MONDAY, June 21—P. M.

To say that the stock market this morning opened strong will convey an erroneous impression. It is more correct to say that the market was opened at figures something higher than those at Saturday's closing. London 2:30 p. m. quotations were received at an earlier hour than the opening of our Stock Exchange, and they bore evidence of an American manipulation. The Consolidated Stock and Petroleum Exchange opened one hour earlier than the Stock Exchange and its first figures for stocks seemed to be impelled by an influence foreign to the usual conservatism which rules operations there when the Stock Exchange "ticker" is not in operation. There is little to be said about the day's operations. Early prices generally were from ¼ to ¾ higher than Saturday's closing figures and the final prices generally are from ¼ to ½ per cent lower than Saturday's last figures. Delaware, Lackawanna and Western and Delaware and Hudson each show final declines of 1 per cent; Central and Hudson a decline of 1¼, and Lake Shore and Hocking Valley each 1⅜ per cent. The surface indications are that there have been large pool realizations; the actual fact probably is that the market was subject to a laundry process on a large scale, and that to-day's decline is as much the child of manipulation as were Friday's and Saturday's advances. If we are asked the object of such a manipulation, the reply, which suggests itself to every old stock operator, is, that an open show of clique selling an apparent large large absorption of stocks gives the impression of a broad market. Take Delaware, Lackawanna and Western, for instance. The transactions in it amounted to 85,600 shares, more than double the amount of the usual late daily sales. At the Consolidated Board it early sold as high as 132¾. At the Stock Exchange it opened at 132⅜, which was an advance of ¼ per cent above Saturday's closing; from that figure down to 131 there were immense transactions in the way of matched orders. A small rally followed; a decline to 130¾, and final sales at 131½. The character of the dealings in other stocks generally was the same as in Delaware, Lackawanna and Western, only they were less apparent, because of the smaller volumes of business. Aside from the displacement of stocks that are held by some of the Boardroom traders, because of the decline, we see little reason to suppose that 20,000 or 30,000 shares of stock will not to-morrow suffice to make the clearances of the whole 380,626 shares reported as to-day's transactions. It is hard to quote the closing character of a market so entirely under the control of manipulation, but the last figures generally were near close to the lowest of the day. Government bonds were dull and strong for the 4s and 4½s, with the bids advanced ⅝ and ½ per cent respectively. Bids for the 3s were ⅜ lower on reports of another call for $5,000,000 or $10,000,000. Annexed are the closing quotations:

State bonds were dull. Louisiana stamped 4s were off ⅝ at 79. Tennessee compromises were off ⅛ at 75⅛@75⅜ and the settlement 5s were up ½ at 75. Virginia 6s deferred receipts rose ¾ to 9¾. There were no transactions in city bank stocks.

A well distributed business was done in railway bonds, but prices were irregular. Erie second consols and funded coupon 5s closed ⅝ lower at 94¼ and 92 respectively. Chesapeake and Ohio series B were ½ easier at 70⅞ and the currency 6s were off ¼ at 31¼. Lizzie, Lexington and Big Sandy 6s rose 1 per cent to 105. Rome, Watertown and Ogdensburg consol 5s were steady at 100@99⅞. Missouri, Kansas and Texas general 6s were active at 96¼@96¾ and the 5s were up ¼ at 82¼. Canada Southern 1st 5s were steady at 108⅝; but the seconds yielded ½ to 9. N. West Shore guaranteed 4s sold freely at 104⅞@104¾. C. C. C. and I general 6s rose ⅞ to 109. New-York, Chicago and St. Louis first receipts opened up ½ at 99, and closed easy at 98. Louisville and Nashville issues were all strong: general 6s were up ½ at 104, firsts New-Orleans and Mobile up ¾ at 102½, and seconds 1 per cent higher at 89. Collateral Trust up ½ at 100½, and the 10-40s up 2 per cent at 86. International and Great Northern general 6s rose 1 to 92 and declined to 91. Columbus, Hocking Valley and Toledo firsts were weak at 93. Denver and Rio Grande consols receipts were firm at 109. Oregon Short Line 6s rose ⅞ to 107. Texas and Pacific incomes were active at 57⅞@58 (57½ Atlantic and Pacific incomes were up ¼ at 24@23¾. Northern Pacific seconds were strong at 100 and the terminal 5s at 109. Fort Worth and Denver firsts rose 1 per cent to 86 and closed at 85½.

