Rubber Gloves For Dainty Hands.

Some ladies think that as soon as they get married, and start in housekeeping, they have to give up trying to be sweet and pretty and just as charming as possible.

Don't do it! You're making a serious mistake. You can have just as dainty and pretty hands and nails as of yore, if you will wear Rubber Gloves when doing the work which soils the hands.

All sizes, per pair, 75c.

A Paint Education in Three Minutes.

Oil is the life of paint. Dead oil, dead paint; it peels off, washes off, falls off. You have to paint again. You've been there. Well, you have been getting paint with dead oil in it.

Here's reason: Don't get paint with oil in it; almost sure to be dead oil because standing months or years in a sealed can kills oil—See the point. Get paint minus oil. Don't pay paint prices for canned oil. Get the best linseed oil and mix it with Hammar Condensed Paint yourself. Then you know you've got fresh paint. Paint that will stick right, look right, wear right and at the right price.

Men of experience always do this. It saves money and saves work, too. We'll explain paint points at length if you will drop in on us some day—before you paint this season.

We are sole agents for the paint you get without oil—and mix. It is the famous Hammar Condensed Paint. Gallon of paint, gallon of oil. Simple enough. Absolutely fresh and new. Guaranteed for five years. We can show you in two minutes how Hammar Condensed Paint will save you money, at least 25 per cent in cost and 100 per cent in wearing qualities.

Also dealer in Lamps and Chimneys, Roofing and Spouting, Washing Machines, Cream Separators, Gas Mantles Burners and Globe, Stoves, Gas Ranges, Hardware, Cutlery, Sewing Machines and Supplies. All kings of sewing machines repaired.
