MONDAY, Oct. 5—P. M.

The beginning of the week is marked by a buoyant temper at the Stock Exchange, that is, so far as the speculation in shares is concerned. The market for other classes of securities opened quiet and was barely steady. A large business (437,336 shares) was done in stocks, seven stocks furnishing 329,200 shares, or 75 per cent. Delaware, Lackawanna and Western, with 113,900 shares, recorded over one-quarter of the total transactions. Almost without exception the first transactions were at figures higher than Saturday's closing, and with the active stocks there generally was a continued advance till long after mid-day. The Northwestern earnings for the fourth week of September were reported early, and showed an increase from 1884 of $64,300 (a decrease from 1883 of $41,000); that stimulated the price of that stock so that it sold up to 102½ against 101⅛ on Saturday. Lake Shore was active at 74¾@76⅛, against 74⅝ on Saturday. Central and Hudson rose 1⅝ to 101. Western Union advanced 1½ to 71½. St. Paul was comparatively quiet (29,100 shares), but it sold up ¾ to 78. Union Pacific at no time made any material advance, because its reported earnings for August showed a decrease in the net of $221,148 from 1884. (The statement is printed below). Delaware, Lackawanna and Western, however, was the feature of the day. Its price was advanced with such vigor from 105⅝ to 109¾ that the "Street" jumped to the conclusion that some large "short" was being "gunned for." In fact, the whole speculation exhibited such marked vigor that the impression became general that there still remained a large unprotected "short" interest in the market, and everybody was asking everybody else whose it was. Some large purchases of Central and Hudson, Lake Shore, Northwestern, and Delaware, Lackawanna and Western by a firm that usually represents the "bull" interest were said to be for the "short" account of a prominent cattle dealer. The market till 2 o'clock was undeniably strong and exhibited a tone of buoyancy seldom surpassed. And it is not reasonable to ascribe it to a continual covering of "shorts." That has an end, and considerable progress toward that end was made last Friday and Saturday. The market, however, has lost none of its local character. Nevertheless, at something less than the best figures and generally at something better than Saturday's last prices, the market closed quiet and steady.

Government bonds were dull and strong with the bids ⅛ per cent higher for the 4s and 4½s. Annexed are the closing quotations:

A fair amount of business was done in Southern State bonds at steady figures; Louisiana stamped 4s sold at 68⅞@68¾, Tennessee 6s at 50½. North Carolina special taxes at 6¼@6, South Carolina 6s non-fundable at 5⅛ and Virginia 6s deferred at 12⅛@12. Of City bank stocks only United States sold (50) at 115.

The business in railway bonds included an unusual number of issues, but it was of a retail character and is fully reported in the list of sales at the head of this column. The speculative kinds sympathized little or not at all with the movements in the share market. Erie and second consols were largely traded in between 71⅞ and 71⅝, and closed at 71½, against 71⅞ on Saturday evening. Central of New-Jersey consols sold at 102½@103 (102¾). Missouri, Kansas and Texas general 6s were ¼ higher at 84½. Chesapeake and Ohio firsts, series B, were off 1 per cent at 66½. Canada Southern seconds declined ½ to 77. St. Louis and Iron Mountain 5s were ½ lower at 80½. Metropolitan firsts were started at about 115, and the seconds rose ⅜ to 106⅝. East Tennessee, Virginia and Georgia consols were up ⅜ at 59@58⅞, and the incomes were firmer at 18. Richmond and Danville firsts rose ½ to 109 and the debentures were up ¾ at 82@84. Louisville and Nashville firsts, New-Orleans and Mobile, were up ¾ at 98½, and the collateral trusts were ¼ higher at 95¼. New-York, Chicago and St. Louis firsts declined from 81¼ to 80⅞@81, and West Shore certificates were barely steady at 44¾. St. Paul firsts, Missouri and Minnesota, rose ½ to 99½. Northwestern debenture 5s were up 1 per cent at 103 and the 25-year debentures were up ¾ at 102¾. Denver and Rio Grande consols were ½ higher at 78 and firsts, Denver Rio Grande and Western rose ¾ to 59. Kansas Pacific consols were barely steady at 98. Atlantic and Pacific firsts, Western division, were from 71¼ to 72¼@72. Northern Pacific firsts rose ⅛ to 107⅛. Oregon Transcontinental firsts sold at 80@79¾. The Sub Treasury to-day lost on balance $151,296, made up by losses of $11,021 currency and $140,276 coin. The day's operations covered: Receipts, $1,199,809; payments, $1,351,105; and resulted in balances of $21,985,111 currency and $152,950,130 coin.

Money was more active and in smaller supply. Call loans ranged from 1 to 3, and closed at 3 per cent.

The Clearing House statement to-day was as follows: Exchanges, $123,187,081; balances, $5,047,122.

The United States Treasury at Washington to-day received $341,000 National bank notes for redemption.

The customs receipts were $718,797, and the internal revenue receipts were $746,991.

The foreign exchanges were dull and easier in tone at quotations for business as follows: Bankers' bills, 84 and $4 86 for long and short sterling respectively; 5.21⅞ and 5.19⅝ for francs; 94¼ and 94½ for reichmarks; 39⅞ and 40 for guilders.

In London British consols opened up 1-16 at 99 15-16, but reacted and closed at 99⅞ for both money and account. United States bonds were not quoted. American railways were all higher after the fashion of Saturday's home markets and further advances in response to our to-day's early quotations, and closed strong. Bar silver was 1-16d. higher at 47¾d. per ounce. The Bank of England gained £33,000 bullion on balance. At Paris French 3 per cents were easier at 80.20@80.22½, and sight exchange on London was off to 25.21 francs to the £.

THE PETROLEUM MARKET.

There was barely a line of news from the oil country yesterday; certainly none of moment to the certificate speculation. A stronger tone attended the market up to the last hour, but the trading was only moderate, and sales were provoked as heretofore by a slight advance. The bulk of the traders prefer to risk the loss of a few cents on a possible advance by waiting till the speculation indicates a more positive tendency than it does at present; at the same time prices resist the pressure of sales with surprising steadiness. The market rose 1⅛ cents from the final of Saturday; the extent of the reaction near the close was only ½ cent. The end was quiet and may be called steady. 216

The range of prices and the total dealings at the Consolidated Exchange were as follows:
