Total bush	17,464,000	8,552,000	5,144,000	31,160,000

The quantity of wheat on passage from India for Europe, September 15, 1886, was 6,572,000 bushels including 4,744,000 bushels for the United Kingdom and 2,128,000 bushels to the Continent, against 3,064,000 bushels at the corresponding date in 1885. The exports from India from April 1 to September 11, 1886, have been 25,844,000 bushels in 5½ months. The exports for the remaining 6½ months of the crop season, September 11, 1886, to March 31, 1887, will not probably exceed much more than 5½ millions of bushels, so the Indian crop is 41,000,000 bushels less than the crop of 1885.

The distribution of the Indian wheat exports from January 12 to September 11, 1886, has been as follows:

From.	To United Kingdom.	To Continent Europe.	Total bush.
Bombay	5,168,000	12,104,000	17,272,000
Kurrachee	1,960,000	3,136,000	5,096,000
Calcutta	6,024,000	1,836,000	8,760,000
Total bush	14,084,000	17,076,000	31,160,000

The depreciation of silver in India, while benefiting the Indian wheat shipper, is death to the wheat grower.

TOBACCO—For Kentucky and Virginia growths there is a moderate demand the tone is steady. Seed Leaf is quiet, but with prices well held. The sales includes 205 cases 1882 Housatonic Havana, private terms; 100 cases 1885 State Havana Seed, 14c.; 100 cases 1885 Ohio, 6@8c.; 100 cases 1885 Pennsylvania Havana, private terms; 200 bales Havana, 60@1.05c.; 200 bales Sumatra, 1.20@1.40c.

WOOL—Demand generally quiet and the market firm. Holders are firm in their demands, ignoring bids a shade under their quotations, and the indications are now that the market will reach a higher level.

WHOLESALE PRICES OF COUNTRY PRODUCE

For the week ending Tuesday, Sept. 28, 1886.

BEANS AND PEAS.

Receipts for the week, 586 bbls beans; 550 bbls. peas. Exports, 782 pkgs. beans and 1,411 bush. peas. Not enough new stock coming forward to establish values. A few Medium have sold at $1 50@$1 60, as to quality, and choice Red Kidney have recently been placed on Southern orders at about $1 90. The stock of choice old Marrow, Medium and Pea is much reduced, and held with increasing confidence; but buyers are beginning to want new beans, and the small way in which they take hold of the old stock makes it difficult to get prices up much. Inferior grades of all kinds are quite plenty, and drag along at irregular rates, receivers generally taking advantage of every opportunity to sell. Some Red Kidney will be wanted for export this week, but the extent of the orders and the price likely to be charged are not definitely known at this writing. Rather more daily from California Lima and feeling steadier. Old green peas jobbing slowly at $1@$1 05; prime new would bring about $1 10.

BUTTER.

Receipts for week 33,086 packages; export 6,604 packages. The market continued strong and advancing up to and including Friday, especially on fine and fancy fresh table grades, which were not offered in sufficient quantity to meet the wants of the trade. Since then, however, the weather has been extremely warm, demand less active, and general tone of the market quieter. Strictly fancy stock has lost none of the strength exhibited last week, but there are rather more goods to select from and buyers are more critical in their examinations. The free exports recently have been a feature of much interest and encouragement, and the late foreign advices are of such a nature as to suggest a continuance of shipments, provided the price does not go too high. To-day extra fresh State creamery pails are firm at 29c.; quite a number of the favorite brands go to the grocery trade at 30c., but we hear of no wholesale business as yet at that. State creamery in tubs is quiet, but prices for fancy lots of all fresh the inquiry is fair at 27@28c. With a larger proportion of the Western receipts showing better quality it takes the very fanciest lots to reach 28c.; still at that price extra are fairly firm and moving out to the extent arrivals. Of extra firsts and first firsts there is a heavy supply and only the high grades command our outside figures. Exporters have paid from 14c for a common grade up to 20c for really nice quality, with most of their purchases at 16@18c. Fine fresh State dairy either in pails or tubs is in light supply and meeting a fair inquiry; other sorts quiet at unchanged values. Firkin dairies have only occasional sales, with 22@23c an outside rate for the very finest offering. Imitation creamery and Western dairy still running poor and moving slowly at irregular rates; strictly fine lots would bring a fair price. June factory gradually becoming exhausted. Nothing very attractive in the fresh made stock and bulk of sales from 11c down.

