Just like Fairbanks. His smile and his biceps both strongly on evidence in this interesting screen play.

## Women Patronize Business .. Houses That Make Them The Best

# PRICES

"It is the women who, in the economic sphere, keep the run of prices, who have the keenest scent for increase cost."—THOMAS B. REED.

Not only have women the keenest scent for increased cost, but they have the keenest scent for the places where they get the most for their money.

This is the real reason why **500,000 thrifty women** daily visit PIGGLY WIGGLY stores.

They know that at PIGGLY WIGGLY they get more for their money than elsewhere.

They know that the stocks are large and that all of the best food products are in arm's reach. They are free from interruption, suggestion or persuasion; no too zealous clerk to persuade them to buy "something just as good," or something they do not need.

The prices, the freedom, the cleanliness, the orderly and convenient arrangements appeals to economical and thoughtful women.

*At PIGGLY WIGGLY You Get Clean Groceries, Fresh Vegetables and Fruits at Lower Prices*
