SPREADING SMALLPOX IN THE CITY.

A BOOK AGENT IN RIS WANDERINGS ENDANGERS SCORES OF PERSONS—PRECAUTIONS TAKEN.

A. M. Bradish, a book canvasser, walked into the Polyclinic Institute, in Third-ave., and said he desired treatment for an eruption on his body. He was examined and found to be recovering from a mild attack of smallpox. Information of his case was sent to Sanitary Headquarters and he was removed to North Brother Island. Bradish had caught the disease in a Bowery lodging house. For ten days he had been suffering from smallpox without knowing it, as he had such a mild attack that he was able to go about the city. During that time he had slept in the lodging house every night, and had canvassed for a book every day; visiting banks, insurance and brokers' offices in the lower part of the city. He gave an account of his wanderings, as nearly as he could recollect, on Friday evening.

Yesterday sanitary inspectors were following on his trail and offering free vaccination to clerks, bankers, lawyers and merchants who had been in conversation with him. President Bayles, of the Health Board, said yesterday that about 150 persons who had been exposed to smallpox by Bradish had been protected by vaccination. It is feared that the book agent in his wanderings has started several centres of contagion. The disease was introduced into the Bowery lodging house by a man who had caught it in Brooklyn.

When the schooner reached the Jersey Flats yesterday the police boat met her and the officers placed the mad mate under arrest.

PATERSON.

An attempt has been made to make a sensation out of the case of Peter Wilde, of No. 113 Jersey-st., who was found dead in bed. Death was caused by a hemorrhage of the lungs and there was no indication of foul play discovered by the Coroner. Wilde had been taking morphine in regular doses under a physician's prescription for some time, which accounted for the bottle of that drug found near his body.

Ex-Senator G. A. Hobart, receiver of the Ivanhoe Paper Company, says that in about ten days all the raw stock will have been worked up, and the mills will then be closed and the employes discharged. The Assembly concurred on Friday in the $250,000 appropriation by the Senate and work was resumed yesterday in the shoe and stove works of the State prison at Sing Sing. The 1,000 convicts employed in these industries were jubilant over the news.

WANTING A FREE-TRADE CONFERENCE TOO SOON

The famous proposed Free Trade conclave of the presidents of all the Exchanges and twenty "gentlemen" from each body was not held at the Real Estate Exchange yesterday. V. K. Stevenson, the handsome Windsor Hotel "Count of Chattanooga," who wanted Congress stirred up for its inaction in reducing the tariff, had given President Cruikshank, of the Real Estate Exchange, too short notice to bring such an august body together and moreover Mr. Cruikshank did not think the scheme one in exact line with the duties of the Exchange. It is understood that the "Count" is undaunted and that he will endeavor to show his devotion to the Manhattan Club Democratic principles by a future effort to rouse real estate enthusiasm in favor of cheapening the imported clothes of New-York's aristocracy at the expense of American wage-earners.

THE COLLEGE BASEBALL SCHEDULE.

The race for the pennant in the Intercollegiate Baseball Association promises to be unusually interesting this year. The nines from Yale, Harvard and Princeton will be the contestants. Applications for membership from Amherst, Williams and the University of Pennsylvania were received, but the three senior colleges in the league decided after long deliberation not to admit the applicants. The constitution will be the same as last year and the playing rules of the professional league will govern the contests of the students. No official umpires have been appointed as yet, because no application for the position has been received. When the would-be umpires send in their proposals the collegians will act upon them.

The pennant season will begin on April 28, the Yale and Princeton teams playing at Princeton. Twelve games will be played in all, each college playing four with each of the others in the league. The final game will be played on June 26, as the appended schedule will show:

A GOOD HUSBAND TO GET DIVORCED FROM.

Mrs. Sarah Ann Brower, the old woman who was nearly murdered at Hempstead, L. I., has begun a suit for divorce against her husband, Louis F. Brower, who was strongly suspected of trying to kill her. Mrs. Brower lay for a fortnight hovering on the verge of death. Her husband and Mrs. Mary Jane Lewis, with whom the old man was supposed to be unduly intimate, have been locked up in the Queen's County jail since the assault. Mrs. Brower wants a divorce and $20 weekly alimony. George A. Mott is the counsel for the old man and his co-respondent Mrs. Lewis, and he has served writs of habeas corpus to bring Brower and Mrs. Lewis out of jail. Judge Cullen adjourned the divorce proceedings until to-morrow, when the writs are returnable. The couple were married in 1846, and have great grandchildren. Mrs. Brower is sixty-one years of age and her husband three years her senior.