The Sub-Treasury to-day gained on balance $431,885, made up by a currency gain of $457,294 (probably by transfer) less a coin loss of $25,409. The day's operations covered: Receipts, $2,226,650; payments, $1,794,765; resulting in balances of $13,315,585 currency and $101,460,665 coin.

Money ruled easy at 3@1½ and closed 1½@2 per cent.

The Clearing House statement to-day was as follows: Exchanges, $130,590,563; balances, $4,989,572.

The United States Treasury at Washington received $831,000 National bank notes for redemption.

The customs receipts were $496,095, and the internal revenue receipts $614,155.

The foreign exchanges were quiet and firm, at quotations for business as follows: Bankers' bills, $4 87¼@$4 89¼ for long and short sterling respectively; 5.17½ and 5.14⅛ for francs; 95⅝ and 95⅞ for reichmarks; 40¼ and 40½ for guilders.

In London British consols were stronger with an advance of ⅜ to 101 3-16 for money and or 3-16 to 101¼ for account. American railways opened with more or less advance on Saturday's closing figures and in some instances fully equal to the equivalent of Saturday's home figures, but after 2 o'clock there were no gains and there were some small declines. At Paris French 3 per cents rose from 82.77½ to 83.02½, and eight exchange on London was easy at 25.20½ frs. to the £.

TALLOW—Quiet and weak. Prime City quoted at 4¼@4⅜c. Sales, 70,000 lbs. at 4¼@4½c.

WOOL—Generally strong, though as a rule only moderately active. At the London auction sales, at which 3,[illegible],000 bales are being offered, prices have advanced 5@10 per cent for fine grades and 5 per cent for coarse wools, as compared with the closing figures of the last sale. The Western markets, moreover, are firmer. The outlook for the wool market is more cheerful. Fulled and Texas wools have met with a good demand here. X and XX Ohio sold at 31@33½c.; 34 blood Clothing at 35½c. Fine Unwashed New-York at 22@24c. and 200,000 other lots passed at 23c. Oregon wool at 20c. and 200,000 lbs of Spring Texas part at 15@16c. From the circular of Hallowell & Coburn, Boston, June 18, 1886: Recent reports from the London public sales received here last Wednesday form the principal topic of discussion by the wool trade this week. The private cable telegram received by us reads as follows: "Sales 20 per cent above April. Good Port Phillip, 1 [illegible]d. Cross breds only slightly dearer. English combing maintains quotations of June 5." It is probable that many of our Western correspondents cannot recall April quotations, and our telegram may therefore need some explanation. During the month of April good Port Phillip was quoted in London at 10d., and Montevideo at 9d. At that date the sales at London and at Antwerp developed an improvement and the same grade of Port Phillip at 10 and 10½ pence. Accordingly, the interest to be drawn from present reports is that the advance over April prices is fully sustained. This advance, it must be borne in mind, has been heralded all over this country during the last four weeks. We announced it in our circular for May 21, and have referred to it again and again in our circulars issued during the succeeding weeks. Prices for the clip were without doubt largely based upon it. For example, buyers in Ohio who had expected to pay 2@c. advanced their figures to 25 to 27c., and owners in Michigan who were ready to pay 23c. advanced to 25 to 26c. It is a fact cannot be too much emphasized, for the benefit of those in the interior, concerning the favorable reports from the foreign sales tables, this week, indicates that a great many buyers believe there has been a further advance of 3c. or 4c. at home. This is an error. The most that can be said is that at these sales the market developed much strength, and the advance heretofore quoted is
