THURSDAY, June 24—P. M.

The Pennsylvania Railroad Company's report of its business for the month of May has been made with the usual promptness. It is a disappointing exhibit. The gain in net earnings of the Pennsylvania and New-Jersey lines over May, 1885, is $117,407, which, considering the comparative rates received for freight and passengers of the two periods, is very small, particularly when it is noted that the net earnings for May, 1885, were $284,199 smaller than for the month of 1884. But what little good there is in that small gain is destroyed by the deficiency of the Western lines in meeting the amount of rentals, being $52,998 greater than in May, 1885. Hence, while the net earnings of the whole system for May, 1886, show a gain of $64,499 as compared with May, 1885, compared with May, 1884, they show a decrease of $376,523. For the five months ended May 31, 1886, the whole system gives the Pennsylvania a gain in net earnings of $925,491 over the same period of 1885, but a loss of $782,021 from the net of the same period of 1884. The promptness and accuracy (compared with the first annual reports) with which the Pennsylvania Company is able to report the results of a system of railways extending from New-York and Philadelphia to Chicago and the Mississippi River, month by month within 20 and 26 days of the end of each month, raises the question why is it that all the railroads of New-York, whose operations are confined within the boundaries of the State, cannot do the same thing? The railway commissioners allow six weeks from the end of each quarter for the filing of the required quarterly reports, but many of them are not filed till seven or eight weeks have elapsed.

Railway reports of gross earnings generally are showing some gains. But they are not such gains as the increased mileage calls for, and are less than we anticipated. St. Paul, for the third week in June, reports $59,951 more than for the week of 1885, but it is only $48,000 more than for the week of 1884, when the miles operated were 160 less than now, an I only $21,000 more than for the week of 1883, when the mileage was 400 miles less than now. In measuring the extent of the increased gross earnings of railways week by week it is necessary to keep in mind the additional mileage and the addition of about $20,000 per mile of bonds issued, which are a first charge against the additional net earnings.

The stock speculation this morning opened under a cloud, because of the authentic announcement that the Lake Shore Company's switchmen had struck because of the company's refusal to discharge eight men who had been faithful servants for several years. As this is not a strike for higher pay or for less hours of labor, but involves a principle vital to every industry—whether the business of railroading, manufacturing, merchandising or of agriculture shall be controlled by the employer or employes—it assumes an importance which invites the active interest of every employer of labor in the country. Therefore the Stock Exchange in opening with some lower values than last evening's closing figures did not overestimate the possibilities of the situation. Immediately following the opening, however, there was a sharp rally which in some instances carried figures up to yesterday's best. After that the market sagged and with intermaterial fluctuations continued to decline till the end. Delaware, Lackawanna and Western remained exceptionally strong and closed only ¼ lower than yesterday, while Delaware and Hudson declined from 100½ to 98 and closed at 98¾. This one fact clearly demonstrates the character of Monday's large business in that stock, when it was pretended that heavy sales were made and that the purchases were made by "men of great financial strength." If before there was any doubt about who the recent buyers of Western Union were it was dissipated by the following which was circulated in the Street and at the board: "Chicago Board of Trade, June 24, 1886—9 a. m. It is reported here that the Western Union and the Baltimore and Ohio Telegraph companies have consolidated." There is not one word of truth in, or any foundation for the "rumor." Western Union closed only 1⅛ lower than last evening. The general declines of the day are not large—¾ to 2 per cent—but that generally is wrongly ascribed to the Lake Shore strike. The fact is recent buyers at rapidly advancing figures are trying to sell, after having strangled the prospects which existed for a good and legitimate market.

Government bonds were more than usually active with a freer demand and bids for the 4s and 4½s were advanced ½ per cent; for the 3s sales and bids were ¼ easier. Annexed are the closing quotations:

	Bid.	Ask.		Bid.	Ask.
U. S. 4s 1891, reg	112	112¾	U. S. cur. 6s 1895	128¾	....
U. S. 4s 1891, coup	112	112¾	U. S. cur. 6s 1897	131⅛	....
U. S. 4s 1907, reg	126⅝	126½	U. S. cur. 6s 1898	133¾	....
U. S. 4s 1907, coup	127⅝	127½	U. S. cur. 6s 1899	135	....
U. S. 3s per cent 98	102½	....	Dist. Col. 3-65s	....	110½
U. S. cur. 6s 1895	125⅞	....			

State bonds were quiet; Louisiana stamped 4s declined ⅜ to 79½, and North Carolina 6s, 1919, sold at 120. Of city bank stocks, North America sold (5) at 124¼. Mercantile (50) at 125, and Metropolitan (20) at 61 @ 61½.