CASES OF SMALLPOX IN BROOKLYN.

THE HEALTH OFFICIALS LAX AND NEGLIGENT IN THEIR DUTY.

The Brooklyn Health Department is having a great amount of trouble with concealed cases of smallpox. Yesterday a case came to light in a peculiar manner and through the sharpness of a woman. She was walking along Grand-st. when she saw playing with a number of children a little child of Mrs. Borum, of No. 45 Grand-st. The child's face was covered with smallpox scars. The woman, who is an acquaintance of Mrs. Borum, asked the mother about the child and was told that he had recently recovered from the disease. There are two other children in the family and when they were inquired about Mrs. Borum said that they were away from home. Her acquaintance did not believe her, however, and went to the Health Department and reported her discovery. An officer was sent to investigate the case and he found a little girl of ten years afflicted with it, and a younger sister suffering from the first symptoms of the disease. They were all sent to the smallpox hospital.

Charles Fitter, of No. 199 Adams-st., walked into the First Precinct Station about 3 p. m. and said that he felt ill and did not know what was the matter with him. A surgeon made a hasty examination and found that he had a case of smallpox. He was sent to the hospital.

Much indignation is expressed at the reckless manner in which the Health Department handle their cases. In place of sending all the patients from their homes to the hospital immediately many are frequently taken to the Police Headquarters, where they are close to people who are constantly passing in and out. The drivers of the ambulances that carry the patients to the hospital are allowed to stand in the doorways and on the stairs, so that persons entering or leaving the place must pass by them. The drivers have to go into the infected dwellings and help carry out the diseased patients. There are now about seventy cases in the hospital and no one knows how many more there are that have been kept from the Health officials.

METHODIST WOMEN DISCUSS MISSION WORK.

The Woman's Foreign Missionary Society of the Methodist Episcopal Church held two meetings yesterday at the Trinity Methodist Episcopal Church, in East One-hundred-and-twenty-eighth-st., near Second-ave. The forenoon meeting was opened at 10 o'clock by devotional exercises, conducted by Mrs. I. Simmons, of Brooklyn. An interesting paper was read by Mrs. Joseph Wright, on "Woman's Place in the Church," which was followed by an address by the Rev. Mr. Ross, of Santiago, Chili. An intermission was then held, during which an ample luncheon was served by the ladies of the church.

At the afternoon meeting an inspiring address was delivered by Mrs. J. H. Knowles, followed by papers on "Our Motto," by Miss McAllister, of Citr Island; "What Paganism Does for Women," by Mrs. Denman, of Mount Vernon, and "What Christianity Does for Women," by Miss Grace Reid. The meeting was closed by an address by Mrs. W. B. Skidmore, corresponding secretary of the New-York branch of the Woman's Foreign Mission Society, in which she urged the necessity of financial support from the women of the country, in order that the Gospel may be preached to the women of heathen lands by women missionaries, as they are not allowed to hear men preach.

DESIGNS FOR THE GRANT MONUMENT.

The Grant Monument Association has issued a circular inviting artists, sculptors and architects to submit designs for the monument or memorial building to be erected at Riverside Park, over the tomb of General Grant. It is suggested that designs be submitted based upon an estimated expenditure of $500,000, but the total cost of the completed structure cannot at present be definitely fixed. Should the funds of the association be so largely increased as to allow of a greater expenditure, the surplus may be devoted to additional ornamentation and decoration, and suggestions embodying such a possibility should accompany the designs. Premiums of $1,500, $1,000, $500, $300 and $200 are offered for the five most meritorious designs. The circular sets forth a number of conditions with which competitors must comply, and copies of it may be had on application to the secretary, Richard T. Greener, No. 146 Broadway.

POLICEMEN MAKE A RAID ON A DOG-PIT.

Yesterday Superintendent Hankinson, of Henry Bergh's society, with several officers and four of the city police, raided a dog-pit at O'Neill's saloon, in Sunnyside, L. I. Only the proprietor and a bartender were to be seen, but the pit and one dog in readiness for fighting were seized. It was understood that a fight for $500 a side between two New-York dogs was to have taken place.
