WEDNESDAY, Sept. 21—P. M.

The proposals to sell 4½ per cent bonds to the Treasury to-day aggregated $1,375,000 at prices ranging from 107.90 to 110. Bonds were accepted to the aggregate of $1,065,300 at 107.90 to 108.50. The Secretary to-day buys $900,000 of bonds at higher prices than he paid last week for $4,000,000—108 and under.

Some developments made to-day go to show that there has not been such a successful realizing of profits by the "bear" element in the stock speculation as yesterday, by popular assent, was passed to its credit. Competent judges estimate that Europe yesterday purchased over 100,000 shares and to-day over 50,000 shares of stock in the New-York market. If this is true, and the condition of the foreign exchange market partially confirms it, there was little margin of yesterday's transactions left to be credited to purchases for the old outstanding 'shorts," after deducting from the total the tradings of the day and the known good buying for investment and in new speculative interest. To-day the market opened higher than yesterday's closing figures, but after the first fifteen minutes of business dulness prevailed, and pending an expectancy of the result of offers of bonds to the Treasury there was a sagging of prices. When the amount offered and the prices asked were announced there was a sharp and savage attack on values—another proof that the "bears" have not covered—which drove prices off 1 per cent or more. Prices were marked down with little business done. As soon as any buying was attempted, it was discovered that there were few stocks for sale at the current quotations, and from that moment figures steadily advanced to the close, finally establishing prices generally equal to the best of the day and almost universally higher than last evening. The Northern Pacifics were marked exceptions as to those stocks on which the "bears" concentrated their latest efforts toward depression. The special active stocks of the day were: Philadelphia and Reading, which, after fluctuations of 2⅜ per cent, closed ⅝ higher than last evening, St. Paul, which, after selling ½ lower than it did yesterday, closed 1 per cent higher, Delaware, Lackawanna and Western, which, after fluctuations of 2⅞ per cent, closed ½ higher than yesterday, Western Union, which, after declining 1¾ from its opening price, closed 1⅛ per cent higher than yesterday, Erie, which, after fluctuations of ⅞ per cent, closed ¾ higher than yesterday, Louisville and Nashville, which, after declining ½ per cent from its opening figures, closed 1⅝ per cent higher than yesterday, Lake Shore, which, after being pushed down to within ¾ of yesterday's lowest figures, closed ⅞ higher than last evening, New York and New-England, which was sold down 1 per cent lower than yesterday, lowest, to 36¼, closed only ¼ lower than yesterday—38⅝, Richmond and West Point, which closed ½ higher than yesterday, and Missouri Pacific, which was sold ¼ lower than yesterday, down to 89¾, and closed unchanged at 92¼. As an excuse or reason for the late advance, a story was circulated that the Vanderbilts had made "a private offer to the Secretary of the Treasury to sell him $20,000,000 of 4 per cent bonds." The advance in prices was due to the better character of the buying than that of the selling. The story was a consequent invention with the hope that its disproval would be a disappointment. The market closed quietly strong with indications that the "bear" interest has been reduced much less than we thought it had been last evening.

Government bonds were dull and steady at unchanged quotations as follows:

Chicago, Burlington and Quincy 5s were firm at 103½ and the 7s rose ½ to 130. Green Bay, Winona and St. Paul incomes declined to 30. Wabash firsts, Chicago Division, sold off 1 per cent to 94, and second 6s to 96. Texas and Pacific incomes were steady at 44 and firsts Rios were up ¼ at 60. Atlantic and Pacific incomes were active at 24¾@25. Northern Pacific firsts were ¾ higher at 114. New-Orleans and Pacific firsts were easy at 70@69½. Fort Worth and Denver firsts declined 2 per cent to 78, and closed at 79¾. St. Louis, Arkansas and Texas firsts were up ¾ at 97½, and the seconds were 3 per cent higher at 38.

Of unlisted securities dealt in at the Stock Exchange, Cotton Seed Oil certificates sold (2,100) at 27½@26¾@28¼. Western National Bank (10) at 95, Kingston and Pembroke iron (150) at $3@$3 12½, Georgia Pacific seconds ($20,000) at 45, Mexican National first certificates ($4,000) at 36, and Security Milling and Mining (800) at 90 cents@$1 25@90 cents.

Money was easy at 6 per cent in the early hours—a spurt was made to 6½ per cent, but the close was regular money money hours—after 3 o'clock—there was an abundant supply at 5 per cent and a few loans were made as low as 3 per cent. The closing was: "offered at 5 per cent."

The Sub-Treasury was debtor at the Clearing House $1,411,698.

The Sub-Treasury lost on balance $833,535, made up by losses of $129,140 currency and $704,395 coin. The day's operations covered: Receipts, $1,615,318; payments, $2,448,853; currency balance, $13,858,875; coin balance, $148,514,275.

The United States Treasury at Washington received to-day $200,000 National bank notes for redemption.

The customs receipts were $1,073,875 and the internal revenue receipts were $253,422.

The foreign exchanges were dull and weak at quotations for business as follows: Bankers' bills, 84 79¾ and $4 83¾ for long and short sterling respectively; 5.26¼ and 5.23¾ for francs; 94⅛ and 94⅝ for reichmarks; 40⅛ and 40⅜ for guilders.

In London British consols closed with ⅛ per cent advance at 101 5-16 and 101 7-16 respectively for money and account. Bar silver was 1-16d. lower at 44 7-16d. per ounce, English standard. India Council bills were allotted at a decline of 1-16d. per rupee. The Bank of England lost £14,000 bullion on balance. The rate for discount of bankers' bills in the open market was 3¾ per cent. American railroads promptly responded to yesterday's late advances in the home markets and continued to advance all day, finally closing something off the best figures; but till the close quotations were ¼@¾ per cent higher than concurrent home prices. At Paris French 3 per cents were up to 81.50.

GRAIN—WHEAT—With the large decrease of 1,056,000 bushels wheat indicated by the weekly report of the amount on passage the general temper of the speculative market was firm. Considerable irregularity was at times displayed, however, especially around noon, chiefly owing to the unsettled condition of Wall Street speculation, but toward the close of the main session concerted buying caused a sharp advance along the whole line, and final figures were the highest of the day. Cable accounts were rather better. A fair amount of animation was shown in the actual market at full prices. Exporters purchased 90,000 bushels. Sales—6,760,000 bushels future, 261,000 bushels spot, including Ungraded Spring: at 88@88½c.; No. 1 Hard, 88½c. to arrive; Ungraded Red, 79@81¾c.; No. 2 Red, 79c. in elevator; 80¾@ 81¾c. delivered; No. 2 Red, September, 78⅞@79⅝c., closing at 79⅝c.; do.
