MISS HOYT IN COURT AGAIN.

LISTENING QUIETLY TO THE TESTIMONY.

CROSS-EXAMINATION OF THE MICHIGAN WITNESS —GENERAL BUTLER NOT EASILY HEARD.

Miss Mary Irene Hoyt yesterday made her first appearance for many days in the Surrogate's Court, where she is contesting the will of her father. She listened with interest, but without apparent excitement, to the testimony of a witness on the other side of the case. When General Butler resumed the cross-examination of William L. Webber, the "Michigan executor," he took a position close to the witness, and plied him with questions in so low a tone that they were not distinctly audible at the table occupied by the opposing counsel. After a while Mr. Choate said drily: "Will General Butler kindly inform us when some question material to us is asked? We have not heard a word yet." General Butler promised to speak louder. In response to his inquiries the witness stated that Jesse Hoyt, besides his interest in the Flint and Pere Marquette Railroad, was interested in various branch lines in Michigan connected with it, and a large owner of the Mayflower Mills, the street railroad and the omnibus line in East Saginaw; was largely engaged in the lumber business, owning sawmills and planing-mills; was interested in real estate transactions, and the owner of several large farms in Michigan and of three or four hotels. The executor said that his own property in Michigan was largely dependent upon the prosperity of East Saginaw. "If land in East Saginaw should be remitted to agricultural purposes," he said, "it would do me considerable damn ge." The witness said he first noticed Mr. Hoyt's failing health in the fall of 1881 in going up the elevated railroad stairs. Mr. Hoyt, before that, would run up faster than the witness could, but then fell behind. When he last saw him the witness did not believe he would live a year.

General Butler, having been requested to move away from the witness, in order that the questions and answers might be louder, complied, but as he became more interested in the cross-examination, he moved nearer to the witness again. "I'm afraid you're going back on us again," said Mr. Choate, and General Butler again withdrew a little.

The witness declared that up to the time that he last saw Jesse Hoyt there were no indications of any failure in his mental faculties. The witness said he had been with Mr. Hoyt a great deal when in New-York. Mr. Hoyt had frequently spent Sunday afternoons at his hotel, but the witness had not spent Sunday afternoons at Mr. Hoyt's house. He had never said to any one that Mr. Hoyt was not in sound mental condition when he made his will. As to a clause in the will in regard to giving a library to the young people of East Saginaw, the original draft made by the witness did not contain anything about the city's giving a certain amount toward the same object. That originated with Mr. Van Santvoord.

General Butler—How much money would you receive if this will should be established? A.—Not less than $100,000. Perhaps more. Possibly $250,000.

Stephen R. Kirby, civil engineer, was the next witness. He said he had been employed by Jesse Hoyt in building mills, shops, hotels and elevators and in other mechanical work, and related that not long before his death Mr. Hoyt gave him instructions about work to be done in East Saginaw. On June 22, 1882, he had the last interview with him.

The hearing will be continued to-day at 11 a. m.

CRITICISING CONTRADICTORY ALLEGATIONS.

The trial of Mrs. Louisa Schaffer Lafond against William Ernest Ietzkewitz occupied the attention of Justice Donohue and a jury in the Supreme Court yesterday. Mrs. Lafond swore that the allegations in her complaint were true and that the defendant had wrongfully converted her mortgage deed, and Edward C. Allison, to whom she has been recently married, deposed that he had been told by the defendant that he had taken the mortgage deed and that it was in the possession of his brother.

Mr. Ietzkewitz testified in his own behalf, denying that he owed Mrs. Lafond any money. He said that he had discharged his indebtedness to her and had prepared an acknowledgment of indebtedness that he might show it afterward to his creditors in case that they should call on him to give them a lien on his property.

Justice Donohue, after commenting severely upon the contradiction of the allegations of his answer by the defendant on the witness-stand, instructed the jury that if they found that he had by his negligence or intentional act caused a paper representing his indebtedness to her to be lost to her, they were bound to find a verdict for her for the amount which that document represented. Some letters which were not read in court, were given to the jury before they retired. They were in German and had passed between the parties. The jury were long occupied in their perusal and were finally ordered to bring in a sealed verdict this morning.

OWEN GEOGHEGAN'S WILL TO BE CONTESTED.

In the contest over the will of Owen Geoghegan, of malodorous memory, the parties were to appear yesterday before the referee, George W. Lyons, in his office at No. 98 Broadway. Some lively expectation was rife as to what manner of testimony would be offered by those opposing the claim of Mrs. Catherine Geoghegan for a widow's share in the estate, but the proceedings were entirely of a preliminary character. Mrs. Geoghegan was represented by N. J. Waterbury, jr.; Mrs. Hannah McGuley and Mrs. Mary Ryan, sisters of Geoghegan, by William F. Moore, and Sherman W. Knevals, special guardian for the child, by Knevals & Ransom. The taking of testimony will begin next Tuesday.

