The Greatest Discovery of the Age. All Diseases caused by Microbes!

AND

RADAM'S MICROBE KILLER POSITIVELY KILLS ALL MICROBES IN THE HUMAN SYSTEM.

CAUSES OF DISEASE AS GIVEN BY THE SCIENTIFIC MEN OF THE AGE.

Monsieur Pasteur, who for years has made them a special study, first discovered that these minute insects were the cause of spreading the most deadly contagions through their astonishing rapidity of reproduction. Pasteur discovered them in myraids in human blood, in sheep, rabbits and rats. He found that the Microbe was the direct cause of the Variolosis, or small-pox, Bronchitis, Yellow Fever and other contageous diseases.

The Microbe in the human system attacked by Variolosis, is thread like, cylindrical and somewhat swelled. It is the smallest of all powerful magnified animal organisms. It breeds by the thousand per minute. Pasteur after making a close study of microbe, discovered that the quickest way to exterminate them was by the free inhalation of oxygen gas, or by liquids charged with that gas, but admits that the time must come when some powerful liquid will be discovered that will effectually destroy the microbe, and that the liquid must contain such gaseous combinations as will destroy directly those germs of microbes of disease.

Dr. Maclagan, a prominent member of the Royal College of Physicians and Surgeons says:

The idea that many of the diseases to which man and the lower animals are subject, result from the presence in the system of minute organisms or microbes is not a new one.

The introduction of the microscope, the discovery of the yeast plant, and the further parasitic nature of many cutaneous diseases have proved conclusively that it is directly attributable to the germ or microbe theory of disease.

The theory has positively proven that many diseases are due to the presence and propagation in the system of minute living organisms. It is essentially, therefore, to become thoroughly acquainted with the class, kind,ary competence of the Germs that produce what is now termed the phenomina of disease.

Contageon, infection, is created by absolute experience and scientific experiments and proofs, by the existence of minute organism or microbes. The contagion or microbe being particulate, and the minute particles being irregularly scattered about in the atmosphere, it is evident that the inhalation of one or more of those particles is purely a matter of chance, Yet, such inhalation, no matter how healthy and strong the man or animal thus inhaling it, it will, as a matter of course, be stricken down sooner or later, by the myraids of microbes that will, according to the contagious poisonous matter inhaled, breed into his system. To exterminate those it has been found that liquids strongly impregnated with gases, and alkali have been the most efficacious, and it is but a matter of time when a liquid strongly impregnated with those substances will be discovered that will effectually destroy the microbes or germs of disease.

It is an organic form of such extreme minuteness as to be classified under the head of Micrococci. The microbe is a spheroidal, transparent and of a gelatinous consistence. It enters the human system by inhalation, or exist in the water or milk we drink, or the food we eat. It is able to stand the greatest amount of heat. By the most careful study and frequent experiments, microbe have been inducted by ivory needles, into meats that have been thoroughly roasted and boiled, and yet, when taken from the ovens, pans, grid-irons or pots, the microbes have been found to be yet alive and propagating, thus showing that even cooking has no effect upon them.

Professor Tyndall says of the Microbe: They are found in myriads and countless shapes, floating in the air, destroying man as well as beast and vegetation. The virtual triumphs of the antiseptic systems of surgery is based on the recognition of lying contagia or microbes, as the agent of putrefactiod, and his discovery made, it behooves the closest study of the subject by the physician, surgeon, chemist, agriculturist, in fact, by all men, to endeavor to discover some powerful liquid substance, heavily charged with some so far undiscovered gaseous substance that will penetrate through every tissue of the human, animal or vegetable system and effectually destroy that death dealing pest, the Microbe.

The word microbe was first introduced by Professor Charles Sedillot, and endorsed by the great philologist, Littre, who caused its adaptation by the Academie des Science of France, and thus had it admitted as a scientific term to be used by all scientists.

Science has taught us that the direct causes of contagious diseases are directly attributable to a minute, invisible, yet death dealing insect, feeding, living on the germs of corruption inhaled, absorbed in the system, whether human, animal or vegetable.

It is designated in science as the microbe, the most deadly of all animalculæ, propagating by millions, and spreading disease wherever it makes its appearance. The extermination of that curse to the human race has taxed the ablest scientists, who have devoted hours of study in each and every branch of their different researches to check the frightful inroads by the microbe upon whatever it attacks.

