Chicago Gas sold (200) at 34 5-8a34 3-4, New-York Mutual Telegraph (100) at 96, Lehigh and Wilkesbarre Coal (200) at 31 1-2, Newport News and Mississippi Valley (2) at 10 1-2, Pensacola and Atlanta (200) at 6 3-4a6 7-8, Toledo, Ann Arbor and North Michigan (200) at 26 1-2a26 5-8, Mexican National second series B ($4,000) at 25 1-2, Ohio, Indiana and Western interest certificates ($15,000) at 80, Richmond and Alleghany second receipts ($81,000) at 24 1-2a25 1-2, and Western Union 5s ($1,000) at 97.

Money till 2:30 o'clock ruled at 2a2 1-2 per cent; after that a number of small borrowers, to make up bank balances, found no offerings and they bid the rate upon themselves to 7 per cent. The last loan—$46,000—was made at 2 per cent, and at the close the offers were at 2 per cent.

The Clearing House statement to-day was as follows: Exchanges, $75,640,592; balances, $4,769,332.

The Sub-Treasury to-day was debtor at the Clearing House $903,068. Its net loss on balance on Saturday and today was $1,329,900, made up by losses of $658,553 currency and $671,336 coin. These balances include receipts of money for exchange on Western points as well as the payments for bonds. The two days' operations covered: Receipts, $5,136,759; payments, $6,466,678; resulting in a general balance of $185,296,088, consisting of $157,511,616 coin and $17,784,472 currency.

The United States Treasurer at Washington received to-day $152,000 National bank notes for redemption.

The customs receipts were $828,101, and the internal revenue receipt were $778,722.

In London, British consols continued weak, and declined to 97 for both money and account. In the open market money eased at 3 7-8a4 per cent for discount of bankers' bills. American railways opened higher, but gerrally not fully responsive to Saturday's home but figures; further improvements were made, follwed by some small concessions at the close—1 o'clock New-York time. At Paris, French 3 per cents again were lower and closed at 82.65, sight exchange on London ruling at 25.40.

THE PETROLEUM MARKET.

NEWS FROM THE FIELD AND RANGE OF PRICES.

The monthly report of development work in the petroleum country was published yesterday, and, as was expected, its character was bearish. As compared with the August report there is an increase of 658 barrels in the average new production, on an increase of thirty-six in the number of completed wells. The number of drilling wells is 120 larger than August and there is a gain of 165 in the number of rigs up and building. Here is a total increase of 285 in the new development work, but it must also be remembered that in many cases the chances of these new ventures reaping any reward that will materially affect the movement of production are extremely slim. While, of course, the drill is decidedly more active now than it was in the summer, the amount of new yield found last month was considerably below that of June or May. The decrease in the average new production in September as compared with June was 1,422 barrels; compared with May the decrease is 855 barrels. Now, since May 31, the curtailment of net stocks above ground (estimating the reduction for September partly) has amounted to 2,938,617 barrels, or say, in round figures, 3,000,000 barrels, assuming the September reduction to be 1,000,000 barrels. The volume of outstanding certificates since May 31 has been lessened 122,790 barrels, assuming that there was not a single certificate cancelled last month, leaving the total number at 16,855, representing only 16,855,397 barrels. But is reasonable to suppose that there has been some cancellation in certificates in September. We append the monthly field reports for the last five months:

The crude oil market failed yesterday to escape beyond the bounds of professional trading, but there was no change discernible in the general character of the buyers and the sellers. The field news was unimportant, and while the monthly report was bearish in comparison with August, its only effect was to open prices 3-8 cent lower at 95 cents. The bears saw an advance of over 1 cent almost immediately, and then there was a see-saw of small fluctuations, with 95 1-2 cents as the pivot. Just near the end another raid was made by the bears and it closed prices near the lowest point of the day, but no lower than the final price of Saturday. The market closed with little significance and without promise as to the next positive movement. The commercial strength of the commodity ought to act as a buffer to any sharp break and the persistent selling by the West might easily be overdone, but the market still lacks leadership.

The range of prices and the total dealings were as follows:

