SOME NEW BOOKS.

The letter written by the Hon. William D. Kelley to "The Manufacturers' Record" last year, has been published, with the title "The Old South and the New" (G. P. Putnam's Sons). Mr. Kelley's Southern tour convinced him that the Southern States have a great destiny before them, but that notwithstanding the energy and impetus of the generation that has grown up since the close of the War of the Rebellion, the progress of the region is still seriously hindered by the authority of tradition, especially in regard to the cultivation of cotton. He is satisfied that there must be a great change in this respect, and that diversified industry alone can secure to the South the fruition of her hopes. He saw abundant evidence of advance in agriculture, but was warned not to infer too much from the prosperity of many Southern cities and of the country near them, being assured that away from the railroads and considerable towns there existed a lamentable amount of thriftless and slovenly farming, to reform which must be difficult, chiefly because of the conservative ignorance and prejudice of the people. Mr. Kelley, however, saw for himself, sought out first-hand information wherever possible, and aided by his business experience and keen perceptions, reached conclusions highly encouraging for the future. The spirit of progress, he holds, is present, and is gradually doing its normal work. The advance of the South may not be so rapid as the most sanguine expect, but it will be certain and great.

Cassell & Co. have issued a timely new edition of the "Life of William of Germany," by Mr. Archibald Forbes, with three additional chapters, bringing the account to the end of the Emperor's reign and life. It is a compact, vigorous and thoroughly readable biography, and possesses the advantage of being written by an author who knew the German Kaiser personally, and had had abundant opportunity for observing him in the field, the camp and the palace. Mr. Forbes is an appreciative biographer, moreover, and his estimate of the late Emperor's character and conduct is high, though apparently not more so than the facts warrant.

John Evelyn's "Life of Mrs. Godolphin," edited by Edward William Harcourt, has been published by A. D. F. Randolph & Co. This is the second edition, the introduction to the first, by Bishop Wilberforce, having been retained in it. It is a quaintly written narrative of the life of a saintly young woman, who though placed in the dissipated court of Charles the Second, lived not only without stain, but so as to gain the highest encomiums, even from those who least reverenced her religion.
