FRIDAY, Nov. 18—P. M.

Fourteen more railroads to-day reported their gross earnings for the second week in November, giving an aggregate of $1,290,817 against $1,081,154 in the week of 1886—a gain of $209,663, or 19.4 per cent. Of the roads reporting to-day, nine reported in 1885; these roads now give a gain on the week of 1885 of 31 per cent. The aggregate earnings of the twenty-two companies already reported for the second week of November are $2,455,302, against $2,134,225 in the week of 1886—a gain of $321,367, or 14.6 per cent. Of the twenty-two companies, fourteen reported their weekly earnings in 1885, and those fourteen give an aggregate for the week of this year of $2,114,590 against $1,893,665 in the week of 1886—a gain of $200,735, or 10.9 per cent, and against $1,721,321 in the week of 1885—a gain of $393,069, or 22.8 per cent.

The "bears" at the Stock Exchange are all covered up and are more delighted than any one else over the sharp rally that prices have had—let them tell it. Yet their agents, under instructions, put out horrifying epistles of which the three following paragraphs are fair examples:

"The market is certainly a surprise to the conservative element."

"Whatever may be the present condition of affairs the future of business, from the very nature of events, must be uncertain."

"The political weather, while foggy at home, is threatening abroad."

Certainly no one is surprised at the present stock market except those few persons who, being elated over the success of destroying confidence during the last few months, supposed that for an indefinite time fiction could overrule facts. There are solid tons of wisdom in that remark that "the future of business must be uncertain," but it is not of that kind which has peopled the United States with 61,000,000 of inhabitants and built 150,000 miles of railroad. It smacks of that kind of kitchen wisdom which put the poor servant girl into hysterics over the possibilities that her baby, the possible fruit of a possible future marriage, might fall on to just such a red hot stove as the one the poor simple girl was looking at. The average thinker will go to European sources for a diagnosis of foreign politics, and not to a speculative kindergarten in Wall Street.

To-day's market was comparatively dull. The "bears" "tested" it with fresh sales in the early hours and discovered that the market was still there, and willing to purchase at very small concessions. As they moved from one quarter to another, there was an irregularity in the movement of prices. Northwestern was attacked to make the purchasing of St. Paul and the Northern Pacifics easier. The whole market responded to higher quotations from London, opened with considerable advances on last evening's closing prices. After that the fluctuations covered a range of 1 2-1 per cent, but there was a strong undertone all the time and at the close prices were considerably higher than last evening: Canada Southern 5-8, New Jersey Central 1 2, Northwestern 5-8, St. Paul 1 2, Delaware, Lackawanna and Western 1 2, Lake Shore 1 2, Louisville and Nashville 1 4, Missouri, Kansas and Texas 1 4, New York and New England 5-8, Northern Pacific preferred 3 4, Philadelphia and Reading 1 per cent, Texas Pacific 1 5-8, Wheeling and Lake Erie 1 per cent and Western Union 1 4 per cent. The hot rowing demand for stocks was about as active as ever and promises to be greater on the next delivery day which will be Monday. The market closed strong.

Government bonds were quiet and steady at quotations as follows:

The general railway bond market was fairly active and rulled strong. Erie second 5s were firm at 101 1-8 to 101 1-4. West Shore 4s sold up to 100 1 2. Canada Southern second 5s were firm at 92. Mexican National Construction (100) at 2s and security, Milling and Mining (900) at $1 37 1-2—$1 62 1 2.

This again was Friday, when the governors of the Stock Exchange bar its doors to all loans not made for three days; yet the common rate was 4—4 1-2 per cent, a sport was made to 6 per cent, but the last loan was at 4, and at the close offerings were at 3 per cent.

The Sub-Treasury was debtor to the Clearing House $354,853.

The business of the Sub-Treasury for the week ending to-night includes receipts of $7,040,665 and payments of $3,964,704, leaving the general balance $161,998,152 against $160,916,191 November 11, showing an apparent gain of $1,081,961; but deducting from the receipts $1,905,000 and from the payments $1,333,000 for items which only affect the Sub-Treasury's account with the General Treasury, its true gain as affecting the banks is $509,961, and this includes receipts of $825,000 for exchange on New Orleans, Chicago, etc. To-day's operations covered: Receipts, $1,078,730; payments, $995,041; currency balance, $10,702,868; coin balance, $151,295,284.

The Clearing House statement to-day is as follows: Exchanges, $137,861,204; balances, $4,490,429.

The United States Treasury at Washington received to-day $308,000 National bank notes for redemption.

The customs receipts were $530,135, and the internal revenue receipts were $687,269.

The foreign exchanges were rather more active and firmer. We revise quotations for business as follows: Bankers' bills, $4 82 and $4 85 1-8 for long and short sterling respectively; 5.24 3-8 and 5.21 7-8 for francs; 94 3-4 and 95 3-16 for reichmarks; 40 1-8 and 40 3-8 for guilders.

In London British consols were firm at 103 3-16 and 103 5-16. Money was easy at 2 1-2—2 3-4 per cent. The Bank of England lost £50,000 bullion on balance. Bar silver advanced 1-16 d. to 43 7-8. American railways opened irregular, but the 1:30 o'clock quotations, which were received before our opening, were all higher than the equivalents of yesterday's home closing quotations, and to the closing the market ruled strong. At Paris French 3 per cents declined from 80.77 1-2 to
