SOCIALISTIC LABOR ELEMENT WILL PROSELYTE IN EUROPE

(Correspondence Associated Press)

LONDON, July 27.—Members of the mission sent to England and France by the Social Democratic League of America declare that the way to defeat the expected German peace drive is to convince the socialist and labor leaders of the entente nations that America stands solidly behind President Wilson and backs up his peace terms to the limit.

Their purpose in coming to Europe to confer with socialist and labor leaders of England and France is to convince them that American socialists and working men are in unit in support of President Wilson's peace terms.

"The next vital step," they said in a statement given to the Associated Press before leaving for France, "is to convince the world of labor that the whole people of the United States is devoting its fighting strength to nothing more or less than to secure the peace laid down by President Wilson.

"Once this fact is accepted by the socialists of the allied nations there will be an end of pacifism there and a spread of peace sentiment in Austria and Germany. Already it is claimed that the socialists of Austria and Germany have agreed to accept substantially these terms. If this is true the need of an interbelligerent socialist conference disappears since the socialists of all nations will have agreed upon the peace terms asked by the United States.

"The overwhelming mass of British laborers and socialists wish to win the war. They are misrepresented by a small group controlling their political organization. Even this group protests its desire for victory, but some believe victory impossible and others charge that if obtained it will be used by imperialists to pave the way for future wars.

"Yet all, pacifist or pro-war, join in praise of President Wilson's program. Thorough discussion with representatives of every shade of labor and socialist opinion shows that there is almost unanimous and enthusiastic agreement upon this point. President Wilson is today the great hope of the democratic world.

"But those who are already pledged to pacifism, peace by negotiation, interbelligerent socialist meetings or other means of securing a peace without fighting argue in excuse that, though America may be solidly backing war efforts, it is not solid in support of Wilson's peace terms.

Arid States Have No Show In Locating Men from France

(By Associated Press)

WASHINGTON, Aug. 13.—When the soldier of 1865 laid down his arms to take up a civil occupation, he turned westward to a matchless public domain which he helped to develop into the world's richest farms and cities. The government was able to point the way to a method by which the returned soldier was able to turn his talents for a livelihood, and the government now is laying the ground work to have similar land available when the great war ends and the millions of American soldiers return to civil life.

Congress will be asked for legislation to make this land available, according to the present plans of Secretary Lane and congressional leaders.

Secretary Lane has announced that it will be the policy of the department of the interior to ask for legislation by which arid lands of the west, cut over lands of the northwest, and swamp lands in the middle west and the south, can be reclaimed and the soldier given a preferred status in its allotment. Bills are now before congress on that subject, and the plan now is to weld into an administration bill a measure embracing Secretary Lane's ideas, the legislation to be patterned after a bill now before the house public lands committee by Representative Smith of Idaho.

The amount of swamp and cut-over lands is extensive, reports from the department of the interior indicate, but just how extensive is not known. It is estimated that approximately 60,000,000 acres of swamp and overflow land can be made available for farming. Some of it has passed into private ownership. It lies chiefly in Florida, in the states along the Atlantis and Gulf coasts, in the Mississippi delta and in Missouri, Indiana, Michigan, Minnesota, Wisconsin and California.

It is estimated that of the cut-over and logged off land there is approximately 200,000,000 acres suitable for agricultural development. A larger percentage of this land is now in private ownership, and it is shown that failure to develop it is due largely to inadequate methods of approach, says Secretary Lane. Unless a new policy of development is worked out in co-operation between the United States, the states and the individual owners, a greater part of it will remain unsettled and uncultivated. The land lies chiefly in Washington and Oregon, Virginia, North Carolina and South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana and Texas.

Other than the planning, the development should be by the returned soldier, according to Secretary Lane's views.

"The dam or the irrigation project should be built by him," Mr. Lane says. "The canals, the ditches, the breaking of the land and the building of the houses, should, under proper direction, be his occupation. He should be allowed to make his own home; cared for while he is doing it, and given an interest in the land for which he can pay through a long period of years, perhaps thirty or forty years.

"So that the soldier on his return would have an opportunity to make a home for himself, to build a home with money which we would advance and which he would repay, and for the payment we would have an abundant security."

SINKING IN THE SEA

RUSSIANS GO TO JAPAN

(By Associated Press)

TOKIO, Aug. 13.—The exodus of Russians from their country into Japan has so steadily increased that the foreign community in this country has become chiefly Russian. All the foreign hotels are crowded with Russian refugees. It is difficult for world travelers to find accommodation in any of the foreign style hotels in Japan.
