per cent rate was marked, but the last loan was at 5 per cent.

The Sub-Treasury was debtor at the Clearing House $109,240, and it redeemed 4,000 trade dollars.

The business of the Sub-Treasury for the week ending to-night includes receipts of $7,155,509 and payments of $6,562,872, leaving the general balance at $173,833,711, against $172,240,574 May 14, showing an apparent gain of $1,593,137; but deducting from the payments $801,320 and from the receipts $36,000 for items which only affect the Sub-Treasury's account with the General Treasury, and allowing for $32,797 paid for redemption of trade dollars, its true gain as affecting the banks is $2,325,660. To-day's operations covered: Receipts, $1,297,769; payments, $900,424; currency balance, $15,399,999; coin balance, $158,433,712.

The Clearing House statement to-day was as follows: Exchanges, $94,027,607; balances, $3,797,629.

The United States treasury at Washington received $392,000 National bank notes for redemption.

The customs receipts were $630,430, and the internal revenue receipts $394,958.

The foreign exchanges were dull and barely steady at quotations for business as follows: Bankers' bills, $4 86 and $4 87 for long and short sterling respectively; 5.19¾ and 5.17½ for francs; 95⅜ and 95¾ for reichmarks; 40⅛ and 40¼ for guilders.

In London British consols were strong and 1-16 higher at 101½ for both money and account. Money between bankers is ½ per cent, and for discount of bankers' bills ⅞ for short and 1⅛ per cent for long dates. Bar silver advanced 1-16d. to 43⅝d. per ounce, English standard. American railways worked irregularly, but generally were easier and closed responsive to the 1½ o'clock home quotations. At Paris French 3 per cents declined from $81.77½ to 80.87½, and sight exchange on London was easy at 25.20½ francs to the £.

THE PETROLEUM MARKET.

NEWS FROM THE FIELD AND RANGE OF PRICES.

A more spirited speculation in crude petroleum followed the confirmation on Thursday of the important news that the Solar refinery (belonging to the Standard system) at Lima, Ohio, had been shut down because of the unsatisfactory character of the tests made to utilize Ohio oil as a good illuminant. The transactions yesterday nearly reached the amount of 2,200,000 barrels. There was more encouraging news for the bulls from the Pennsylvania region also, the gauge of Bradford, in Butler County, showing a falling off of 1,000 barrels from a week ago. Nevertheless the market was narrow as regards the operators interested in it, and the new buying on the improved outlook was of a timid, tentative kind. There was a reaction from the opening figure of ⅛ to ⅜ cents in the course of the session, but the close was upward with a advance of over 1 cent had been scored. Realizations were not here as well as some fresh ventures by the trading bears, and a concession of ¼ cent was forced. One swallow will not make a summer, and the could-be bulls on oil are not likely to be satisfied with one little rally of 2 or 3 cents. But the temper of the trade is more hopeful and the prospect would be brighter if some leader should come to the front. The market closed steady at the recession from the best points.

The range of prices and the total dealings at the Consolidated Exchange were as follows:

Opening ..... 63⅝ | Lowest 63
Highest ..... 64⅜ | Final 63⅞
Sales, barrels 2,181,000

The refined market was firm but unchanged at 7½ cents per gallon.

GRAIN AND PRODUCE MARKETS.

FEATURES OF NEW-YORK DEALINGS.

The grain market yesterday seemed to feel a depressing effect from the approach of the long holiday, beginning at noon to-day and lasting until Tuesday morning. Wheat was extremely dull and showed irregularity within a narrow range of fluctuations. The export demand showed a falling off from the recent large movement but still shippers took 120,000 bushels. The spot market was a shade better. Options opened firm but only a trifle better, and later the far-off months developed weakness, closing with net losses of ⅛@⅜ cent, while May and June were ⅛ cent better. The market closed only steady. Cash corn was steady and shippers bought over 100,000 bushels. Options were easier and closed ⅛@¼ cent lower and heavy. Oats were devoid of feature, but the options were ⅛@¼ cent easier, while spot lots were firm. The lard market was fairly firm, but there was no export demand. The options closed with little change from the preceding night.

