The Mexican Mining Company has levied an assessment of 25 cents per share.

WEDNESDAY, July 6—P. M.

The stock market to-day in its lower range of values was little more than a reflection of the general disposition of the daily traders. They are almost universally "bears" on the immediate future, because last week's recovery from the extreme depression did not immediately develop into a grand "boom." In the absence of any marked local support, not to say an inclination of the leading spirits to encourage a "short" interest, prices easily yielded to a pressure of sales of phantom stocks and a persistent pounding of values. Until the early buying orders had been executed prices ruled strong, but when that was accomplished yesterday's work of depression was renewed and continued with vigor for the best part of the day. There was little or no resistance offered. Western Union led in the amount of transactions at the Stock Exchange, and its price was marked down from 76 7-8 to 75 3-8 and closed at 76 1-4. Philadelphia and Reading was sold from 56 3-4 down to 56 1-8, and it closed at 56 5-8. St. Paul went off from 87 5-8@88, to 86 5-8 and closed at 87 1-4. New-York and New-England declined from 51 1-8@51 1-2 to 49, and closed at 49 7-8. Pacific Mail sold off 1 3-4 to 43 and closed at 43 3-4. Delaware, Lackawanna and Western declined from 133@133 1-4 to 132 1-4, and closed as it opened at 133. Louisville and Nashville opened up 3-8 per cent at 62 1-8@62 1-4, sold down to 61 and closed at 62 1-8. Special aids to the day's declines were found in yesterday's failure in the dry goods trade, and in a further break of 4 per cent in Cotton Seed Oil certificates—one of the securities which the Stock Exchange permits dealings in within its walls and attempts to shirk responsibility for by classing it as "unlisted." Until last Saturday not one in a thousand of the holders of Cotton Seed Oil certificates had an idea of what share in the "trust" his certificates represented or what the profits of the "trust" were. Dealings in such "securities" at the Stock Exchange do not encourage an active business in the general list of "listed" securities. We are not prone to make predictions, but the late dealings, if they indicated anything, were favorable to the impression that prices were scraping the bottom. But the market has not yet assumed such proportions as to justify an opinion that is not guided by a knowledge of the interests of manipulation. In the meantime, with business and traffic and net earnings all favorable, there is a dearth of legitimate business in stocks, beyond a continued buying in a moderate way by people who pay in full for what they buy. During the last two days there has also been an important addition to the outstanding "short" interest.

Government bonds were more than usually active and weak, with the bids off ¼ for the 4s and ⅜ for the 4½s. Annexed are the closing quotations:

	Bid.	Ask.		Bid.	Ask

State bonds were entirely neglected, except for the sale of $1,000 Alabama 6s, class A, at 106. Of city bank stocks Manhattan sold (20) at 162, and Merchants' (20) at 143. Other sales at auction are reported below.

Railway bonds were quiet and easy under a small demand. Erie second 6s declined to 98@98⅛ and closed quoted 98@98¾. Missouri, Kansas and Texas general 5s were off ⅛ at 84½. West Shore 4s were steady at 101⅜@101¾, and New-York Central debenture 5s were firm at 110⅝. New-York, Chicago and St. Louis firsts assented were firm at 100¼. Ohio Southern incomes were off ⅝ at 41. Columbus, Hocking Valley and Toledo 5s were 1 per cent lower at 79. East Tennessee, Virginia and Georgia gold 5s declined ¼ to 98¾. Louisville, New-Albany and Chicago firsts sold at 111½@112½. Wheeling and Lake Erie firsts declined ¼ to 101@101⅛. New-York, Lackawanna and Western seconds were firm at 109¾@109¾. North western debenture 4s were off ½ at 96. Milwaukee, Lake Shore and Western firsts, Michigan division, sold at 115@116. Denver and Rio Grande 4s were ⅝ lower at 79½. Texas and Pacific incomes yielded ¾ to 57. Atlantic and Pacific 4s were firm at 84¾ but the incomes closed ⅞ lower at 34½. Gulf, Colorado and Santa Fé 6s sold at 104 and closed at 103½. St. Louis and San Francisco general 5s were off ½ at 98½.

Of unlisted securities dealt in at the Stock Exchange Cottonseed oil certificates sold (13,100) at 39¾@35@37⅛@35¾@36¾. Phenix Mining (400) at $1 10@$1 05 and Security Milling and Mining (1,200) at $6@$6 50.

Money worked easy. The first loans were made at 7 per cent, but the business of the day was done at 5@6 per cent. Late loans were made at 4@1 per cent and the closing was offered at 1 per cent.

The sub-Treasury was debtor at the Clearing House $563,569 and it redeemed 1,000 trade dollars.

The sub-Treasury to-day lost on balance $2,516,956, made up by a currency loss of $3,000,285 less a coin gain of $483,329. Probably this loss principally, if not entirely, is due to a Treasury transfer and does not affect the banks. The day's operations covered: Receipts, $1,639,969; payments, $4,156,925; currency balance, $12,193,930; coin balance, $149,409,993.

The Clearing House statement to-day was as follows: Exchanges, $151,450,012; balances, $5,699,957.

The United States Treasury at Washington received $89,000 National bank notes for redemption.

The customs receipts were $634,216, and the internal revenue receipts were $140,293.

The foreign exchanges were dull and barely steady at quotations for business as follows: Bankers' bills $4 84¼ and $4 84¼ for long and short sterling respectively; 5.22½ and 5.20 for francs; 94⅝ and 95¼ for reichmarks; 40⅛ and 40⅜ for guilders.

Blake Brothers & Co. advertise for sale a limited amount of State of Missouri 3½ per cent 5-20 years funding bonds dated July 1, 1887; interest payable in New-York.

Griswold & Gillet are offering, amongst a selection of investment securities, a limited amount of Orange Belt Railway Company's first mortgage bonds issued at the rate of $5,000 per mile.

In London British consols were 1-16 higher at 100 9-16 for both money and account. Bar silver recovered ⅛d. to 44d. per ounce English standard. India Council bills were allotted at a decline of 1-32d. per rupee from the rate of a week ago. The Bank of England lost on balance £83,000 bullion. American railways were responsive to the lower home quotations, but generally ruled a little higher than the concurrent home prices. At Paris French 3 per cents rose from 81.22½ to 81.42½.

The bound volume of *The Commercial and Financial Chronicle*—January-June, 1887—is ready for delivery and as usual it is a hand-book containing statistics valuable to every business office.

Safety from Malaria.

The most vigorous constitution and the strongest physique are not proof against a disease the germs of which impregnate the air we breathe and the water we drink. The true preparative, the surest defence, is to fortify the system with a medicine which possesses specific virtues as a safeguard and remedy. Hostetter's Stomach Bitters is precisely this article—proved by conclusive tests to be so. Not only on this continent wherever miasma gives birth to the malarial infection, but in the tropics where fever and ague assumes its most malignant types, this incomparable, popular and deserving medicine has for over a third of a century shown its efficacy. Chills and fever, dumb ague, bilious remittent alike yield to its influence and are prevented by it. The word "fail" has no place in the location of possibilities when this peerless article is used. It tones the stomach, arouses the liver when sluggish, and promotes healthful activity of the kidneys and bladder.