William Radam, a florist and botanist of Austin, Tex., who, from his earliest boyhood, had been brought up to take case of and watch tenderly over the plants, seedings and slips, that were extensively grown in his father's world famed nurseries, having frequently seen many of his favorite plants suddenly droop and die, was the first to make the Microbe his special study, and its extermination the object of his life.

Fortunately for William Radam, he was able to command the means that enabled him to purchase the instruments needed to perfect his experiments, as he patiently advanced in his studies of the microbe. He was not the man to rely merely on book learning, although he closely studied the theories advanced by scientists.

William Radam, after years of patient study and analysis, found the true origin of the germ of disease, and by a secret inspired by Nature's close study, was able to produce what will be read below, as that exterminator of the dreadful scourge, microbe—as recommended by the greatest authorities, on the subject who all admit that to exterminate that pest and scourge requires such a liquid, surcharged with gases, as Wm. Radam's microbe killer.

WORDS OF WARNING---BEWARE OF FRAUDULENT IMITATIONS.

The success of the Radam's Microbe Killer has brought out many worthless imitations. Some of them are positively injurious, and we give this Warning that the public may not be deceived. See that every jug has our TRADE MARK on it; same as above cut. Price $3 per gallon.

TESTIMONIALS.

Now read the testimonials and convince yourself if they are genuine of not. Please investigate. I will forfeit I $1,000 if you find any of our testimonials not genuine. We give full address, so that you can write to any of them. Do not forget to inclose a stamp, and you will certainly receive an answer. We have a great many other testimonials in our office, and have the consent to show them to the afflicted, but have no authority to publish them. From the following testimony you can see at a glance that this medicine cures every disease:

Consumption.

PASADENA, May 13, 1889.

Microbe Killer Co.:

I can recommend Radam's Microbe Killer for the cure of consumption. I have been sick four years, I have employed the best physicians in San Francisco, San Jose, Los Angeles, and am now taking my fifth jug of William Radam's Microbe Killer. I have gained fourteen pounds in three months, and I note a steady improvement. The medicine has accomplishd more for me in the short time I have tried it than all the doctors and the outlay of $7,000, and I hope all my friends who are afflicted in the way I was will use it. J. F. RENOULT,

Formerly of San Francisco, now a resident of Pasadena.

Complicated Diseases.

SACRAMENTO, April 3, 1889.

William Radam's Microbe Killer Co.:

Gentlemen—I take pleasure in adding my testimonial to that of others who have been cured by the virtue of your medicine. I have been afflicted for several years, and for the last three or four years have not been able to work having been confined to my bed a good deal of the time. My catarrh of over thirty years' standing, in connection, the alarming symptoms of malaria and diseased liver, that life was a burden. As a result the liver, kidney, urinary organs, heart, bronchial tubes and lungs were all involved, causing dyspepsia, neuraligia and rheumatism, with many alarming and indescribable symptoms. Have been under the care of phsicians and have taken all the popular patent physics and medicines of the day and belts, batteries and baths, without avail, and had almost given up hope of relief. But one of God's good and perfect gifts to man (through the instrumentality of man) was made known to me by a letter to my wife from her father, a man of 76, in Albany, Mo., stating that William Radam's Microbe Killer was curing all diseases given up by physicians, and advising me to use it and not give up until a cure was effected. Coming from the source it did I at once ordered two gallons expressed from St. Louis, Mo., costing me $3 per gallon, but the cheapest medicine I ever took. Commenced taking it in December last. Have taken seven gallons and have been improving slowly, but surely. Have now gained my usual weight and feel better than for years. Am over 60 years of age. No money would induce me to be without it in my family. I hear many good reports from those who are using it.

Yours Respectfully, etc.,
L. L. GODDARD.

DYSPEPSIA.

LYNCHBURG, Texas.

Messrs. Wallace, O'Leary & Co., Agents

Radam's Microbe Killer, Houston, Texas:

My suffering from dyspepsia and bayou fever made my life a misery, and at times I was so despondent as to care little to live, when I heard of your great medicine, and purchased a gallon. It gives me pleasure to inform you that before half a gallon had been used, $1,000 could not have bought the remainder of the gallon had I not known where to get more.

Yours truly, CAPT. GEO. L. SMITH.

DYSENTERY.

GALVESTON, Tex., March 10, 1888.

