GENERAL MARKET REPORT.

COFFEE—Spot grades of Rio suffered a further break of 1-4c to-day, owing to the steady decline in options. Trading, however, was unimportant. Fair cargoes quoted 17 1-2c. Mild growths have a firm tone. The option market was active and very irregular, with some little excitement noted on the pressure to sell. Liquidation of "longs" was resumed quite early, and that, coupled with a further decline in Havre, led to a general break of 30@40 points, after which there was a rally of 5@10 points, on some little buying, closing steady. Havre dropped 2 3-4 frs. early and late cables showed an additional loss of 2 1-4 frs. Hamburg advanced 1-4@1 pfg., but it had no effect. Rio quiet. Rio purchases for the United States the past week, 17,000 bags; Rio purchases for Europe and other countries, during the past week, 13,000 bags; Rio clearances by (2) steamers for the United States, 25,000 bags; Rio clearances for Europe and other countries, 12,000 bags; steamers loading at Rio for the United States, 1; freight per steamer, 30c and 5 per cent primage per bag. FLOUR AND MEAL—FLOUR—The early rise in wheat had a stimulating effect on this market, and some grades were held at an advance of 5@15c per bbl, but the firmness materially checked trading, and at the close the feeling was just steady. GRAIN—WHEAT—The speculative market was considerably excited and very feverish to-day, through the manipulation of the July option, which was started immediately after the opening, and continued during the entire session, wholly irrespective of the fluctuations at the West. The dealings were unusually heavy, upward of 25,000,000 bushels changing hands, more than half of which was transacted during the first hour, when the situation was the strongest and most excited. Various prices prevailed almost simultaneously, and the pit was in a state of ferment from the start to the close. Thus, July ruled at 85¼c one minute, and the next 86¼c, only to react a full cent in less than two minutes after. It was a stubborn fight between the "bulls" and "bears," in which both sides suffered alike, but the latter element ultimately predominated. July opened at 84⅞c, and December at 87⅞c, as against 83⅞c and 87c respectively, the official close of Saturday last, and subsequently rallied ¼@⅜c more. One or two local houses then began bidding July up, and foreign concerns bought heavily, which frightened the "shorts." Prices advanced with great rapidity, and in a short time July reached 86 1-4c and December 88 7-8c. Realizing, however, quickly followed and the market broke precipitately to 83 1-8c on July and 86 1-4c on December, closing unsettled at about July and 86 1-4c on December, closing unsettled at about 1-2c above the bottom. In the curb there was a further 1-2c decline on reports of rain in the Northwest. July closed at 83c and December 85 7-8c. The showing of the visible supply statement (a decrease of 1,260,887 bushels) had little supply statement (a decrease of 1,260,887 bushels) had no material effect. Spots lots were dull and unsettled, closing somewhat lower with options. Millers took four cargoes of Western, 20,000 bushels, and 25,104,000 bushels, but shippers were quiet. Sales, 25,104,000 bushels spot, including Ungraded Winter Red at 82 1-4@84 3-4c; No. 2 Red, afloat, 85@85 5-8c; do in store quoted 83 1-4@83 1-2c; No. 2 Red, afloat, 85@85 5-8c; at 83 1-8c; do July, 83 1-8@84 1-4c, closing at 83c; do September, 82 13-16@85 1-4c, closing at 83 1-2c; do October, closing at 83 1-8@85 1-4c; do December, 86 1-4@88 7-8c, closing at 86 1-2c; do May, 91 1-4@93 1-8c, closing at 91 1-4c.

Exporters took 120,000 bushels, including some to arrive. Options were fairly active, and after a slightly higher opening, final figures were essentially the same as on Saturday last. THE CROP OUTLOOK IN NEBRASKA.

Omaha, Neb., June 17.—"The Bee" prints reports on the condition of the crops from special correspondents throughout the State. The outlook could hardly be more encouraging for cereals of all kinds. Corn is in an especially fine condition. The small grains have suffered slightly in a few localities on account of dry weather, but with the recent heavy rains they promise a harvest almost, if not fully, up to the best of former years. Fruit of all kinds is yielding in abundance.
