SOME NEW BOOKS.

Macmillan & Co. have issued the first volume of what promises to be the favorite edition of Browning. It is to fill sixteen volumes and to contain the poet's final revisions. It is not always, perhaps not often, that poets improve their work by changing it. The example of Tennyson is in point. He has in no instance which we can now recall ventured upon a revision which did not do mischief to his verse. As a rule his amendments have substituted artificiality and stiffness for spontaneity and naturalness. It is to be hoped that Mr. Browning will confine himself, in preparing the new edition, to clearing up obscurities in the text. A scoffer might say that this is the more to be hoped because the effective fulfilment of this task could leave him very little leisure for the recasting of his verse. The first volume of the new edition contains "Pauline" and "Sordello," the former revised, and an introduction by Mr. Browning. The form and making of this edition are alike admirable The size is 16-mo, the type is large and beautiful, the paper white and thick, and the whole book light and convenient to the hand, clear and agreeable to the eye.

D. Appleton & Co. publish "Good Form in England," by an anonymous American writer who thinks his countrymen and countrywomen, entering as they do when abroad the highest social circles, ought to know how to comport themselves when dining with Queen Victoria at the Tower, which is "nat'rally your r'yal residence," or shooting pigeons with the Prince of Wales at Sandringham. The book is written with care; almost with solemnity; and it comprises a great deal of information of a kind to smooth the path of the travelling American, always provided that the travelling American who stands in need of such information is at all likely to profit by it—which is not quite a matter of course. The difficulty of such works as this is that they are superfluous to those who really have the entree to English society of the highest order, and that they are useless to those who have not that entree. In the present case, however, there are many matters explained which the tourist of low degree may find useful. Not all the words given as purely English are rightly catalogued, and some phrases which are not English at all are introduced. So, too, we find a few phrases common to both countries labelled Americanisms. Generally, however, the author's statements are correct, and he has labored hard to get into his pages everything which can be of any service to travellers.

Scribner & Welford publish a new vloume of the Bohn Libraries containing Cary's translation of "The Apology," "Crito," "Phaedo" and "Protagoras" of Plato. To those who wish to preserve translations of these dialogues in a handier form than that of the Jowett edition, the present volume can be recommended, though Cary's translation is less accurate and polished than Jowett's, and lacks also the valuable exegesis of the Master of Balliol.

New Publications.

HOUGHTON, MIFFLIN & CO.'S

NEW BOOKS.

IN NESTING TIME.
