fell from consisted of but a single rope, put up by the boys themselves, with a broomstick for a seat.

Beriah Duncan, constable of Elwood, was shot by mistake last Saturday night.

He and another man went after some tramps that night, and seeing a man ahead of them with a lantern hurried to catch up to him; but the man mistook them for an attacking party, and ran into the house, when they came up to his door and knocked he fired at them through the door and wounded Beriah in the right breast.

The bullet passed through Beriah's right breast, making a dangerous wound.

P. D. Lockwood of Zelienople received a solar-plexis blow from an odd source recently. The News of that town says: "He had just completed a line from their main line on the Mercer road to their well on the Jacob Gelbach farm just north of Harmony, and with the assistance of Wm. Redick, Theo. Anderson and John Float, had connected up the well and put in a dip, and in order to test the latter Mr. Lockwood turned on the gas. The pressure was so great that it blew off the connections and a joint of 5-inch casting. The escaping gas struck Mr. Lockwood in the stomach, throwing him about 12 feet on the derrick floor. In a semi-unconscious condition, he climbed out of the derrick. His employees were at his side in a second and found him in a numb condition, but by rubbing him he partially recovered and was taken to his fathers home at Zelienople and doctors Osborne and Ralston summoned. An examination showed that he was suffering from the concussion and that no bones were broken. He is doing nicely and is now able to be around but walks with a cane. Had any of the pieces of the flying pipe struck Philo it would have meant death, as there was a 700 pound pressure on the well.

The Season at Pittsburg.

The Grand Opera House: Pittsburg, will open its season Monday September 5th 1:30 P. M. It can be said for this theatre that it has a policy distinctively its own. It is the only amusement house in Western Pennsylvania giving continuous performance from 2 P. M. until 11 o'clock introducing a magnificient stock company as well as the leading vaudeville artists of both hemispheres. The theatre will open with Mr. William Gilletts celebrated War drama "Held by the Enemy" It will be a complete production in every detail introducing the dramatic company in its full strength. Of the company itself the management desires to say there will be all the old favorites, and many new faces. Of the old friends it is not necessary to say a word and the new ones have been selected with a full intent of surpassing previous efforts, strengthening with merit each spot where it would seem in the slightest degree wanting, so that now as a whole the organization may be said to equal any stock company in the United States. In fact outside of the Metropolis there is none that can approach it. The organization comprises Mr. James Wilson, Mr. Harrington Reynolds, Mr. Hugh J. Ward, Mr. Beaumont Smith, Mr. A. Garrels, Mr. W. N. Wadsworth, Mr. W. Martin, Miss Lizzie Hudson Collier, Miss Madge Carr Cook, Miss Jessie Izett, Miss Grayce Scott and Miss Alice Butler. Drowning of Peter Gruver.

The tremendous downpour of rain last Thursday evening caused a flood of water to flow down the hillside into the station at Evans City, and when the excursion train from Maple Grove arrived there it was stopped above the station for people to get off and on.

Frank Bovard, of Renfrew, and Peter Gruver, of Evans City, fell into the creek and were carried down under the bridge and below the station, where Bovard was rescued, but Gruver went on down and is supposed to have been drowned.

After the flood subsided a search was made for his body, but it has not been found.

He was a man well up in years and was living with his daughter, Mrs. Philip Nicklas.

The accident came near being followed by a sad sequel. While two men were dragging the mill-dam at Eidenau for the body, Sunday morning, they noticed two young men sitting on the bank, and one of them got out and for a joke, pushed one of the young men into the water. The young man could not swim, the water was deep, and he sank twice before the jokers realized the situation and pulled him out, and took him home, where he was under the doctors care for sometime. His name is Lawrence Markle, and his father entered suit before Esq. Graham of Evans City, against Nelson Watters for the offense, and Watters was held for court, and was released on bail.

"Move Up"

★★★★★

Is a law universal. Evolution is another name for it. The street car conductor says "move up." Competition says "move up." To move anything requires "push." A good pusher requires strength. Our strength is in low prices, reliable goods, and attractive service. We have quite a lot of broken lots of summer wear going at 1-2 price. Test our mutual benefit plan on its merits.

NEIGHBORHOOD NOTES.

—Butler Fair, September 6, 7, 8, 9.

The Allegheny County Teacher's Institute is being held in the Carnegie Music Hall at Schenly Park, this week.

A thunderbolt, yesterday, struck a well-filled Second Ave. Pittsburg street car, killing one man, and injuring several persons.

While a boy was out picking elderberries near McKee's Rocks, in Allegheny county, last Thursday, he ran across the headless body of a man in the woods, and looking up saw the head hanging to a rope.

At Sykes, Clearfield county, recently, Mrs. John Clayton was going downstairs, when her foot slipped. Mrs. Clayton threw out her hand to steady herself, when a ring on one of her fingers caught on a hook in the wall The lady's weight swung on the hand and the finger was pulled from its socket and hung suspended on the hook.