A. Behrends, Agent for William Radam's Microbe Killer:

Dear Sir,—I have been suffering with a complication of diseases which originated from a diseased liver. I had dysentery, bloody flux and internal tumors. I consulted some of the most eminent physicians in the city, and used their medicines for a long time without getting any relief. I was finally given up to die, when a friend advised me to try the Microbe Killer. As a last resort I gave it a trial, and the relief it gave was wonderful. When I commenced to take Microbe Killer I weighed only eighty-six pounds; my present weight is 146 pounds, and I am restored to my usual good health. JOHN W. DERRICK.

Sworn to and subscribed before me this 10th day of March, A. D. 1888.

JOHN A. CAPEN,
Notary Public, Galveston county, Texas.

SAN MARCOS, TEX., Sept. 17, 1887.

Mr. William Radam:

Dear Sir—The Microbe Killer, I find, is a splendid thing. Can I get an agency here? My little boy that was affected with worms is cured, and getting fat and rosy. My father is also using your medicine, and is improving very fast. Very Respectfully.

MRS. ALICE LEF.

Catarrh.

DEAF AND DUMB INSTITUTE, AUSTIN, TEX., July 11, 1888.

Mr. William Radam:

Dear Sir—I certify that I have been a great sufferer with pains in my chest, catarrh in the head, and headache for years. I have spent hundreds of dollars in traveling in Colorado, Utah, California, Oregon, Montana, Wyoming and Minnesota, and found no relief. I heard of Radam's Microbe Killer. I have used four gallons of your medicine, and I am almost entirely well. My headache and catarrh are gone. I am still using the medicine. I will send another gallon to my brother. W. H. LACY,
Superintendent.

MALARIAL FEVER.

HOUSTON, Tex., Oct. 9, 1888.

Messrs. Wallace O'Leary & Co., Agts.

William Radam's Microbe Killer:

Gentlemem—I have been using the Microbe Killer for malarial fever and general debility, and write you to certify that I am again strong and healthy and am satisfied the Microbe Killer is a sure remedy for these diseases. R. E. LEWIS.

Proprietor Capital Stables.

ASTHAMA AND BRONCHITIS.

NASHVILLE, Tenn.

I have been a sufferer from asthma, catarrh and bronchitis for nearly 20 years. I have tried the best physicians and remedies without any relief and now, since I have been taking Microbe Killer, I am entirely cured and can recommend it to all.

M. HERNSTEIN, J. P., Nashville.

To Whom it may Concern—This is to certify that after taking one jug of Microbe Killer I was permanently cured of a severe attack of bronchitis and pulmonary inflammation, said illness having resisted all methods of medical treatment. I cheerfully recommend William Radam's Microbe Killer as being more than is claimed for it. HENRY V. MIELLY,
With Rice, Born & Co., 77 Camp street, New Orleans, February 27, 1887.

LEPROSY.

The only case of leprosy ever known to have been cured by any medicine. James Kavanaugh, Jr., is now entirely recovered and is back in New Orleans. We are treating five other cases of Leprosy, all successfully.

Fifth District, New Orleans, July 23, 1880.—To whom it may concern: I positively assert that my son was afflicted with that most hideous of diseases, Leprosy, and of a character most malignant. Any persons who may be skeptical regarding this case are most cordially invited to call and see him now, or at an early date, at my residence, No. 157 Eliza street Algiers, Fifth district of New Orleans, because if not seen and he continues to improve, as he has since beginning the use of William Radam's Microbe Killer, they will not have an opportunity of giving an honest verdict concerning the case. Respectfully,

JAMES KAVANAUGH.

Algiers, Fifth District of New Orleans, July 25, 1889.—I, the undersigned, do hereby declare that I have been afflicted with leprosy for over four years. My sickness has been declared leprosy by the leading physicians and the public generally, being entirely abandoned and let alone to die, but thanks to Mr. Radam, whose medicine, or Microbe Killer I have been using for five weeks with the most beneficial results. I am satisfied that by continuing his great and most wonderful remedy a few months longer I shall again be able to set to work and support my poor aged father, upon whom I have been a drawback in his declining years.

JAMES KAVANAUGH, JR.

Heart Disease.