FLOUR AND MEAL—FLOUR—The week opens very buoyant in view of the continued rise in wheat. Most grades show a further advance of 15@25c per bbl, with light offerings. An increased business was transacted to-day, largely on wants of the home trade. Shippers bought very moderately. GRAIN—WHEAT—Continued buoyancy, and very brisk speculative dealings were the chief characteristics in this market to-day. From the very start there was a good buying by all parties, including a fair amount of orders from foreign houses. Prices steadily rose, until December reached $1.09 3-4 and May $1.12 3-4, or net gains of 4 3-8@3 1-2c respectively, as compared with the official close of Saturday last. The Western markets were all very bullish and more or less excited, and cable advices were reported higher and strong. The visible supply shows an increase of nearly half a million bushels, which failed to have any effect whatever. The situation here was very feverish at times, on heavy buying for short account, and prices fluctuated within the range of 1 1-2@1 1-4c. The following were the changes: December opened at $1.07 in one part of the pit, while $1.07 1-2 was paid at the same time in another direction. Afterward there was a rise to $1.08 1-4, then a drop to $1.07 1-2, and later on an advance to $1.09 3-4, subsequently settled back to $1.08 1-4, closing firm. May opened at $1.11, quickly advanced to $1.12 3-4, afterward reacted to $1.11 1-8, closing at 1-2c other month varied likewise. The spot market also showed decided improvement, most grades being held 3@3 1-2c per bush higher. The movement, however, is restricted by the enhanced views of holders. Exporters are practically out, and remain indifferent. Deliveries on contract, 800,000 bush, but not taken care of. Sales, 23,760,000 bushels future, 82,000 bushels spot, including No. 2 Chicago, $1@$1 1-2. No. 2 Red, $1.20 asked; Graded Winter Red, 80c@$1 17; No. 3 Red, 97 1-2c; No. 4 Red, 90@90 1-2c; No. 2 Red, $1.04@$1.04 1-2 elevator, $1.08@$1.08 1-2 delivered, $1.09@$1.09 3-4 free on board; No. 1 Red, $1.09; No. 2 White, $1.02; No. 1 White, $1.04; No. 2 October, $1.04 1-4@$1.06 3-8, closing at $1.05; do November, $1.06 1-2@$1.07 3-4, closing at $1.06 3-4; do December, $1.07@$1.09 3-4, closing at $1.08 1-4; do January, $1.09@$1.10 3-8, closing at $1.09 1-2; do March, $1.11@$1.11 7-8, closing at $1.11 1-2; do May, $1.11@$1.12 3-4, closing at 112. RYE—Wholly nominal in absence of business. BARLEY AND BARLEY MALT—Dull and nominally unchanged. CORN—The options ruled variable and very irregular, but on the whole the tone was rather bullish, most marked near the close. After a strong opening deliveries advanced 1@2 3-8c, subsequently there was freer selling, leading to a decline of 1 3-8@3c, later on the shorts began to cover and all months rose 1-2@3-4c, closing steady at 3-8@1-2c under the top. The speculation was more active all around. Spot lots gained 1-4@3-8c and closed steady, after a moderate business, shippers taking freely. Deliveries on contract, twenty to twenty-two loads. Sales, 2,000,000 bushels future, 102,000 bushels spot, including Ungraded Mixed, 49½@51½c; No. 2, 51@51½c elevator, 51½@51¾c delivered; No. 2 White, nominal, 55@55½c. No. 2 October, 50½@51½c, closing at 51c; do November, 51⅝@52⅛c, closing at 51⅞c; do December, 51½@52c, closing at 51⅝c; do January, 48¾@48⅞c, closing at 48⅞c; do February, 48½c, closing at 48½c. OATS—Spot grades showed a hardening tendency and closed 1@2c higher, with a fair business reported. The options were dull in near freely at 1@1c advance, closing firm. Sales, 460,000 bushels future, 170,000 bushels spot, including No. 3, 24½c; Ic White, 31½@32½c; No. 2, 26c; 2c White, 31c; No. 2 White, 32@32½c; Mixed Western, 29@31½c; White do, 27@47c; No. 2 October, 29½@30c, closing at 29½c; do November, 30⅝@30⅞c, closing at 30⅝c; do December, 31⅛@31½c, closing at 31⅛. BEEVES—Receipts yesterday and to-day 253 cars of 4,470 head—35 cars direct to East Side slaughterers; 94 cars at cattle-ds, of which 67 cars were for Mr. Eastman, 20 cars for J. Stern, 6 cars for Kaufman & Strauss and a single car local stock; and 124 cars at Jersey City, including 23 cars of export Steers for N. Morris. There were 125 cars in the yards for sale, mainly Texans, Colorados and Rangers. Less than one-third of the supply was Native and very few good Beeves among these. No really Prime Cattle offered.

The market opened a little firm and early sales were in some cases an advance of 10c over Friday's prices; but after 9 o'clock the market was flat and all the advance was lost, with very few buyers to be seen, and these few seemed totally indifferent to purchasing; in fact, it was difficult to get them to look at a yard of cattle. It was estimated that 35 cars were to sell at 1 p. m.

Texans sold at $2 75@$3 25; Colorado Steers at $3 15@$3 75; and Nebraska and Dakota do at $3 50@$5 50, with 10 Choice Heavy Indiana do reaching $5 60. Bulls sold at $2@$2 50, and a carload of Western Dry Cows at $2 65. The Denmark sailed yesterday with 370 Beeves for Nelsen Morris; and the Wisconsin will take out to-morrow 2,600 quarters of Beef.