The final quotations were as follows:

Wheat—May, 97½; June, 97⅝; July, 96¾; August, 94⅝; September, 94; December, 96⅝ cents.

Corn—June, 47½; July, 48¼; August, 49¼; September, 50¼ cents.

Oats—June, 32⅞; July, 33; August, 32⅞ cents.

Lard—May and June, $6 86; July, $6 97; August, $7 07; September, $7 16; October, $7 22; November, $7 12.

The receipts of grain and flour yesterday at New-York, Baltimore, Philadelphia and Boston were reported as follows: 287,000 bushels wheat, 34,400 bushels corn, 64,620 bushels; oats, 47,833 bushels; total grain, 450,915 bushels; flour, 25,900 packages. At Chicago, Milwaukee and St. Louis the receipts were: Wheat, 206,727 bushels; corn, 178,945 bushels; oats, 184,620 bushels; total grain, 565,292 bushels; flour, 16,911 barrels.

THE TRADE IN CHICAGO.

CHICAGO, May 27 (*Special*).—It was pretty generally known to-day that the clique peg was not in the market at 89 cents. There was too much wheat accumulating. When the clique brokers, however, withdrew from the market there was a "jump" to 88 cents for June in a twinkling amid a good deal of excitement and to 86¼ cents for July. June closed at 88⅛, July at 86⅛@86⅜. Corn closed at 39⅝@39¾ cents for July. The check put on the advance yesterday is intelligible when it is remembered that Chicago with a 2-cent further advance would have taken a good deal of Duluth wheat. The clique took a little June wheat at 88⅝ whenever it was offered, but were apparently encouraging no advance. July sold from 86⅜ to 86½ cents. It is said that the clique houses collected several hundred thousand dollars from the clearing houses this morning. One check from one firm was for $22,000. The estimated receipts of wheat at the markets to-morrow are 395 and the receipts to-day were large enough to show that the wheat is being headed this way with energy. There started from Minneapolis 80,640 bushels evidently meant for this market.

COFFEE—For Brazil growths the market was firmly maintained at 20¾c., though with considerable irregularity developed in the speculative market the element was light. The milder growths, however, were quite active, the sales comprising, on a strong market, 1,248 bags Maracaibo from first hands and 640 bags do from second hands. Also 1,000 mats Lahat, spot, 500 bags Timor at 24c., 1,000 peculs Padang, unshipped, and 500 peculs Maracaibo afloat. Option trading was irregular and less active. Cable accounts were were counteractive, the Rio cables being firmer and Havre weaker. Opening prices represented a decline of 35 points on June and of 10@20 points on the remaining months, but the market closed steady at a net advance of 10@20 points for the day. The ranges on the different months were as follows: June, 18.70@19.30; July, 19.10@19.70; August, 19.40@19.95; September, 19.75@20.20; October, 20.00@20.30; November, 20.10@20.40; December, 20.15@20.45. Sales, 156,750 bags.

COTTON—With a snarp advance in the option list prices of spot cotton were advanced ⅛c. but the advance checked business, the sales aggregating only 73 bales (25 last evening) all of which were for consumption. The port reported 1,000 bales, comparing with 1,563 bales this day last week and 2,900 bales this day last year. Since September 1 the total port receipts have been 5,165,007 bales, against 5,160,211 bales for the same period last year.

Option trading was active and very strong during the early portion of the day, but the feeling became easier toward the First prices represented an advance of 5 points on the old and of 2 points on the new crop and the close was easy at an advance of 17@21 points on this and 6@10 points advance on the new crop. The explanation of the sharp advance started with a desire on the part of shorts to cover their contracts on account of to-morrow and Monday being holidays. Sales, 239,600 bales.

GRAIN—WHEAT—Cash trading was more moderate today, the large business noted latterly having satisfied shippers' orders for the present. Prices advanced a trifle and closed firm. (Exporters took 128,000 bushels.) The option dealings were less active and wholly of a scalping character. Generally speaking the market was perfectly featureless. The opening was firm and all months advanced ⅛@¼c. Subsequently the temper became bearish, leading to a break of ⅜@⅝c., most marked on August and September, closing barely steady, with some reaction on nearby and far-off while late options are the lowest.