GRAIN AND PRODUCE MARKETS.

FEATURES OF NEW-YORK DEALINGS.

NEW-YORK, June 9.

The statement of the visible supply of grain in the United States and Canada (east of the Pacific Slope) on last Saturday shows an important gain from the previous week all around. The figures are unusually near to those telegraphed from the Chicago Board of Trade and are as follows: Wheat, 37,234,271 bushels, a gain of 500,512 bushels; corn, 6,407,155 bushels, a gain of 873,178 bushels; oats, 2,816,135 bushels, a gain of 250,545 bushels; total, 46,457,561 bushels, a gain of 1,624,235 bushels.

The early tendency of wheat to-day was downward, the publication of the increase in the visible supply depressing the traders, but the decline was only ½@⅝ cent. It was checked mainly through the reappearance of European matters as an element in the speculation, Gladstone's resignation, coupled with the fall in consols, being interpreted as increasing the chances for some hostile collision between England and Russia. Throughout the day, however, the market did not show full confidence, but after a realizing movement in the afternoon the close was fully steady at a recovery to near the best figures. Corn was in contrast with wheat in that it scored its best gain in the early dealings and had yielded part of it by the end. In both cereals the export purchases showed a slight gain upon the figures of yesterday. The oats market was barren of interest but not pronounced in tone. Provisions were irregular with lard higher.

Final prices for the options were as follows: Wheat—June, 81 01⅜ and July 81 02⅜, a gain of ⅝ cent; August, $1 04⅝, an advance of ½; September, $1 06⅝, a gain of ⅜; October, $1 08¼, a gain of ⅝. Corn—June, 54¼ and July 54⅜, up ½; August 54⅝, up ⅜, and September, 55¼ cents, up ¼ cent. Oats—June, 38⅝, a gain of ⅛; July, 33¾, unchanged; August, 35 cents, a gain of ½ cent.

At New-York, Philadelphia and Boston the receipts of grain to-day were: Wheat, 321,434 bushels; corn, 90,540 bushels; oats, 102,103 bushels; total grain, 514,077 bushels; flour, 33,729 barrels. The receipts at Chicago, Milwaukee and St. Louis were: Wheat, 157,944 bushels; corn, 289,474 bushels; oats, 210,601 bushels; total grain, 658,019 bushels; flour, 19,259 barrels.

THE TRADE IN CHICAGO.

CHICAGO, June 9 (*Special*).—It was a remarkable thing that both Secretary Stone's and Secretary Walker's, of New-York, visible supply figures practically coincided to-day. Both ciphered out an increase in the visible supply of wheat for the week of about 500,000 bushels. It was just as remarkable that with this substantial increase in the visible supply at this time of the year the price should hold as strong as it did this forenoon; July wheat opened at 89⅜ cents, but advanced over a cent a bushel. Forty thousand bushels were reported taken for export at New-York, and lower consols were the only apparent "bull" influences. Pork was again strong, with a good many anxious bidders and holders acting stiff. July pork began at $10 62½ and got up above $10 70. Corn acted strong, too. About the wheat pit, where the largest interest centred, Jones and Ream and Ellis and the Linns were "bulling" with all their might. Ellis is supposed to represent one of the strongest New-York speculating cliques, and it begins to look now as if the combination to "bull" wheat spreads from St. Louis and Chicago even as far as New-York. July went to 91⅜ cents, and at 1 o'clock closed at 90⅝ cents; June stopped at 89⅜c. Over 1,000,000 bushels of July corn were bought to-day, presumably for the account of Lester's old corn syndicate. There was as much talk at the far end of the little oat crowd as in any other; McGeoch, who has been a buyer of June oats for a long time and who had the crowd short of him for upward of 75,000 bushels, unloaded a lot of it to-day. At 10 o'clock the close was July wheat 90⅝c.; July corn 46½c.; June pork $10 60; July lard $6 67½. At 2:30 o'clock the close was 89⅛c. for June wheat, 91c. for July; 47½c. for June corn and 46⅝c. for July; $10 60 for June pork and $10 65 for July; $6 62½ for June lard and $6 67½ for July.

TUESDAY, June 9.—P. M.