CHEESE.

Receipts for week, 63,524 pkgs.; exports, 32,093 pkgs. The market has continued to advance under strong advices from all the interior markets; a steady, fair export demand and good home trade. Prices crept up gradually from 10¼ cents a week ago to 11¼ cents before Friday night, since then it ere have been only slight changes, but a further considerable advance has occurred in the country and most of the receivers were holding stock quite firmly to-day. The home demand continues good, but shippers are standing off and the market is much unsettled at the close. So few transactions were reported that it is difficult to give actual selling rates, but 11¼@11½ cents for Fancy State colored and 11¼ cents for fancy white seem to fairly indicate receivers' views. Any effort to force sales would have necessitated accepting the inside figures, or less, but as a rule receivers were inclined to await the anticipated favorable change in the weather and the increased trade which usually comes later in the week. The night milk skims are going largely to home trade at 7@9c. and 12 and 24 hour skims sell at 4@6c, some very poor lots of state skim going down to 2@3c. Ohio flats are in light receipt, fair home demand and higher. Liverpool cable 52s.

EGGS.

Receipts for week, 19,511 pkgs. Immediately following our last report the market made a further gain of 1c. per doz., but for the past few days the demand has been very quiet. Fancy fresh laid are scarce and on such improvement is quite firmly maintained, but there is a larger offering of held fresh and such are showing slight weakness. At the close fancy fresh laid Western are steady at 20½@21c. Finest held fresh, including best Canadian marks, freely offered at 20c. and defective lots at lower and irregular prices.

FRUITS AND BERRIES—FRESH.

Apples continue irregular; fancy soft fall fruit is scarce and wanted, while common stock of all kinds rules dull and weak. Peaches are lower, the demand having fallen off materially. There are now very few fancy large yellow arriving; the small lots received exceed quotation. Pears have sold very well as a rule but also a shade easier, the hot weather causing some pressure to sell. Plums scarce; choice green bring full prices, but Damsons are dull and weak. Grapes of all kinds are plenty, dull and lower. Cape Cod cranberries in liberal supply, but moving freely at fairly firm prices. Very little doing in Jersey berries as yet; the lots so far shown are mostly small and green.

DRIED FRUITS AND BERRIES.

Receipts for the week 1,475 pkgs.; exports 392 pkgs. The few lots of new evaporated apples received move out promptly at 8@9c. for choice to fancy quality. There is also a fair jobbing inquiry for choice to fancy North Carolina sun-dried sliced at from 3½ to 6c. Bright heavy packed Northern Ohio and Michigan quarter are sought for by exporters and would bring 4c.; Southern and southwestern quiet as yet but have a more promising outlook. Evaporated peeled and unpeeled peaches are quite firmly held but buyers do not take hold of them very freely at the prices asked. Sun-dried peeled have moved out nearly a fast as received. The rates named a week or two ago becoming better established. All kinds of small fruits are selling slowly, with the feeling generally easier.

HOPS.

Receipts for week, 416 bales; imports, 500 bales. The market for State, 1885 hops continues extremely dull and the effort to realize on the part of some holders has caused a further shrinkage in values; best lots are not quoted at the close above 20@22c. and some prime lots have sold down to 18c.; lower grades range from 16c. down to 12c. New States to attracting but little attention, and do not come forward in quotable quantities as yet. New Californias are here but without sales to establish values. New foreign hops are offered freely from 34c. for choice, down to 18@20c. for poor trash.

POULTRY AND GAME.

Live fowls are wanted for the Jewish holidays which begin on Thursday of this week, and prime heavy lots are salable at 12@12½c. Chickens in large supply and closing weak. Ducks are also in very heavy receipt and the market is in bad shape. A fair demand for geese, but enough coming forward to meet all wants.

We had a very good market for Western dressed poultry up to the close of last week, but since Monday trade has been light and the feeling a shade easier. At the close Spring Chickens are plenty and cannot be placed in any considerable quantity above 12@12½c., though an occasional small lot of Fancy selected large still reaches 13c. Fowls are in light supply and fairly steady at 12@12½c.

Philadelphia chickens are plenty and quiet. Turkeys very irregular; demand for young is confined to well grown and fat stock. Ducks sell a little better of late, but only when large and fat. Squab