Radam's Microbe Killer Co:

Gentlemen—My son, fourteen years old, was cured with less one gallon of Radam's Microbe Killer, after being given up by physicians as incurable with enlargement of the heart. My wife was also cured of a severe bronchial trouble after a failure on the part of physicians to relieve her. I consider it superior to all known remedies. R. B. KIRKPATRICK,
Sacramento, Cal., April 27, 1889.

Rheumatism.

November 14, 1890.

The Wm. Radam Microbe Killer Co.

Gentlemen—Having tried every suggested remedy for chornic rheumatism for more than ten years, I was dubious as to the efficacy of your microbe killer, but am frank to admit a cure (and I earnestly trust a permanent one) was the result after having taken not all of the entire jug you sent me according to directions. Accept my thanks. I am, dear sir, respectfully yours. F. P. DOOLEY, Knoxville, Penn

NEW YORK, September 25, 1888.

Wm. Radam's Microbe Killer Co.

Gentlemen—In reply to your enquiry as to the effect the microbe killer had on me, I would say that if it cost me $100 per gallon I would not be without it. I took it three weeks and am now clear of all pains and aches. I suffered for the past ten years with muscular rheumatism, and it has been so bad at times as to prevent my attending to business. Very truly yours, JOAN BLAKELEY, 233 Broadway, N. Y.

Kidney Troubles.

PHILADELPHIA, March 30, 1889.

S. E. corner Fourth and Market street.

William Radam.

Dear Sir—I have had kidney troubles for 3 years, accompanied with pains and aching across my back and hips. Suffered very much at times; at night I had pains across the lower part of my abdomen; had considerable inflamation at the neck of the bladder. In general, it almost broke me up. I could get no relief from anything I had taken until I commenced with your microbe killer. I feel now like a new person. I will further explain my case to any one writing me. Would advise anyone with an disease of the kidneys to use the microbe killer. ELWOOD PRICKER.

Piles.

ST. LOUIS MO., May 15, 1890.

By using Radam's Microbe Killer I have been cured of piles of many years standing.

JOHN LETHAM,
Room 3, Opera House Building.

Other testimonials furnished on application. Since the success of Radam's Microbe Killer has been proven, no less than fourteen spurious imitations have been placed on the market, the proprietors of which expect to sell the same on the reputation of Radam's Microbe Killer. They are called by various and sundry names, such as "Germicide," Germeteur & Exterminator," Electro Germicide," cide," "Micro," and various other names are self-marked counterfeits, and it is hoped the public will not be deceived by them. These are the usual attempts to defraud the people by imitating a successful and meritorious article. We warn the public against all such.

DEPEW

ON THE

SOUTH

Here is a vast country with the best climate in the world, with conditions of health which are absolutely unparalleled, with vast forests untouched, with enormous veins of coal and iron, which yet have not known anything beyond their original conditions; with soil that, under proper cultivation, for little capital can support a tremendous population; with conditions in the atmosphere for comfortable living winter and summer which exist nowhere else in the country; and that is to be the attraction for the young men who go out from the farms to seek settlement, and not by immigration from abroad, for I do not think they will go that way—but by the internal immigration from our own country it is to become in time as prosperous as any other section of the country and as prosperous by a purely American development.

These words apply particularly to Roanoke and vicinity, and

SCOTT & RIVES,

Real Estate Agents,

will furnish any information that may be desired as to how to secure bargains in Roanoke property.

BOARDERS CAN BE ACCOMMODated at Rorer Park Hotel. Nicely furnished rooms. Large grounds. Table set with the best the market affords. MRS. CRAWFORD. mar27-tf Proprietoress.

RACES

AT

DRIVING PARK

July 4, at 3.30 P. M.

PROGRAMME.

FIRST RACE.—Trotting to harness, mile heats, 2 in 3; purse $75; $50 to first, $25 to second. Entrance fee $5. Three horses must start. Only horses owned in Roanoke county, 20 days before the race, are eligible to start in this race.

SECOND RACE.—Running; one half mile heats, 2 in 3; weight for age; purse $125; $100 to first, $25 to second. Entrance fee, $7.50. Three horses must start

THIRD RACE.—Free for all. Trotting; mile heats; 3 in 5; to harness; purse $150; $110 to first, $40 to second. Entrance fee, $10. Four horses must enter and three start.

Races will be trotted under National Trotting Association Rules, and run under National Jocky Club Rules.

Ladies are specially invited. Admission, $50 cents; children under 10 years free.