The market for railway bonds was comparatively dull and the prices sympathized with the concessions made in the share market. Erie second consol 6s fell from 94⅞ to 93¾, and closed easy at 94. Rome, Watertown and Ogdensburg consol 5s were off ½ at 100. Cheapeake and Ohio currency 6s yielded ½ to 36. Central of New Jersey debenture 6s were off ¾ at 80¾. West Shore guaranteed 4s ruled steady at 105⅝ and U. S. Pacific Union debenture 5s declined ½ to 109¾, but the consol 7s brought 140½. Cleveland, Columbus, Cincinnati and Indianapolis general 6s declined ⅝ to 107½. New-York, Chicago and St. Louis first receipts were steady at 98. Missouri, Kansas and Texas general 6s were off ⅝ at 95, and the 5s were steady at 87⅞ @ 81½. East Tennessee, Virginia and Georgia consols were firm at 96, and the income receipts ruled at ½ @ 23¾. Richmond and Danville debentures sold up to 110 but closed at 109. Louisville and Nashville general 6s rose ½ to 104½; firsts New-Orleans and Mobile rose ¾ to 104½, and the seconds were up 1¼ at 90¼. Columbus, Hocking Valley and Toledo firsts were off 1 per cent at 88. Louisville, Day and Chicago consols sold at 98@ 98¾. South Carolina incomes were active at 27@26½. New-York City and Northern first receipts were firm at 62½@63. Wabash general 6s rose from 61¾ to 62@62½, but Erie, Chicago division, were easier at 90½@91½. Firsts, Omaha division, sold up to 105@104¾. Texas and Pacific firsts, Rio Grande division, declined 1 per cent to 56¾. Oregon Transcontinental firsts were strong at 105@102¾. St. Louis and San Francisco general 6s rose 1 per cent to 112.

The Sub-Treasury to-day gained on balance $650,721, made up by gains of $613,731 currency and $36,990 coin. The day's operations covered: Receipts, $1,868,377; payments, $1,218,256; resulting in balances of $16,654,289 currency and $192,371,336 coin.

The money market was easy with an abundant supply at 2½@1½ per cent, and the closing quotation was 1½@2 per cent.

The Clearing House statement to-day was as follows: Exchanges, $92,855,037; balances, $4,607,397.

The United States Treasury at Washington received $603,000 National bank notes for redemption.

The customs receipts were $490,742, and the internal revenue receipts $366,836.

The foreign exchanges ruled strong and fairly active. An additional $500,000 gold bars were taken for export. Quotations for actual business are firm as follows: Bankers' bills, $4 87¾ and $4 89¼ for long and short sterling respectively; 5 16⅛ and 5 14⅛ for francs; 95⅜ and 95⅞ for reichmarks; 40¼ and 40½ for guilders.

The governors of the Bank of England at their regular weekly meeting to-day made no change in the bank's minimum rate of discount, and it remains at 2½ per cent. During the week the bank gained £546,000 bullion, and the proportion of its reserve to its liabilities was raised from 39 15-16 to 41 3-16 per cent, against 52¾ per cent at the same date last year. To-day the bank gained £161,000 bullion on balance. The weekly statement of the Bank of France shows gains of 3,575,000 francs gold and 625,000 francs silver. At the London Stock Exchange British consols were weak and declined 1-16 and ⅛ respectively for money and account to 101 3-16 for both. United States 4s were ¼ per cent higher at 128¾. American railways were quiet with quotations generally lower than yesterday's closing. At Paris French 3 per cents after rising to 83.32½ declined to 83.12½ and sight exchange on London was firmer at 25.25 frs. to the £.

The governors of the Stock Exchange have admitted to dealings the following securities:

Illinois Central Railroad Company—First mortgage gold 3½ per cent bonds, due 1951; $2,500,000.

Missouri Pacific Railway Company—An additional 30,000 shares, $3,000,000 of capital stock, reaching the total 360,000 shares or $36,000,000.

East Tennessee, Virginia and Georgia Railroad Company—An additional $136,000 of "Divisional" 5 per cent bonds, due in 1930, making the total amount $3,063,000; 275,000 shares ($27,500,000) of common "Assessment Paid," and 165,000 shares ($16,500,000) of preferred "Assessment Paid" stock.

St. Louis and Cairo Railroad Company—Mortgage 4 per cent bonds, due 1931, interest guaranteed by the Mobile and Ohio Railroad Company, $4,000,000.

Columbus, Hocking Valley and Toledo Railway Company—General mortgage 6 per cent gold bonds, due in 1904, $1,000,000.

THE PETROLEUM MARKET.

There was no confirmation yesterday of the reports circulated on Wednesday afternoon of the striking of oil near Taylorstown, about ten miles southwest of the Washington County, Penn., district, and the market opened strong with a good deal of excitement. But news was soon received that the well drilling was to be made a "mystery"—one of the most discouraging ways to manipulate oil speculation, for not only are buyers discouraged by the uncertainty attending the uncovering of a "mystery," but the chances of oil being struck are great enough to render holders nervous. One man's guesses are as good as another's with respect to the Taylorstown venture, and outside of this affair, the news from the Western petroleum region calls for no special comment. If the well is a good one, the bears will probably achieve success in lowering prices; if it is a dry hole or a gas well the influence of Washington's declining production will probably reassert itself on the momentary speculation. The buyers of oil on other considerations are usually sufficiently well backed financially to disregard temporary changes in the field outlook. The certificate market yesterday was sold down to 67⅞ cents, against 69⅛ cents Wednesday night; but a large part of the weak longs have been "shaken out." The close was not strong, and lower prices are expected as a rule, but the last quotation was only ⅛ cent under Wednesday's final price.

The range of prices and the total dealings at the Consolidated Exchange were as follows:

Opening	69⅝	Lowest	67⅞
Highest	69⅞	Final	68⅜
Sales, barrels			6,057,000

Refined oil was unchanged at 7¼ cents per gallon.

BRADFORD, Penn., June 24.—Crude Oil.—National Transit Certificates opened at 69⅝ and closed at 68⅝; highest, 69¾; lowest, 67¾; clearances, 2,090,000 barrels.