To-day's stock market developed nothing of interest to any one who did not participate in it. There was the usual amount of manipulation by the cliques, and perhaps a little more than the usual amount of scalping trading; but that is all there was of a stock market that recorded transactions of 105,015 shares, against 107,515 yesterday. The market was taken in hand at the opening with an evident intention of marking higher prices during the day, and that indication following yesterday's decline encouraged some local trading. Almost universally the first figures showed some improvement on yesterday's last prices, and that in the late dull market has proved to be a correct "steer" for scalpers who are quick-scented for ⅛ and ¼ per cent profits. It was the granger stocks to-day that furnished nearly one-half of the day's business, and on which the sham battle was fought out. St. Paul opened up ⅛ per cent at 65 and went to 65¾. Omaha preferred opened with first bids 1 per cent higher than yesterday's last sales, sold at 67¾ and went to 68½. Northwestern, on the fact that it was to sell ex dividend of 3½ per cent this afternoon, was strong at 93¼@93¾, and the preferred stock early sold at 127. The final prices of these stocks show changes as follows: Advances—St. Paul ⅛ and Omaha preferred 1 per cent; declines—Northwestern ½ and preferred stock 1¾ per cent. Union Pacific, Western Union and Pacific Mail showed some early advances, but nearly all of them were lost in the later dealings; and Delaware, Lackawanna and Western with little business of a legitimate character rose from 100⅛ to 101, but closed at 100¾. We have named the stocks that made up 75 per cent of the day's whole business, and of the remainder after noticing a decline of 2 per cent for Oregon Railway and Navigation, there is nothing to add to the figures for them in our "General List." The market closed weak for those stocks that had been active during the day and without character for the others.

Government bonds were dealt in only to a moderate extent, but the market was strong with the bids advanced ⅛ for the 3s and coupon 4s. Annexed are the closing quotations:

U. S. cur 6s 1895	127½	.....			

State bonds were entirely neglected, and of city bank stocks only Commerce was sold (18) at 151.

Railroad bonds were dull if measured by the amount of sales, but the prices for the speculative kinds fully sympathized with the early better tone of the share market. Erie second consols opened ⅜ higher at 47¼, and sold up to 47½, but they closed at 47. Canada Southern first 5s rose ¾ to 99. New-York, Chicago and St. Louis first 6s early sold at 70—an advance of 1 per cent. West Shore and Buffalo 5s rose from 32¾ to 33½, but ended at 32⅝. Lake Shore second consol 7s sold at 112½@112. Missouri, Kansas and Texas issues with small sales were better; the general 6s rose from 70⅞ to 71⅜@71¾, and the fours from 57¾ to 58¼@58⅝. Louisville and Nashville issues generally were easier; the general 6s at 97, firsts, New-Orleans and Mobile, at 94½, collateral trust at 91, and 10-40s at 76. St. Louis and Iron Mountain 5s were steady at 72¾@73. Oregon Short Line 6s were up ½ at 90¾. Texas and Pacific firsts, Rio Grande division, coupon off, were ¼ off at 49, and Atlantic and Pacific firsts, Western division, were easier at 72@72¾. St. Paul firsts, Pacific and Western, were off ⅛ at 95, and firsts, Wisconsin and Minnesota, were ¼ lower at 97. Northwestern debenture 5s were up ¼ at 99¾, and the new debentures were ⅝ higher at 98. Burlington and Quincy debenture 5s were ¼ lower at 102. Northern Pacific firsts were steady at 104¼@104.

The Sub-Treasury to-day gained on balance $137,223 made up by a coin gain of $136,245 less a currency loss of $239,022. The day's operations covered: Receipts, $1,160,521; payments, $1,062,298; currency balance, $23,810,299; coin balance, $147,305,605.

Money was easier than ever and ruled at ½@1 per cent.

The Clearing House statement to-day was as follows: Exchanges, $83,931,993; balances, $4,399,457.

The United States Treasurer at Washington to-day received $4,77,000 National bank notes for redemption; the customs receipts were $514,454, and the internal revenue receipts were $144,177.

The foreign exchanges were dull and rates were steady at unchanged quotations for business as follows: Bankers' bills, $4 86½ and $4 87½ for long and short sterling respectively; 5.19¼ and 5.18¼ for francs; 94¾ and 95½ for reichsmarks; 40¾ and 40¼ for guilders.

In London the ministerial crisis had a depressing effect on British consols and they declined from 99 11-16 to 99 5-16 for money and 99⅞ for account. The "bearish" effect is shown in a 1-16 lower quotation for account than for money, while the reverse is the usual case in a natural market. United States 4s per cents were ¼ higher at 125½. American securities generally opened lower in sympathy to yesterday's home depression and in some instances made recoveries, responsive to this morning's better tone in the home market. The Bank of England gained £10,000 bullion on balance. At Paris French 3 per cents dropped from 82.15 to 82, and eight exchanges on London was higher at 25.21½ francs to the £. The weekly statement of the Imperial Bank of Germany shows a gain of 480,000 marks in specie.