EAST END ADDITION.

Desirability of and Demands for Lots There.

As the summer advances much activity in building operations is noticed, and many new houses are in process of construction. This naturally makes the real estate market much firmer, and agents are correspondingly happy. Simmons & Co. have been doing a rushing business, one of the best since the firm was established. The East End property is changing hands very rapidly, and many new houses will be erected this season.

Among the prominent additions in the East End, is that of the Oak Ridge Land Company. The addition lies just east of Belmont and south of the East Side Land Company's property and adjoins the farms of Messrs. George Taylor and G. W. Carr.

This offers every inducement as a place of residence. It is removed from the business portion of the city and therefore gives a quiet, suburban home, while at the same time it is near the dummy line and therefore quite convenient to the city.

The land is high and dry and has just enough slope to give it good drainage. Gas and water mains are being put in and new streets are being laid out. Everything is propitious, and it is destined to take its proper place in the front rank. It is located near the furnace, rolling mill bridge works and the machine works, and offers, therefore, greater inducements to the workingman, as it is near his work. A number of neat cottages are going up and others have been contracted for.

James S. Simmons & Co. are agents for the company, and they can give good bargains. The property is going rapidly, and if you want to obtain good bargain call on them at once. The prices for the lots are low and the terms easy, so every man can own his own home.

In Holland, Mich., C. J. Doesbury publishes the News, and in its columns strongly recommends Dr. Thomas' Eclectric Oil for coughs, colds, sore throat, catarrh and asthma.

It is an established fact that Joseph Cohn, the Salem avenue clothier, has the finest, largest and best assortment of ready-made clothing in the city. Just listen to what he proposes to do in order to close his entire stock before the season is over. He proposes for today (Saturday), to divide his entire stock into three grades.

First grade, embracing all of his finest suits. You can take your choice for $16.00

Second grade, including all medium business and dress suits from $12.50 to $17 will be sold for $12.50.

Third grade, including all suits formerly sold as high as $12.50 will be sold for $7.50.

We only ask that you consider the above proposition, and if you are not convinced that this is the greatest inducement affered this season by and firm just call and we will soon convince you. Joseph Cohn the Salem avenue Clothier, Tailor and Hatter, 44 Salem avenue, Roanoke, Va.

The best fitting and most stylish suits in the city at Geyer's, on Campbell street. my20 tf

GLADE ADDITION.

A Beautiful and Convenient Location for Buildings.

No city in the South has grown with greater rapidity than has Roanoke, and probably not one is on a firmer foundation considering its age. Roanoke swells and grows each day, and unlike most cities, does not grow in any one direction more than an other, but is being rapidly built up on every side, north, east, south and west. The influx of population since 1884 has been enormous, and hundreds of buildings have gone up to supply the demand. There has been no lull in the erection of houses this winter, except that occasioned by the rain, and drive in what direction, you will hear the sound of the hammer and evidences of building meet your eye. Hundreds who rented houses a few years ago pay taxes now, owning their dwellings, and the erection of residences is the best index to the growth of the city and the strongest assurance that the city is here to stay.

The homes that have been built here within the past year are, many of them, as handsome, artistic and expensive as can be found anywhere. To accommodate the ever increasing population, numerous additions have been laid off and the lots placed on the market. Among the many valuable properties hereabouts, none offer greater inducements as a place of residence than the Glade addition.

This property is situated just east of Glade creek and is traversed by the Vinton extension of the Roanoke street railway, which places it in direct communication with the central portion of the city, a person can live in that section, and if his place of business is in the upper part of the city, or even in the West End, he can take the street car and be ready for the day's work at the usual time. Every benefit of a surburban residence is obtained, without any of its discomforts.

The property is well drained and therefore healthy. It has been divided into lots by the laying off of wide streets and avenues. The view to be obtained from Glade addition is beautiful. On the east, towering hundreds of feet in the air, are the Blue Ridge mountains, while on the south the Roanoke river winds itself like a silver thread among the hills, forming one of the most beautiful bits of scenery anywhere in Southwest Virginia. One of the principal features about the Glade property is the easy terms upon which the lots can be gotten. The prices have been placed so low that it is within the power of every man to own his home. Messrs. William M. Yager & Co., are the agents for the company and they will take pleasure in giving any information concerning the property. Call on them at their office on South Jefferson street.
