FLOUR AND MEAL—FLOUR—To-day's market was very dull in the full sense of the words. Exporters bought sparingly, and the local trade demand was only to corner actual wants. GRAIN—WHEAT—Yesterday's "long" selling was resumed to-day, and the market in consequence suffered a further decided break, attended at times with some little excitement. The situation was without support from any source, and the "bears" had things pretty much all their own way. Wall Street concerns were free sellers, and one house in particular unloaded a considerable amount of the May option, which intensified the weakness. Even the slightly increased export demand failed to have any material effect. Cable advices were reported dull and stiff on the downward turn, and the West developed pronounced heaviness. Speculation for the day was very brisk, nearly 15,000,000 bushels changing hands, and the net losses are 1 1-4@1 1-2c on deliveries up to and including June, and 5-8@7-8c on later months. May opened at 92 1-2c, a decline of 1-4c, and subsequently dropped 1-4c more. Foreigners were fair buyers at the reductions, and that, coupled with the spot export demand, led to a rally of 1-4@3-8c, after which the market steadily declined, May ultimately touching 91 1-8c, leaving off, however, at 91 3-8c. On the curb, May ranged from 91 1-4@91 3-8c, closing at 91 1-8c. Cash sales were down fully 1@1 1-2c, with free sellers at the decline. Exporters took seven loads here for Liverpool, Antwerp and Bristol, besides six loads rumored at Milwaukee. Millers were quiet. Two-rowed State quoted 90c; six-rowed do, 93@95c; Canada, $1 41 10.....CORN—The general market tended lower to-day as affected by the break in wheat and heavy receipts at the West. Cash grades are down about 1-4c, and the export movement was more moderate, only 80,000 bushels taken. Options sympathized with a decline of 1-8@1-4c, leaving off steady, after a light business. Sales, 520,000 bushels future, 122,000 bushels spot, including Ungraded Mixed, 41@ 43 1-2c; No. 3, 41 1-2c elevator, 42 1-2c, delivered; Steamer Mixed, 42 1-4@42 1-2c elevator, 43 1-4@43 1-2c delivered; No. 2, 42 3-8@42 1-2c elevator, 43 3-8@43 5-8c afloat; Steamer Yellow, 43 1-2c delivered; No. 2 March, closing 42 1-2@42 5-8c; do April, 42 3-4@42 7-8c, closing at 42 3-4c; do May, 43@43 1-4c, closing at 43c; do June, 43@43 1-4c, closing at 43 1-8c; do July, closing at 43 1-2c; Steamer, April, 41 1-2@41 5-8c.....OATS—For prompt delivery were offered with more reserve, and some grades show a slight advance.
